

Have been so tempted to rush to
the airplane office & get a ticket for
the next plane to India - but it's
so much more complicated than just
that. If only I could, I would. but
we had no idea of how much longer
you & Mother will be there & it
might prove to be a wasted trip -
& much ~~energy~~. Wonder if there is
a possibility of Mother returning to
India, later on.

Soviet dear, give our love to
Mother. We send her daily our
love & strength & surround her
with our thoughts.

There is no need to tell you again
how anxiously we are awaiting
your arrival, as well as the pleasure
of meeting Devika.

My love to you always -
Katherine.

Siva gave us a copy of your
Radio address at the opening of
Father's Eulogium. It was indeed
a beautiful & inspiring tribute -
so much so, we would like to reprint
it & send it to our many friends. But
maybe it is better to wait & incorporate
it with all the other tributes to
Father, in book form. David spoke
& Siva something ago that the Review
part course. Should issue a brochure -
or small book in memory of Father's
passing. Some how we feel we ^{had} better
wait until your arrival, for you can
help us bring it up to date & at the
same time give us many a valuable
suggestion & added material, that
is if we should print a book now.

In Mother's latest letter she mentions that
the heat ~~that~~ ^{has} started but her strength
is still holding out. How are we hope
& pray the coming events will not be
too much for her,
