## MASTER INSTITUTE — OF UNITED ARTS —

Founded in New York, November 17, 1921

"ART will unify all humanity, art is one—indivisible. Art has its many branches, yet all are one. Art is the manifestation of the coming synthesis. Art is for all. Everyone will enjoy true art. The gates of the 'sacred source' must be wide open for everybody, and the light of art will influence numerous hearts with a new love. At first this feeling will be unconscious, but after all it will purify human consciousness, and how many young hearts are searching for something real and beautiful! So give it to them. Bring art to the people—where it belongs. We should have not only museums, theatres, universities, public libraries, railway stations and hospitals, but even prisons, decorated and beautified. Then we shall have no more prisons."

## CORONA MUNDI INTERNATIONAL — ART CENTER —

INC.

"HUMANITY is facing the coming events of cosmic greatness. Humanity already realizes, that all occurrences are not accidental. The time for the construction of future culture is at hand. Before our eyes the revaluation of values is being witnessed. Amidst ruins of valueless banknotes, mankind has found the real value of the world's significance. The values of great art are victoriously traversing all storms of earthly commotions. Even the 'earthly' people already understand the vital importance of active beauty. And when we proclaim: Love, beauty and action, we know verily, that we pronounce the formula of the international language. And this formula, which now belongs to the Museum and stage must enter every day life. The sign of beauty will open all sacred gates. Beneath the sign of beauty we walk joyfully. With beauty we conquer. Through beauty we pray. In beauty we are united. And now we affirm these words—not on the snowy heights, but amidst the turmoil of the city. And realizing the path of true reality, we greet with a happy smile the future.
