

To the All-India Cultural Unity Conference

Greetings !

Beautiful is every endeavour in the name of Cultural Unity. This day is a truly memorable one for all educators, for all artists and Scientists - for all devotees of High Unifying Culture.

When we shall know each other in full confidence then true cooperation will be established, which will illumine our life, harassed by various material crises. If we are aware of cultural values, then it will bring a real mutual understanding.

To safeguard the dignity of a creative personality, to help the seedlings born in labor - this is one of our nearest and noblest missions. Life is transformed by the achievements of Culture. As difficult as they may be in the time of narrow materialism, nevertheless we know that this achievement is the moving force of Humanity.

It is not a truism to invoke Culture. By all means at our disposal we must strive to bring into everyday life the chalice of Culture. Kindling the torches of Spirit, it is beautiful to realize that the very same blessed torches of unseen friends radiate on the vast ploughfields of Culture.

In India a glorious Renaissance of Culture, of Art and Science is approaching and people should be prepared to meet this benevolent turn of Evolution.

Satyam , Sivam, Sundaram.
