5th June, 1958.

        Enclosed please find the Insurance
Certificate which should be given to the Driver
instead of the old one. They will send the
Policy later on directly to Bangalore.

        I shall be trying to find the Barbed
Wire and I shall get the needed quantities from
here.

        If the weather is good, please plant
as many trees as you can.

POINTS FOR MR. LEGGE

1. Please ask Paapa or Cariappa to take out from godown one large alluminium drum (which I believe had no tap) as it was leaking and order from Keshavlal or the best firm available 2 (two) similar drums of the same size as slightly different in case they have some technical difficulties to make it of the same exactly size.

2. What about the large condenser, it must be attended to as soon as possible -

3. Have the people recommended by Maj. Talwar who were making the small condenser completed the job satisfactorily?

4. I am glad that sufficient fuel has been stacked for the season.

5. I hope all the small Linaloe Tress in Nesserghatta that have flowered as Males been marked as such? - How many males are there? -

6. Please ask Maj. Talwar about the Nylon Washers, this is most important, as most of our washers may crack some time.

7. We must collect seedlings of Silver Oaks and plant them in the nursery.

8. We must also get some seeds of Casuarinas for possible use as fuel.

9. The young Linaloe seedlings must have been planted in the new areas, they must be watered if the rains fail.

10. The most important thing is to have the Condensers in proper working order for the season.

11. We had a very large flat drum or pan without a tap, which we have not used as yet - It must be provided with a large tap of the kind we have on some of our drums (alluminium)

12. We should purchase 3 such taps or order them if not readily available. These taps are much better.

13. Please let me know how much of the machinery that was being repaired has been delivered back to us.

14. Everything must be checked from now on, so that whatever is needed may be obtained in time.
