Brooklyn N.Y.

No. 206 - B - 31

11th April 1931

My dear Dr. Horsch,

I hope you might have to spare a long time to study my small letter. I wish you the best of the health and I wish to write to you with pleasure that, it is a way of business too. It would be a very grand exposition that has ever been done uptodate in America and it would be a good chance to push a heavy sales of entries, I would like to fix your private pocket for all your personal interests with me at ten percent excluding of the museums, if there are any to be considered.

The publicity, I hope you have associated press or some other department at your disposal for the papers.

It is sufficient for you to write,

With my best regards to Mrs. HORCH,

I am

Yours sincerely,

Signed K. K. Shah
