Dear Swika Rani,

Miss:

It is quite a long time since we had your very nice letter. And, in the mean-time, we have read of the presentation of the award to Suetoslav in Mysore and, a few weeks earlier, a long article on his father and him. I wanted to cut it out and send it to you but I was travelling when I read it and misplaced it. Congratulations to S.

We are both seasonably well. Prem and his little son are still in Ahmedabad. He was a year old on 2.9.64 and is doing very well. He walks all over the house and plays hide and seek with his mother with great relish. We are dying to see him - perhaps will go there next month for a week-end.

Scilda's sister and husband have just returned from Congo. He was there with H. N. to help with agriculture etc. They are on their way to Delhi.

I retire from June 65 and will go on long leave prior to retirement as from January 65. I am not going anywhere on leave but

will cease to work for H. M. V from July 65.
Future plans not made yet.

Remember us both to Suetoslew.

With best wishes from Phil and
myself,

Yours very sincerely
Harish
