

1

August 10th was the low point for the Son and Botanist. The son and bot. appeared before the Rulers. The botanists used a former article. The son had difficulty in finding the letter written to the En. last April. The situation looked dark for a time. Bot. admitted the En. a friend of Gal. The En. ordered Bot. to stay close to home. Bot. intended to disobey. Storms cleared and F. and son ~~were~~ were on their way with adequate help. Arranging for senior bot. to return and will leave middle of October. Junior bot. will go far to the South. Seems bot. in his letters have in them great possibility of future trouble.

Copy of note from Gal to Fr. read on Aug. 14th, 1934. N.Y.
