Halgon, 20/6/1937.

My dear Vetch,

On the 3rd inst I wrote Georg Söderbom, -
Kweihnachung (Swiguan), re. the travelling equipments
after Roerik, asking for particulars, or at least some
rough statement of what it consisted of. Though
I asked for an early answer I have not heard a
sound from him as yet. From others I learn
that the chances of getting answer from any of
the Söderbom Bros. or their partner Öberg on any
letter is somewhat in the blue; some put it down
to "booze", others to damned carelessness.

As there is a possibility that I
now may get hold of my own outfit from
Hailar I do not mind if I do not hear from Söderbom
in another two ~~the~~ weeks time, but if I cannot get
hold of my own outfit without troubling too many
of my friends I would certainly have liked to be
able to decide whether the Roerik outfit was of any
use to me or not. Would it help if you wrote
and tried to get a kick out of them?

With best Chin-Chins to Mrs Vetch and
yourself.

Sincerely,

O. Manner.
