

The Centennial Years.- 1931 and 1932.

New York University  
School of Education  
Washington Square, East, New York.

June 21st 1932.

To the Second World Conference  
of the Union Internationale Pour  
le Pacte Roerich;  
Bruges, Belgium.

Permit me to express humbly my deep admiration for  
the noble efforts of the Conference. The Roerich Spirit in that  
direction too, is the very essence of Culture or Veneration  
of Light Sought by dormant urges, hidden forces and latent  
hopes of all nations in the past and at present.
