LEARNING AND LOVING HEART

Prof. Roerich's Message to the Mira Girls

H. E. Prof. Nicholas Roerich kindly sends to the Mira girls the following significant message which we share with our readers:—

Dear Sisters of St. Mira's High School,

Indeed every number of your magazine brings us joy. The Lofty Guidance of Sri Vaswaniji and the radiant enthusiasm which imbues all your activities are indeed precious Signs. Such signs are especially needed in our present days, when the whole world is shattered by deplorable misunderstandings and fraternal aggressions. The followers of the Blessed St. Mira's path of course work for real peace. Let us emphasize that peace should live in the heart and not merely as formal conventionalities. May the day come, when humanity will discard the erroneous proverb: *homo homini lupus* (man is a wolf to man) and will replace it by the friendly assertion: *homo homini amicus* (man is a friend of man). But for such friendship one must labour untiringly. It is not enough to have learning, one must have spiritual education and a loving heart.

Those, who inscribed on their banner the sacred name of St. Mira, know the eternal might of the loving devoted heart.

All blessings with you, dear Sisters!

N. Roerich
