My dear Brother:-

This is to thank you for your most appreciated letter of Nov. 21st giving beautiful expression to the bond of Brotherhood and spiritual oneness between our two movements.

Your letters always convey a joyous encouragement and are helpful in these ~~dark~~ hard days, of the Armageddon and the fights between the forces of darkness and light.

Truly, it is not always an easy thing to stand in the middle of the battles of these forces, and our deepest sympathy goes to you and your leader, Prof. Roerich, if he too is attacked by misunderstanding and vicious forces. However, we can scarcely expect that this would not be the case in a position and work as outstanding and exposed as his is. All we can do is to stand within the Higher Self and let the battles rage, and the forces of negation and evil will die out and the forces of Light will be victorious. This is what we are trying to do with the devotion of our lives!

Yes, we are one with you and your co-workers in spirit and service to the Masters and humanity, and may the blessings of Light be with us all and strengthen us in the wisdom to do the right things in this hard but great time. It means sacrifice of the self to the Self all along the way.

I remain, as ever,

Sincerely and fraternally
Your brother in service
W. H. Dower
