Dear Sirs:

Having briefly translated the book "Heart" in French after the first English Edition 1932, we should be glad to revise this work and to complete it - if necessary - after the Edition 1944, in order to enable you to utilise the same for publication in the French language.

We think the original text is written in Russian; this text could also guide us to attain a clear and exact expression of the author's ideas.

Moreover, we are willing to assume, for your sake, the impression and diffusion of your different Agni Yoga series, or other similar works, in the French speaking countries.

Will you, please, advise us if these propositions can meet your interest and let us know what are your ordinary conditions for the execution of translating work, impression and diffusion of the Agni Yoga Series?

We remain entirely at your disposal for all details, complementaries and references.

Yours faithfully,

Un Administrateur

Th. Chapellier Ing.
