Key to the Order of

The National City Bank of New York

The image shows the front cover of an old book. The cover is made of a light brown, textured material, possibly paper or cloth, which is heavily worn and discolored. It is covered in numerous small, dark, circular holes or indentations, arranged in a grid-like pattern. These holes are likely from a binding process or a specific type of paper. The cover is plain, with no visible text or illustrations. The edges are frayed and the overall appearance is one of significant age and use.
