Union Internationale pour le Pacte Roerich,  
Bruges, Belgium.

Dear Sir:

As an American writer and a friend of the Roerich Peace Pact, I beg to be permitted to send you my warmest greetings and God-speed upon the occasion of the Exhibition of Art Cities dedicated to the Roerich Pact for Protection of Treasures of Art and Science.

That Belgium should be the scene of that Exhibition is not surprising, in view of her ancient and traditional repute for courage and bravery.

It is my humble prayer that the Pacte Roerich shall soon become at least as integral a part of civilized usage in the dread event of war as the Red Cross has already become. And with the courage and zeal of Belgium behind the Pact, the friends of the movement are ardently hopeful.

With all good wishes and warm congratulations, I am, Sir

Very cordially yours,
