Professor N. de Roerich,
Naggar, India.

Dear Professor de Roerich:-

Supplementing my letter of January 11th relative to the deposit to your credit of \$365 in the Chartered Bank of India, Australia and China, I want to say that they advised us that you had no account there.

Mr Georg Söderbom then communicated with the banks and found that you had an account in the Hongkong Shanghai Bank in Peiping. So we have deposited the \$365.00 to your credit there.

Inasmuch as you had money on deposit in that bank, we did not ask them to forward this amount to you in India as we were not sure what you desired in the matter.

This has been the coldest winter in twenty years. In Mongolia many people and much cattle have frozen to death. An oxcart was seen with the two men frozen to death on top and the oxen plodding along no one knows where.

With many good greetings to you and your son,

Sincerely yours,
