Dear Mr. Roerich,

I was very sorry indeed to hear to-day of the very sad loss you have suffered in the passing of your Father and I write to express my very sincere sympathy to you. It must have come as a great shock to you when you had left him comparatively well. I know that words seem to convey little meaning when endeavouring to express sympathy, but I do wish to assure you of my

kind thoughts and remembrance
at this time.

With deepest sympathy,
yours sincerely,
C.R.H. Wilkinson.

My Sorrowstricken pair,

Your letter of 8th December arrived me in such a sorrowful time when we all heart-broken were saying departure to the immortal body of our Maharishi Prof Roerich & when every creature on this unfortunate land was sunk in the ocean of sorrow. Indeed it is a great loss to the world. Russia has lost a great son, India has lost a great friend, The world has lost a great man of irreplaceable ability as Philosopher, Poet, Scientist, Artist and a literary man. The world will feel his loss for ever. Although his body which was so pure as anything in the world is no more on earth but our Rishi ~~has~~ will always be living among us because of his creations, teachings and his greatness. His cremation took place on 15th December at 11-0 and it was remarkable that there was no smell but fragrance in smoke and all things got into ashes within a short time of 4 hours ~~which~~ which we have never seen. We collected the ashes on 17th and at the cremation

spot a memorial is being built, where some of the
ashes of this Gem of the present world will witness
his love of Himalayan Peaks and his entire life
dedication for the peace of the world. His memorial
we will respect & protect by all means. His loss
which is great we & our future generations will feel
at all times as history has and can produce rare
records of such a great soul having so many
combined abilities as Artist, Scientist, philosopher
poet, and literary man and a seer at the same
time. His creations will keep him alive for ever.
One thing we should admit that ^{although} there is limit
to everything born but the world was in need of
such a great soul for guidance but alas it could
not be so & cruel death at quite an unexpected
time, but perhaps this great soul was more
needed in heaven as there was no place left
on this scorched earth of ours where human
nature has quite changed & Rishi like Prof.
would not suit for this cruel visions. It is also

remarkable that Prof. could not visualize or hear mis happenings of this country for which he had so much regard. Madame, or George and all of us are very much feeling this departure, but there is nothing except patience & courage and to pray for the departed soul to get best place in paradise.

All in the house are preparing to come down to Delhi. But the weather is getting extremely cold and it is snowing to day. The Road at Mandi Road has still the gap of 3 miles and only mule traffic has been restored. Anyhow we will arrange in the best way. The bridge at Katrain is ready. General position in the Valley is quiet. The Car of yours will be arranged to drive down as soon as Road is through in March 48. At present it is impossible even if I arrange lot of coolies because Transshipment is long. The motor car papers again came from Dharan sala and are sent back after filling in the requisition.

The spring is put to the car and is still at Katrain.
But now we can get it to Patli Kuhl in our own
garage. As all the house members are soon coming
to Delhi I request to ask the Govt to arrange protection
so that everything is easy. Please tell Vishnu Sharan
that his wife & younger ones are all well.

In the end I will earnestly request to have
courage & patience against this sad & sorrowful
happening which came due to our bad luck.

Yours ever faithful & obedient
Kam Han Khandel
