In the present World of strife and conflict it is fitting to observe this day in memory of one of the greatest sons of this ancient land who brought to His people His message of Universal Brotherhood transcending national boundaries. In this World of ours where the value of knowledge is being constantly enhanced through scientific quest, His stress on right views and right knowledge is strikingly modern in its outlook. Right knowledge was the very foundation of the Path of Spiritual Upliftment preached by Him, and in right discriminating knowledge lies the only hope of this World of ours. The Blessed One said: " To the World enveloped in darkness and ^{suffering} ~~trouble~~, I ^{bring} ~~will give~~ the great light of the Highest Knowledge." And in this spirit we salute Him to-day.

In the present World of strife and conflict it is fitting to observe this day in memory of one of the greatest sons of this ancient land who brought to his people his message of Universal Brotherhood ^{transcending} transgressing national boundaries. In this World of ours where the value of knowledge is being constantly enhanced through scientific quest, His stress on right views and right knowledge is ^{strikingly} ~~perculiarly~~ modern in its outlook. Right knowledge was the very foundation of the Path of Spiritual Upliftment preached by Him, and in right discriminating knowledge lies the only hope of this World of ours. The Blessed One said: " To the World enveloped in darkness and ^{suffering} trouble, I will ^{bring} give the great light of the highest knowledge". And in this spirit we salute Him to-day.
