C o p y

My Dear Mr. Dudley Fosdick,

I cordially thank you for kindly sending me few copies of the new brochure on The Roerich Pact and Banner of Peace. I am sending those copies to some of the distinguished persons interested in peace and culture. Hearty congratulations for your success in bringing out that beautiful brochure at a time much needed over the entire world.

We in India are immensely striving to keep the triple-flame of the True, the Good and the Beautiful ablaze with ever-increasing new glow and newer warmth. In this endeavour which is pan-human, we all know, America shall act the leading part. In spite of the fact that no country should depend upon another country, all the other parts of the world, especially the Asiatic countries are deliberately seeking delight in looking forward towards the United States of America for new Light and newer Life in every sphere of life, especially in that of Culture and Peace!

The greatly inspiring saintly presence of Prof. Nicholas Roerich has been a great boon in India for us the youth. The fragrance of his benevolent active thoughts from the Himalayas has been inebriating the whole world with the Cult of the Light!

I have got a desire to visit U.S.A. and deliver some discourses on Indian Culture and the path of Pacifism and Compassion. I am looking forward for such delightful opportunity.

With cordial greetings.

Cordially yours,

S.Sanjiva Dev.
Corresponding Secretary
Roerich Pact & Banner of
Peace Committee.
