

NAGGAR, Kulu, Punjab,
June 23, 1932.

To The Second Conference of the
Union Internationale pour le Pacte Roerich.
Bruges.

It is comforting to realize that the Union Internationale is continuing its efforts towards the universal adoption of the Banner of Peace proposed by Prof. Nicholas de Roerich. On behalf of this scientific outpost in the Himalayas permit me to welcome the Second Conference which heralds a further step in the noble work of protecting cultural treasures. A powerful appeal is needed to awaken humanity to the urgent necessity of promulgating adequate measures for the safeguarding of its cultural heritage.

May the Banner be unfurled and inaugurate a new era of constructive co-operation among nations.

Georges de Roerich

Director.
