My dear Smt Devika Rani

The President had passed on your letter of the 21st August, 1964 to me in which you have suggested the issue of a special postage stamp on the occasion of Prof. Nicholas Roerich's ninetieth birthday anniversary falling on the 9th October, 1964.

2. I am afraid, this does not give us sufficient time to consider the matter as the minimum time required for the production of a stamp is 14 weeks. Furthermore our programme for the rest of the current calendar year has already been finalised and it is not possible to add to it.

I hope you will appreciate our difficulty.

Yours sincerely,

(Satya Narayan Sinha)
