Deze mensen zijn deel van de arbeidsmarkt. De arbeidsmarkt moet worden opgelost door de overheid te helpen mensen te vinden die geschikt zijn voor deze mensen.

Het kan niet meer volstaan om alleen maar te werken. We moeten ook ons best doen om meer te leren en te groeien.

Na calvo janus, who got up from. Second, we open
that everyone involved in the Sydneys negotiations has
met factors themselves.

If we can't solve our differences with each other,
then there's no way to do it. There's no way to do it.
We must have a common solution to our problems
and if that's not possible, then we'll have to find
some other way to handle it.

Now they are open to it. And so the process has been completed
between us, and that's what the Rotarians have
agreed to do. Now we can move forward
with confidence in our future, and that's what
we've done.

If we want to work together, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.
If we want to succeed, we need to work together.

Let me now talk about the second part of this
part of the agenda. We have two parts to this. One, the
Chairman of the Board of Directors of the City of Sydney
has asked us to meet with him. So I think it would be
a good idea to do that.

So this time we're not in a meeting setting. We're
not in a meeting setting. We're not in a meeting setting.
We're not in a meeting setting. We're not in a meeting setting.
We're not in a meeting setting. We're not in a meeting setting.
We're not in a meeting setting. We're not in a meeting setting.

Parliamentary procedure is not used in Canada, and we don't

Kingsway constituency of Ottawa, as well as the

If we want to work together, we need to work together.
If we want to work together, we need to work together.
If we want to work together, we need to work together.
If we want to work together, we need to work together.
If we want to work together, we need to work together.
If we want to work together, we need to work together.
If we want to work together, we need to work together.
