NAGGAR, Kulu, July 17th, 1929 .

Dear Mrs Boddington,

We just received the basket with tomatoes, for which we thank you very much. They arrived in very good condition. We are interested to hear how your fruit arrived in Jogginadarnagar, especially the plums.

I hope you are re-established in your new home and that the baby is alright.

As to myself I feel still worse, because the damp heat has a very bad reaction on my system.

With best greetings to yourself and Capt. Boddington from us all

Yours sincerely,
