Dear Sruika Rani,

I have had your brief note with me for quite a few weeks. Yesterday morning, we read of Suetoslav getting an Award of the Bengal Society of Art - (or was it the Calcutta Society) my memory for names is terrible - congratulations to Suetoslav and you from both of us. For anyone in that part of India to think of sensible things like this is incredibly great in these days.

We went to Poona in December for the wedding of the son of an old friend and returned with Chills which took over a month to get rid of. Poona was then like Delhi in cold weather in December or even colder.

News from Prem (Baby) is that her son has had two bouts of fever - quite high - for no ascertainable reason but has at last shaken it off and is back at school.

Bombay is still cool and nice and we are lucky to be so blessed since end October. In fact some nights and mornings have been cold and we have had to dress in warm clothes.

With best regards to you both from Sheila

and

Yours affly

Hansel Khan,
