

Tues Dec 16.

Dear Devilla

Beaver will bring back to me the Mutual about Professor Roerich and as promised over the 'phone I will get Sherrin Hardy to do a suitable piece.

His passing is a very great blow and it is a thousand pities that he should have been isolated in Kulu when his health was in such a critical state. I do hope Mme Roerich will be able to leave Kulu soon. The past few months must have been a dreadful

Strain.

Marie joins me in deepest sympathy to
you both.

Yours sincerely

Michael Brown
