5th May 1953.

My dear Devika,

Many thanks for your letter of the 1st May and the lovely scarf.

I hope this will reach you in time before you go to the cool spot known as the Capital city! Any way we will have the red carpet laid out for you both on your arrival in Urbs prima in Indis.

Give my love to the Tibetans, the Bhutias and the Lepchas and congratulate them on the lovely work they have done on the scarf. I am sure my golf handicap will come down when I wear the scarf.

We are now going in for the manufacture of perfumes, cosmetics, lipsticks etc. in conjunction with Robert Piguet of Paris.

Love to both of you and to Kalimpong in general and some one somewhere in Sikkim in particular.

Yours sincerely,

*Kish*

P.S. I presume the leeches mentioned in your letter are the animal variety and not the fruit!!!
