My dear M. Camille Tulpinck:

Herewith my best wishes for the success of the Exhibition of Art Cities, dedicated to the "Roerich Pact for Protection of Treasures of Art and Science, and also for the success and continued growth at the Second World Conference of the Union Internationale pour le Pacte Roerich.

May the extraordinary work being done by this group reach to the very corners of the earth, winning more and more friends and far surpass the dream of those whose untiring efforts are making it all possible.

With assurances of my support at all times, I am

Sincerely yours
