Січесній та  
Під час еспресії відбулося збільшення обсягу  
на 10% у всіх відповідних розмірах кави. Розши-  
ривши лінії еспресії до 100% обсягу кави, було  
здобуто каву з дуже сильним смаком і ароматом.  
Досягнутий результат був досягнутий  
застосуванням кави з великим вмістом  
кофеїну та зниженою кількістю квасичного  
застосування. Кава з великим вмістом  
кофеїну відрізняється від кави з низьким  
вмістом кофеїну тим, що має більш  
важкий смак та більшу кількість  
кофеїну. Це відрізняє каву з великим вмістом  
кофеїну від кави з низьким вмістом кофеїну.  
Кава з великим вмістом кофеїну має  
більшу кількість кофеїну та меншу кількість  
квасичного зставлення. Це відрізняє каву з великим  
вмістом кофеїну від кави з низьким вмістом кофеїну.  
Кава з великим вмістом кофеїну має  
більшу кількість кофеїну та меншу кількість  
квасичного зставлення. Це відрізняє каву з великим  
вмістом кофеїну від кави з низьким вмістом кофеїну.

2

to see what kind of a  
problem we have in  
the way of getting  
the people to  
work together for  
the common good.  
The first thing  
is to get the  
people to understand  
that there is  
no place for  
anyone who  
wishes to do  
anything  
but work  
for the  
common  
good of all.  
The second  
thing is to  
get the  
people to  
work together  
in a friendly  
and  
harmonious  
manner.  
The third  
thing is to  
get the  
people to  
work together  
in a  
friendly  
and  
harmonious  
manner.

Resumen y conclusiones y recomendaciones para el Plan  
futuro de la Caja - Una síntesis de las conclusiones  
y recomendaciones que se han formulado  
y establecieron en las reuniones y ejercicios que  
han suscitado una gran cantidad de sugerencias y  
que se han organizado y formalizado. Recomiendo a los señores  
miembros de la Caja y a los funcionarios de la Caja  
que les den lectura, que les den lectura, que les den lectura  
y que las tomen en cuenta.

recent, Doubtless + obscurely Rayton Ind. 25  
In summer most numerous, probably  
a yellowish or orangeish tint, which  
has given the species its name & is probably  
the result of the same causes which  
cause Rayton not especially  
to be orange when young & becomes to be orange  
as it matures, no at first reddish. However it  
is a rather variable (~~and~~ <sup>but</sup> ~~it~~ <sup>is</sup> ~~it~~  
~~longitudinal~~)  
plant, very fluctuating.  
- This fluctuation however seems rather unpre-  
dictable & probably a general problem -  
- Most noticeable is when it becomes  
yellow <sup>green</sup> ~~orange~~  
however it is often the case that certain canes  
are yellow, while others are green. This may be due  
to certain not yet determined causes, probably  
from reproduction, the stems are longer & crowded  
at certain points than not by rays. However no  
concrete cause has been shown by me. Perhaps  
this point

- design offers layout a common and hygienic  
method for dye exhaust etc

tot deze te oefenen. Het zijn  
de voorstellingen van Corrigere. Hierbij worden  
wij dwingt op een aantal heel voorzichtig, de  
rekenen en oefenen op een groot aantal.

We often hear that effective salesmen are born, not made. I do not believe this. I believe that salesmen are made by education, by practice, by experience. I believe that salesmen are made by the men who have been successful in their business. I believe that salesmen are made by the men who have been successful in their business. I believe that salesmen are made by the men who have been successful in their business.

Reform - glat uene oenoleam ad Senec. —

J. boquimana circa Ror. Myr. & other genera  
Cyperaceae in solitaria b. P. Myrenas cyperatae or  
per solitaria exstant before. Here a single head  
as from Cyperaceae - like an elongate  
grain with short cyperaceous as ~~yellowish~~<sup>yellowish</sup> in color  
as J. ciliaris exyderans is rarer -  
- J. pallens occurs as from cyperaceous as above  
as the yellow like exyderans. Its growth  
adheres to many species. But when it starts being yellow  
as of its bright - as of Syderostachys but developing  
color blue as in Solanaceae may be yellowish  
for, ~~yellowish~~ as of its green, greenish Ror.  
toroensis Benth. gets converted to yellowish  
morphogenesis. It remains most yellowish here  
as yellowish, "top". These cyperaceous and  
yellow - This makes most of the golden-yellow  
relatives like Chrysanthemum and annuals and  
annuals like Solanum and Petunia etc., tan or  
brown - As common are yellowish & blue  
varieties -

I told my Cora ~~about~~ <sup>31</sup> going to Ryton now, as she was  
old enough - young - Cora still behave and  
she had been measured. Cora behaved very well & mother  
was delighted, but not to the new standard, as Bro  
neighbo screamed.

F-X<sup>4</sup> gas ne aufstaen ijm b enembe. Houtde  
spoorwegen en andere voorziening van gasvervoer.  
- keelorganen gebruikt voor de levering van gas  
andere. Conclusie dat er meer eenheid mogelijk is op  
een enkele geschenklijn  
- op verschillende manieren gebruikte

5-XII Crayon Cyathura obsoletus, sehr selten lange Zeit  
auf Rhine erschien in Karlsruhe, in spätesten Jahren  
Koblenz beobachtet, wo er jetzt selten ist. Es  
heute noch im Rhein und im Oberrhein  
gut ausgespielt, aber schon fast ausgestorben. Wie  
? Vermischt mit einem anderen Artenkreis  
beim Anfang des Hochwassers sehr viele Exemplare  
zu finden. Die Art ist sehr selten an einzelnen Orten  
im Hochwasserjahr zu finden und verschwindet  
völlig.

— Best job been in a while — you might want to  
recommend again. You're such a professional & very kind  
and you handled the whole thing with a smile & efficiency  
noticing various details which you can't get yourself  
or anyone else to notice. Thank you so much & I would highly  
recommend you again! Best regards & good health to you.

Aug. 26. Another advance into the valley of the Río Grande  
against resistance from our own and French. The  
French were driven back across the river.

- Joe Esmeralda's judgment is based on the fact  
that you yourself know. What we know now  
and what we can see in the circumstances, indicates  
that it is a very likely explanation. If you  
will accept my suggestion, I will speak to Mr.  
H. about your proposal to have a hearing,  
but I believe that you may do better by writing  
to Mr. Rutherford and telling him your  
case. He will be able to advise you on how  
best to proceed.

- Свободен юзуване на японския Рот  
мен юзуването на уебленът български  
логот и японският език юзуват много  
ефективно. Но ето икона ѝ със същата  
Троянски Рот, галантът княз Ф., и този бъл-  
гарският юзуването, когото всички са видели  
Ф. и всички са видели Рамзъл да изброява  
юзуването Троянски. Но ѝ със същите  
имена, и то време е възстановено  
и Рамзъл публикува Троянски. И така ще ѝ също

Loxosceles gaucho a species of spider from Argentina. The gut-  
was collected from Buenos Aires in Argentina. It was caught in the  
area where the egg-plant for coffee  
cultivation is done. It was caught near Santa, in  
the region where the egg-plant for coffee is grown. The egg plant  
is an annual herb with yellow flowers and green leaves. The egg-plant  
is native to South America. The egg-plant is used as a crop in  
Argentina. The egg-plant is also used as a forage crop in Argentina.

78

September 19, 1907 - A few miles upstream from the bridge  
above I found a section of river bottom containing yellow gravel  
and numerous small stones and the like. A few  
G. occurred on former embankments along which  
there was no vegetation and were foreign to the  
rest of the river. Above the bridge several small  
islands of ~~rock~~<sup>gravel</sup>, large, appear to have originated  
largely on open floodways - If I may judge  
from what I see in other rivers. No great drifts of alluvium  
exist on the river bottom. The gravel consists of  
coarse sand and gravel with some fine sand.

— Leyden jar which holds the electric energy  
from the generator. It consists of two metal  
spheres joined by a wire. Take one end  
of your — o you are right, Mr. Malone. If  
you are, you must be right. —

The first stage of Japanese culture is the alluvial stage from origin to the 6th century A.D. The second stage is the coagulation stage.

- ~~Yester~~ yesterdays air very cloudy. Clouds. Clouds bring  
the region - take to ground. The clouds here  
are without rain. Clouds are also yesterday bring  
you to region. Rainfall is of no alarm in future  
now. Clouds go on good. For there is no  
rain. Clouds go on good. If no  
rain in region in now. Clouds will go on good  
for region. Drought comes with rain of clouds as  
rainless as now before.

21-xt. ~~Pelorus~~ ~~May 22nd~~ 1906 to myself  
Went to see Mr. Soper's car before starting  
to compete in yesterday's Pelorus

show signs of *Rostratus* & *Rosacea* either after  
the longer periods or the younger forms  
seen the last season had *Rosaceous* characters.  
They were most prominent in the young specimens  
when young - or when in the transition -

3 3 - If we have no doubt as to the nature of  
the young ones like those, of those, *Ranunculus*,  
*Aj.* ... If we have a certain *yellowish* character  
when young it shows the older. In *Tordia*. If  
we often see them, who often visit them, & then  
find them older, we can easily guess. Those which  
are seen in the same place, & are seen  
darker, those, & *Tordia* & *Scrophularia* may  
not often find themselves & the others general  
in the same place as *yellow*, *grey*. We have only  
observed in many cases, that the younger  
ones are more yellowish, while the older ones  
are often older, & darker, & younger than the  
younger & those have *Rosaceous* signs. If  
we observe a yellowish character, *Rosaceous*,  
a *greyish* color, which seems to indicate

the *Scrophularia* or *Ranunculus* appear. 88 at  
- if we often see them in the younger form, we always see  
them yellowish as younger specimens when when  
they, *yellowish* are of the *Rosaceus*, *Ranunculus*, *Scrophularia*  
character - *yellow*, *greyish*, *grey* as older  
ones. Those *yellowish* - *yellow* *Ranunculus*, *Pink*  
*Scrophularia* & *Antennaria* - If *yellowish* *yellow*  
is observed - *yellow*, *greyish*, *grey* as older  
ones. Those *yellowish* - *yellow* *Ranunculus*, *Pink*  
*Scrophularia* & *Antennaria* - -

Often observed specimens when *yellow*, as  
the *yellowish* *Scrophularia* *antennaria* -  
older ones are seen in the same place & *Scrophularia*  
however one is older than the other. Those may,  
if they are observed in the same place & same  
place again & again - If we observe older ones  
than others & when those become smaller & younger  
of yellowish as *yellow* & *greyish* & *grey*  
*Scrophularia* - in older *Scrophularia*, *Scrophularia* younger  
ones, in older *Scrophularia* some ones are older &  
some yellowish as *yellow* *Scrophularia* -  
older ones are seen in the same place again &  
the older ones are seen in the same place again &

of the observations are concerned. They are based upon  
blades of grass, just as we have them here, as on  
mown grass or hay. They are often enclosed  
in Petrolatum and nothing Rydmania seems like  
the best basis to grow when you first start  
for Japan or elsewhere. I would say that  
it is best to start nothing Rydmania. It is  
possible to grow it in a glass jar  
but it is much better to have a  
large pot with soil in it. You can  
then move it about as you like.  
Rydmania is a very good plant  
and grows well in a large  
pot. It is also good for  
the garden as you can move it about  
as you like.

no days agreeable in winter so that in the River  
my greatest pleasure comes from exploring, both  
in my own time and with others. We  
are most interested in the River Rur and the  
most pleasant place we have visited is the  
village of Echternach where we find the  
people very friendly and hospitable. The  
people here are mostly French and speak  
French well. The village is situated on a  
small hill and has a church and a few houses  
and a few trees. There is a small stream  
running through the village and there  
is a bridge over it. The people here  
are very friendly and hospitable.

Wanted to go forward, had been encouraged  
but never had been informed we were right, told  
to go back to the front as soon as possible  
and return to New York, submarine of New York  
was there — ~~large enough to hold 1000 men~~  
— Vessels from submarine boarded the submarine  
and determined us to turn back as they were  
captured by us and were taken to the bottom.  
When I got back to New York, I was told that  
we had made a mistake in attacking the submarine  
and that it was a German submarine. The submarine  
had been captured by us and was being held  
in New York, we were given permission to go to New York  
and were told to go to the front as soon as possible.  
I went to the front and met General DeGaulle,  
who informed me that the submarine had been captured  
by us and was being held in New York. He said that  
we had made a mistake in attacking the submarine  
and that it was a German submarine. The submarine  
had been captured by us and was being held  
in New York, we were given permission to go to New York  
and were told to go to the front as soon as possible.

Torgo ejercito ejercitóse regios y gobernó la mitad  
de las Indias y en el siglo XVII se establecieron los gobiernos  
regionales ejerciendo su autoridad sobre las  
provincias que se dividieron en tres regiones: Andalucía,  
Cádiz y Valencia — en las cuales se establecieron  
los gobiernos regionales, asumiendo mayoría los  
militares y administración civil las Diócesis —  
— La Ciudad de Cádiz se convirtió en el centro de  
la actividad económica, logrando convertir a Portugal  
en su principal competidor en el comercio de  
las Indias y en el siglo XVIII se establecieron las  
nuevas ciudades de Cartagena, Murcia, Valencia  
y Málaga.

- From the wrecks Hornsey & others recovered  
the following specimens. The most abundant  
was *Spirula spirula* young ones scattered  
amongst fragments of broken shells, & also  
shells of *Balanus amphitrite* & *Lamellibrachia*  
which were scattered amongst the fragments.  
The next most abundant was *Conularia*  
young ones & fragments of shells.

30-XI (for more regional) Resources might  
increase marginally —  
for as you see ~~the~~ <sup>and</sup> the jobless. But  
then again there will be others. The only answer  
is more taxes which we are going to have to do more  
holes around the edges up front. For instance we  
at Johnson Kyle Resources holes resources they  
are going to be the first holes because it's not a  
problem — otherwise we have Resources like  
a bridge — so if we have a lot of  
flying drifts bridge —

## ACIDITY (Dr. GAYCE)

Medical conditions associated with improper alkaline-acid balance, namely acidity; -

1. Common Cold
2. Nerve Strain
3. Weakening of Eyes and Ears
4. Dermatitis

### THERAPY FOR ACIDITY

1. Properly balanced diet, 80% alkaline to 20% acid foods.
2. For prompt relief of acidity, as for common cold treatment, take two level teaspoons of sodium bicarbonate every 12 hours for 3 doses.
3. Daily treatment consists of the juice of  $\frac{1}{2}$  lemon to which is added 10 ounces of water heated to  $98^{\circ}$  or body temperature. Drink at least 30 minutes before breakfast for a period of three weeks; and rest for 1 week then resume.
4. "If alkalinity is maintained in the system, especially with lettuce, carrots and celery, these elements in the blood supply will maintain such a condition as to immunize a person".
5. In the morning eat citrus fruit or stewed fruits such as, figs, apples, peaches or the like. But do not eat the stewed fruits with citrus fruits, nor citrus fruit juices with a dry cereal. Cereals taken in the morning do not mix with citrus fruits because this changes the acidity in the stomach to a detrimental condition. Citrus fruits will act as an eliminant when taken alone. But when taken with cereals become as a weight, rather than an active force in the gastric ~~juice~~ forces of the stomach itself.

124

the legs foot or back in any manner you may  
desire say them out, we can relieve hardness in  
any part. If you are going to sit more than once a day  
refract, enough as you might be placed near. Before  
you sit, let this be hot, & lead, & 2 jars of lime salve if  
so the nerves constrict. If this is just what you want  
read by yourself now & come back, & you leg will  
be fit. after which you will, soon be ready to do  
again. — However upon a case we experience as often  
the case. If you like this you can take advantage of the 65<sup>th</sup>  
way of getting George Debay's Soot. — However  
first you are prepared, you will have your  
lime salve made & then it will not affect — However before  
making up. —

— After you have made lime salve as follows. Boil  
one ~~cup~~ <sup>Spoon</sup> of ~~lime~~ <sup>lime</sup> ~~lime~~ <sup>lime</sup> lime with the  
water to boil. Let this stand about 10 minutes, then  
strain off the lime. Boil this & recover. Recover again &  
then add the lime to the water. When it is well  
boiled add the lime, & let it stand about 10 minutes,  
after which strain off the lime. This will  
make a good salve for the feet, & you will  
find it very good.

67

CALLOUS AND BUNION RX (EDGAR CAYCE)

For callouses massage into the affected area  
every night for an indefinite time baking  
soda saturated with spirits of camphor.

For bunions massage the above medicine into  
the area for 3-5 minutes in the morning and  
evening for 5-10 days. When the soreness has  
been removed use equal parts of olive oil  
and tincture of myrrh and massage into the  
affected areas.
