the question of ownership of money never raised directly. Now 7 years, and we have Minutes (official) which says that all Ring on 25th floor were my property. vide.

However opening President's report of June 18 1931. I find about 1/5 transfer that Trustees have accepted my donation for "money due" whatever may be meant here. Since there was no money due. for the 1200 I have already given & yet before. And the cost of 7th street & India was placed into the "Trustees Repo" since I never used the item on other accounts paid myself.

On Examining Minutes of Trustees of we find no mention of a Thanks and Mr H told me timely that the could not be taken was a matter of protection and therefore could not be Entered into Minutes, Some Minutes were official.—

I have recorded facts for future reference substantiating them with documents etc. & my memory is so clear the minute as if I was living them. Everything again. I can hear words pronounced, all scenes and happenings. Who will ever know my suffering a wishing life in the to people having up Occultism and Occultism cannot be mixed, living on the Surface of the Outer World. Occult aspirations precipitate Karmic Events and without constant guardance they may well Engulf the Aspirant. — Would I those happenings never took place? No, what a precious Experience. Now that I look upon it having left it all behind far, far away, it is a milestone I had to pass thru — to find myself. So you it will be a revelation when I tell you all and the day is not very far off I believe.

We must always analyse cause and effect. Very often we see only one side of the question but in order to have the picture complete we must know all. ———

I have recorded facts for future reference substantiating them with documents etc. My memory is so clear the minute as if I was living things Everything again. I can hear words pronounced, all scenes and happenings. Who will ever know my suffering - A wishing lies in the to people having occultism and having other people occultism cannot be mixed, so lived in the turmoil of the Outer World. Occult aspirations precipitate karmic events and without constant guidance they may well engulf the aspirant. Would I have happenings never took place? No, what a precious experience was that I look upon it having left it all behind me, far away, it is a milestone I had to pass through - to find myself. P.S. You will see Dennis, for these papers that all Trustees vote for Life. This was the fundamental basis of the Organisation. Father was the Chairman of the Board keep these facts by Liart and tell them to Schultz. Q. The course of the week I will prepare a memorandum recalling all dealings I have had with the Gentlemen of the "Trio"

I propose to call M^r H. N^o 1 M^r H N^o 2 Holland Lady N^o 3. Then we have the "Trio" 1. 2. 3.

"You may follow Tis.

Please be careful of all letters this is very important. See that nothing gets lost.

Father just said that in case you think it good to show the Enclosed papers to Schultz yourself do so, but shortly confidentially and do not leave them anywhere within your hands. Since Sir Francis has them also perhaps they can show their copies to Schultz at meeting but do as you Think best.

With much Love I last Night

N°10

Oct 29. 31 we received cable from Am2. asking about N°10 for campaign work if he could be useful.
To which it was answered, why not.
Since every person must be useful in something.
The idea expressed by Am2. that N°10 was encouraged by others is right, moreover Am2. has asked if he could be useful and it was thought to allow him that he could be.
Then N°10 was a member of the organisation and Am2. was not told he was not good. ——————
He was only a friend of his as others were

Of course the "Trio" may spin anything upon Am2. since they go about telling all sorts of things. But Am2. has a good relation in saying that he worked in town and that now the "Trio" is trying to "force" Am2. to relinquish his debts. Thus it is a recource to coercion threatened.
Since Fr. Maur. would support you, perhaps speak to him.
It could be very advisable explained that N°10 was working here, he was a friend of Am2. but anyone can tell anything.
After all the Motto N°10 I met in 27 and she would come often to Rue[illegible]

Thus it is getting near.
I think I can assume from Fr. also could be very useful. To show you the type of stories privately told by Frs
Will the fact that I was told that Amz. is too friendly with Schultz and other such things, lies, and lies. ——— "——
However perusing memorandum you shall see that people who can say the thing today and another tomorrow are liable to say anything.
This is the reason why I thought Schultz could be injured with debts. —
Debts explain many a thing in the world. Blackmail is based upon money as a rule. Let us then weigh facts. No 10 was wearing for Museum (they say Amz. paid salary) Amz can say not only so but by giving loans salaries of other people Especially (I wonder is true that money did go after all?) They may say Amz. fixed some apt. for No 10. Amz. can say she gave a present or so became regarded as that. Me was from salary. ——
But facts are facts, but items clear it, and let Amz. tell all everything. ———
We have here a tally by No 10 journey

Le was handing Campain at 310.—
The memorandum is best burned after reading it.
Let Adm. write me her thoughts and ideas.—
She must prepare herself. Sir, F. Maurice will be very useful to her as witness.

your pain continue and we ask you to take every precaution. Try not to take to heart the discussion among the co-workers, this can hardly be helped. The condition has taken too deep roots during the course of the last 15 years. We know that unity in Christ understanding means full subjugation to the Roots & Stock in turn means crucifixion and death to the flesh. But as the reader as a witness one should not irritate her since in the anger of her irritation she may turn against everyone. Therefore one should show & preserve at least outward unity with her. Likewise do not burden yourself at present with too many & no longer. Br will tell me the most essential. Employ every minute of your leisure to imbue the beauties of Nature and pondering over the Teaching of Christ. We would also so much like to know you have a quiet summer.

Let Brother Dave a suggestion or two to come to the "single" soldier in your case. Always remember that we constantly keep you in our mind and heart and await those days when we shall be able to meet and begin our work without hampering Elements. In our general we have Enumerated all the considerations point by point of X cause must depend upon the decision of the court but let us have calmly the worst possible verdicts. Our duty demands not to lose the Case and leave a loophole for Defence to continue a legal a new case against the defendants. Events have proved so fast that a multitude of circumstances can arise at any moment. Although as Reynolds Enquiry were in favour with the highest will Reynolds not in power by up. If Something Could unfavourable or unreasonable Sentence it may come of itself.

Rep. Dr Boyle to you Lewis content
and myself will be surprised to see
Dr Boyle walk about boyan

of Prof. R and each succeeding is
better than the preceding one.
One left for the Museum in Prague
the other is intended for the Louvre

canvases of local life. They are
splendid. My P. can recall the
achievements and transmutations
them in the splendors of new colours
All Rome who see them are very

I

Now Dear Ty before I left N.Y. Mr I came home and said you never know what these people (meaning R. Mundy) and while you are away your property ought to be properly protected The best way is for you to leave it under the protection of the U.S.M. I will have a paper typed out and you sign it - You shall have it so that he can't do something every thing is protected. ——— He brought down the following paper and when I asked about the money he said that it was quite necessary because otherwise it would not be legal. Now you want the best way and in case he now takes the; would be if to say to have I received anything from the U.S.M. I have never received any money. — The only money before my departure for Mr Soo on the House next door and some of the odd items. and they have duly received objects for this and they do recorded. ———

Another thing you and I agreement testify that they always reffered that these objects were mine at the time they were being stored.

D

I will write to Sina about it and she must prepare Frances, Maurice. Then we have enough witnesses. Moreover they cannot force the object and anyway you have part of them at home.

Very likely nothing may come up. But at the same time one must be prepared. I find in my records a paper written at the time which please transmit to Sina. This is a copy of the Document and the Explanatory paper; I always wanted to send it to you but did not think it important.
If Sina keeps it safe somewhere, as you she was advised at the time about it.
It would be important if Sina would say she knew of this from Me.
Once as far as I remember I said that my object was placed under the protection of the Royal Museum but perhaps at the time it was not noted. It is best therefore to keep it in mind and be prepared by saying that this was a precautionary measure during my absence.
