THE MODERN THINKER

HIERARCHY. *Agni Yoga Publications.*
310 Riverside Drive, New York.
\$1.00.

The present volume, an anonymous work, is one of the series of the Agni Yoga Publications. It is an interesting contribution to a philosophic library. It is the author's thesis that the concept of leadership is the synthesis of all the highest strivings. This is depicted as the concept of Hierarchy, of an Illumined Leader to direct the energies of man. The Leader is the Hierarch. The author conceives that Heirarchy is a force directing toward the general good.
