High Ground
Cantont

Dear Mr Som

We are now in Kalimpong where my husband is very busy with his work – We think often of you & Mrs Somnath Iyer, and hope you all are well. We had a very busy time in Delhi, and also saw a number of people in connection with the matter discussed*. ~~Let us~~ We hope the matter will be settled – Do write to us & let us have your news –

I would appreciate if you could help us with the P.W.D. Department who are ~~causing~~ insisting that a small shed, and a water, Trough, which is built next to our Estate on the main Road outside the Estate, not far from the main Gate, be removed immediately – The above shed and water Trough was built for Public convenience as we give free water to the passing Bullock Carts, and villagers free of charge – The shed is also to give shelter to them, as our Estate is midways and the carts spend the

Balkrishna refused to let the man see our Estate as he said without perm: no one

rights near our Estate —
It seems that our manager
Mr D. B. Legge and Mr Balkrishna
are unable to settle the issue.
I feel that it is in the public
interests that these remain
where they are, since they
are put up over 15 years
ago —
I am asking our assistant
manager Mr Balkrishna, &
Mr D. B. Legge to contact you.
Also the Road Engineers
are measuring the Lake
near the Factory and I we
do not know what and
who is behind these moves
but we feel it should be
checked now — you will
appreciate that from here
it is very difficult to guide
these people, our assistant
manager thinks ~~that~~ since
they always come when
the manager is away that
it may be someone puts
them up to ~~come~~ harass him —
He is a good boy but inexperienced
we told you about him —
since we shall soon be
coming back, we would
not like anything to happen
in our absence —
With our very best wishes
to you & Mrs Somanatha Iyer
