ROERICH SOCIETY

310 Riverside Drive, New York

THE ROERICH SOCIETY is an international society devoted to the ideals of brotherhood and culture through art and science, as expressed in the paintings and teachings of Nicholas Roerich.

This Society came into being very naturally, as a result of the influence and admiration impelled by the Roerich Museum. Thousands who have seen the paintings of Roerich have felt in them an inspiration of high artistic beauty. They have found here a new revelation of life embodied in beauty of color and creative conception, corresponding as does nothing else in art or literature of today, to their own highest aspirations. Hence arose the desire to spread the knowledge and influence of Roerich's art and philosophy to the many others who, we feel, are eager for its message.

The Roerich Museum has become an art shrine for many people of widely different social strata and traditions. In accordance with Roerich's universal conception of the essential unity of the arts and sciences, a broad program of lectures, recitals and exhibitions is conducted under the auspices of the Museum. Through its affiliated organizations, the Master Institute of Roerich Museum, the International Art Center of Roerich Museum, the Roerich Museum Press and Urusvati, Himalayan Research Institute, the Roerich Museum has been enabled to extend its educational and artistic program.

Branches and groups of the Roerich Society have been organized in Europe, Asia, Africa, South and Central America and throughout the United States. The purpose of these organizations is to spread the high cultural ideals of Nicholas Roerich as embodied in all Institutions of the Roerich Museum, promoting thus artistic, intellectual and spiritual understanding between men and nations and encouraging all endeavors in the cause of human progress.

The headquarters of the Roerich Society is in the Roerich Museum in New York City. This parent organization centralizes the international activities of the Societies. Under its wing the following groups and branches have been organized:
