Wednesday, Aug. 16th, 1922.

Dear friends, we have just received your letters. I hasten to send mine so that it should reach the boat. Of course the idea of a general course pleases me. Of course I was certain that Horch will not abandon the works and of course the amount of expenditures now depends upon him. Regarding exhibition we shall await: 1) the reply from the insurance company, 2) the general work of Corona Mundi, because now everything comes from the corporation it means that the leaflet has to be ready. Besides, now it is most dangerous to scatter the paintings at cheap prices. Of course Corona Mundi will give wealth to all and Master Institute will give education. Please drop in to the Fifth Avenue Bank (corner 44 street) and tell to Vice President Fancier, that they receive from Crane a check for \$2700. I ask to deposit \$1700 - to my account and \$1000 for the payment of my debt. We passed a pleasant time at Crane's. And of course all works of M.M. will give results beyond expectations. But action, action, action! We kiss you all strongly. My wife feels much better. Yurik arrived well. Hartily yours,

*has to
out of the money
to enter*
