My dear Mr. Roerich:

I am sorry that we are so slow in getting out the copy of your painting but we had to get thoroughly established in our new head quarters and the members have to pay a lot more than the regular dues to keep up the rent until we get a larger membership so it has been difficult to raise immediate cash, however we have made a move toward raising the money other than donations.

Some orders are coming in from the announcement in the Messenger and we are now sending out circulars with the hope of getting enough orders in advance to get the work done.

Could you tell me of an Art magazine which would be practical for advertising in?

Thanking you ,I am

most sincerely

(Mrs) Emma Lewis

P.S

I have put you down for 10 as soon as the prints are finished, as you mentioned that number in your last letter for your school. I am sending announcements to all the names you sent me. Thank you again
