

Letter received from Mr. A. Araujo of Montevideo.

April 9, 1931.

Society of Friends of Roerich Museum
Mrs. L. L. Horch,
310 Riverside Drive,
New York:-

Dear Mrs. Horch:-

I beg to acknowledge receipt of your kind letter dated the fifth of March as well as the Spanish translation of the article of Professor Roerich on St. Francis.

As you are aware, I am editing the Latin-American magazine "LA PLUMA", a copy of which I am sending to you by the same mail. I can always give space in same for articles that you may like to send. At the same time I want to mention that I am planning also a new magazine of Arts, Sciences and Letters to be edited in August, so I will have two publications for the messages of Roerich.

I am trying to give to our magazines an artistic appearance, so I am suggesting to you the following:-

- 1 - if possible when sending an article to be published, to send also an illustration, picture or photograph of a subject that will fill in with the article and will illustrate same.
- 2 - if possible to send also the English version of the translation, so as to compare same.
- 3 - the magazines I am editing will always print any article that has with it the spirit of the New Era. We can translate them here from French, English and German.
- 4 - the magazines will also review every book or publications of interest (a copy will be required).
- 5 - the artistic section of the magazines will also print pictures of every production that show the same spirit, if photographs are sent in order to make here the electrotypes.

I am entirely at your disposition and you can use our two magazines for the work of the Museum.

I am, sincerely yours,

(signed) A. Araujo.
