My dear Devika,

Thank you so much for your kind letter. I am sorry for not being able to write sooner. Raja Sahel + I have been in this Klinik since the 24th April. Lot of water has been taken out of his body + his weight is reduced nearly 20 lbs upto now. There are still lot of water in his stomach. It is a thing that we must have lot of patients. He's got to take complete rest + live on strictly saltless diet for the rest of his life or the water will fill up again the doctors tell us. There is no complete cure for it. Poor thing, he is so tired of laying in bed. I am with him all the time + go out only sometimes. Days pass away some how. I think of God + his teachings more than ever. He found the truth + showed us the path but we are too weak to follow it. How we all flutter about in the world like bees in a bottle without knowing how to get out of it. H. H. of Bhutan + Kesang are arriving here on the 19th. They are staying with the de Schulthesses at Charn for a while. Kesang is to have her baby in this Klinik in July. Tashi has been in France for nearly a month + returned here a few days ago. She is

at Cham & comes to see us daily by train.
It is 35 miles from here. She will be leaving
soon for her long trip round the world.
I have been to see the Munich Prison last
week. It is a wonderful organization. I
am terribly impressed with it. Mr de
Schulthess is taking me to see the Law
Court in a few days. There are no slums
in the country. The living standard of
the people is so high & they work so hard.
It is education to live with the Swiss.
I shall stop now with all my love to
you & your husband.

Yours affectionately

Chuni Dorji.
