Jalgunni Estate,
29 - 1 - '53.

My dear Sir,

I am awaiting your letter from Delhi. I had a letter from Bombay dated on 18th January. After that I have no letter from you. I hope you have my letter dated on last 25th, Containing the list of money, we require for February 1953.

Here everything is alright. We started weeding on last 20th Evening according your plan. As the hot season has started, we stopped bringing Linaloe trees from outside, we are watering those newly planted big trees in nursery and back side of the Bungalow. I am writing all daily news in my diary book, to tell to you personally.

Last 18th Sunday at midnight some stones fallen on my house and Mr. Legge reported ~~it~~ to the Daffadar. He Came with a police, inquired the matter and gave a sound warning to all estate labourers. Then on 26th monday morning I happened to see fire in our manure pit, inspite of our Coolies effort we took more than two days to stop it. As Mr. Legge was not here on that day I informed that matter to the inspector privately. He sent the

Daffadar to inquire, and he gave a warning and some instruction to all. For these two instances I suspect some of our Estate people. I have given their names to the inspector. As he requested me for two statements ~~from~~ I gave him stating all matters. He told me, he wants to see Pappa. I sent him without knowing anybody to see him. I am used to say all to Madam Bangalore. She advices me in time.

I am very glad to say, that there is no trouble or quarrel here now. We are keeping peace and harmony.

Last 25th evening when Karuppa was taking a pump from factory, it fall on his foot and got a wound. We sent him to the hospital in Cantonement. Mr. Legge gave him 1-4-0 and 1-5-0 bus charge in two times to go there. He is better.

Sometimes we have to water all seedlings in Padhara from February onwards. It is too hot time. There in a small well we have water.

To day Mr. Legge went to ~~Jangamalli~~ Jalledy, knowing there are Lirabee trees in a government forest. He says it is 16 and they do not like to give. They are keeping chippies and berries in a bag. P.T.O.

Now a days Pappa is cleaning and white washing inside the bungalow and Kadara; making beds in garden. Now our Cook is abright. He is always looking our garden and not keeping electric light after 8-30 P.M.

Our factory Working Kadara (living with K. Narsa and yenkiti) is asking work daily. He says always to write to you. Chic Narsa and Dod Kadara are doing their best as watch men.

As Sengeiva is temporary in our list, he left the Estate on last month. So his room is vacant. Narigappa is keeping chickens in that room and it is very dirty. Mr. Legge locked only Munthimmaiah's room when he left. From last 4th January onwards Chicca is absent; We do not know anything about him. Temporary Yenkita is working from 22nd inst; onwards. His wife Yenkiti was sick for two three days. Now she is better and asking work. Mr. Legge ~~gave~~ giving Karigappa 1-6-0 and 1-5-0 bus fare to go to Bangalore hospital and he is better now. Last weekly advance was 101 Rs. We are all doing well. With best wishes.

I am,
Yours Obediently,
K B Ayyappa

P.S. Obli's son Narayana is worse now. We are sending him to the Kaglipur hospital.
