Most happy your news convey our friend deepest appreciation his noble work Loving Greetings

Roerich

For Mrs H. de Roerich Naggar, Apr. 15, 1935. 19W - Rs: 16/1/-

Naggar, April 24th 1935.

My own beloved Modrotchka,

Hearty thanks for the warm cable, which you sent after the ceremony of the Signing of the Pact. Please transmit once more to the Friend, how greatly I appreciate his readiness to work with all of us for the great cultural upbuilding, and for the safeguarding of the country, which he and we love so much, from following the most difficult path.

And now I wish to speak to you, as a mother to her daughter. I know that the heart of my Modrotchka will readily respond to my call and will remember all that best, which has and still binds us. My own Modrotchka, you must understand that all the Indications repeated in my letters, concerning the working together of Log and G, came from the Great L. I recall, with what sadness the Lord warned me that this joint work will be with difficulty accepted by you and that I will have to work to bring about this understanding.

Modrotchka, is it possible, that you will not accept this Indication? Isolation is hard and inevitably leads to an impass, from which there is no issue. We enter into a new phase of our work, when it is impossible to isolate completely G from the other coworkers. No one would ever think of infringing upon your friendship with G and I greet with all my heart the beautiful relationship that has been established between you both. But the growth and success of the works requires now a closer contact of all coworkers and I wish to hope that my Modrotchka will manifest the expected broadness of thought and heart.

My heart is confident that my beloved Modrotchka will never harm the Great Work by any actions dictated by personal feelings and that I shall be able as before to rely upon your full cooperation. I hope so much that in the future Modrotchka will be still closer united with me and will work as before on the Books of the Teaching and as messenger of our goodwill to both Americas. What a great and creative work! What a broad field will open for per oratorial talent! I am sure you will never jeopardize these possibilities. If only we deviate from the Ray of the Lord - what abyss, what horror or isolation awaits us. Modrotchka - you must realize the Grandeur of the Plan and manifest a hearty cooperation in the Name of the Radiant Future, which is so, so close at hand!

Modrotchka - feel the anguish of my heart - is it possible that all my calls will remain without response? I always trusted the heart of Modrotchka. My Modrotchka - I swait a word of the heart - a word of deep understanding of What is taking place.

Be courageous andremember the great words of the Tathagata: "He who conquers Self, is greater than he who conquers thousands in battle!"

Greatly welcome your book Stop lecture tour very advisable Lovingly

Mother

My beloved Modrotchka, I have received your hearty letter dated May 14th. I was happy that you found in your heart the courage to understand in what consists the true Service and approach to the L.; precisely this Service is a constant striving and search how better and more broadly to fulfill the entrusted mission but not jealous isolation and concealment. And I hope that you will abide by this decision and will know how to benefit from the best advices which can be given by your coworkers. In a great construction there can be no rivalry. This rivalry is eliminated by the understanding that all missions are irrepeatable. No one is diminished by the L. but precisely belittles himself through the manifestation of selfhood, isolation and other unworthy feelings. Our isolation and concealment in the joint work inevitably brings about the growing isolation in others and leads to an unavoidable break. A great Truth lies in the words: "The one who gives receives". Precisely when we are ready to share all, then everything comes to us. Only a work carried out in full cooperation brings a true success. In cooperation everyone can give an unexpected and beautiful advice. At a joint duscussion so many new sides can be touched upon, so many new considerations and respective associations arise. Verily, our fire is kindled and nurtured from the conact with other fires. Of course this has been repeated so many times in all Teachings and yet precisely this basic rule of Service and success has entered so little into the consciousness of people.

Now I will ask you, Modrotchka, during some next interviews with the Friend, to keep in mind the following themes: - to point out that the Ch.is under the Rays of the L. therefore he responds at present to the construction in Kan; - also that the Rays of the L.have saved the life of the Ch., as well as they have protected and protect Gal himself; - truly it may be told to him that only by these to attain victory Rays they are sustained. The rays are always helping them/in all those directions which have been correctly shosen by them. But especially powerfully the Rays act in the Indicated directions and the Great Pledge is given for victory if means will be found to lay the foundation of what had been ordained. The date has come and the longer we put it off, the more difficult it will become. Thus let

P.S. Remember he in my letters dated 1932 I mentioned the words of the L: "Am. should follow the Advices of the L; the more so, as nra means in Senzar - voidness".

them remember how protected they are by these Rays and hasten to fulfill the task Two days before news of the last attempt on the life of R.was published in the local press it was Said: "My Hand has saved R. and manifested a Miracle!" Thus let them appreciate that constant Care and fulfill the task which will bring the solution of many problems. More must be told about the importance of the cultural plan for the welfare of the country and of all the Signs which accompanied this great Mission. I consider it useful if Av.would read to him the letter which he received from Svetoslav about the Signs. He can also know about the Letter of the L. addressed to me, written in His Own writing, with the affirmation of the construction of the New Country and about the other Object in the casket, etc. All these details kindle the heart, You will know how to transmit this best the him see how a fairy-tale is interwoven with reality.

Now I ask my Modrotchka to inform me about everything, both good and bad. Even if something is not clear to her, she must understand that much could have resulted from previous isolation. But be not abated by this, my Modrotchka, remember about your new decision and continue dispite difficulties to proceed on the path of true Service. Keep always in mind the continuous tests and probation. Time will clarify much. Thus let the 14th of May be the day of a new life chosen by my Modrotchka. This path, if not deviated from, will prove to be the shortest. Thus courage, remembrance of tests and of the decision taken!

I am always ready to warm with tenderness my sometimes difficult daughter for I hear the loving resounding of the cords of her heart.

more di was sent theat out has apolicette notes!

Happy your news hearty greetings friend lovingly

Mother

My own Modrotchka, I address you in <u>full trust</u> and <u>strictly confidential</u>. I know that your heart will know how to safeguard this secret in such a way that amidst the co-workers there would not even arise a shadow of suspicion that something is entrusted to you, of what they are not aware. In this lies your great test. Time will come and everything will become manifested, but now I transmit to you the L's Command to keep this mission in full secrecy, the success of the works depends on this.

Thus I ask you to transmit to our friend that I have received an Indication about the absolute necessity of the visit of F and G to America for the winter season, You of course understand how personal contact will help and give an impulse in most important directions. Therefore it is necessary that the friend should invite them for new considerations and discussion of questions especially since it will also be useful for the forthcoming expedition. Time is short, therefore this cannot be postponed, the more so as an exchange of letters takes such a long time. It is necessary that they should be in America about the end of October or the beginning of November. You also understand that Ch. Fred. and Am. will form that nucleus which is destined to lay the foundation of the cultural construction of the New Country. I know that Walter-Ch. is very sympathetic to these cultural ideas. I have the pledge of the L. Himself that precisely Walt will manifest an active help. Transmit this pleage to Fred. It should be understood that it is the most undeferrable and immutable Command of the L. So much depends on this visit. Also the best signs in the horoscope of this triumvirate should not be overlooked. The cementing of friendship of this nucleus is of paramount importance for the great future. You will also transmit that because of special reasons which the L. does not divulge for the present, absolutely no one, except himself and yourself, should know about this visit. Thus also the three newly manifested to him coworkers L,P, and O. should know nothing about this visit. This should be well remembered in order that during meetings with them not to divulge to them even hints about it. The L. will point out when it can be revealed. I ask him not to be astonished at such secrecy. But there are many many very serious reasons for this. We must know how to fulfill the Higher Will and accept it as it is given. Besides, a temporary silence will only bring benefit, for it will make it possible to some facts to reveal themselves in full clarity. My heart knows that the Command of the L. will be fulfilled by our friend without delay, for time is needed for F.to prepare and gather all required datae.

My beloved Modrotchka, with all the fire of your heart fulfill this beautiful task, which will help to cement the foundation of the cultural structure. The karma of Fred and Walt is so closely interwoven with ours - let us take benefit of this wondrous karma, which must bring salvation and well-being to the country. Tell to our friend that for this structure has been given the Great Pleage of the entire Wh.Lodge. Therefore if we apply our efforts, success is guaranteed Despite the monstrous opposition of powerful enemies, the Pact has been ratified. A still greater success is ordained for the great structure, since the signs of the luminaries for the sequel of coming years are exceptionally powerful, whereas the previous two years abounded with signs of blackest treason, and unfortunately we must admit that they came true to the letter.

Thus my own Modrotchka, imbue our friend with the flame of unwavering faith and striving to fulfill the Commands which have in view also his great future. Can there be a greater joy, than the realization that we serve the great General Good, laying the foundation of a new and wonderful epoch!

Thus I send to our friend the striving of my heart in the great Service and I

Help assured Take it calmly

My beloved Modrotchka,

As before I ask you to manifest in everything the greatest calmness; as it was Said: "Tell to Modra, I shall help her, calmness is imperative for Pledged success!"

I have received a series of cables and of course I can pretty clearly visualize one side of what took place. But I would like to have from you a most precise rendering of all facts. No one has informed me whether the adverse publicity was spread widely, no one informed me of the reason why the counteraction had been stopped? Probably letters with detailed explanations are already on their way. I must know the reason of the drastic letter which was received by you, and also its contents. I would also like to know the contents of the cable mentioned by you, which had been sent to F. I did not hear about if from anyone else, except you.

Now I would like to know by what way did you transmit ul till now letters to G.? Is there a trustworthy person in order that letters through him may reach the hands of G.? I do not need his name, but only ask, whether such a trustworthy person exists? If there is no such person, try to find one. Not, of course, for conveying my letters, but for informing G., that there are letters from me to him.

Of course I was greatly offended also for Maurice and I explain such an attitude of the fr.by his full non-understanding, which will soon be dispersed. I was told: "The cloud has to be soon dispersed! A new circumstance will help. I will soon manifest My Hand. Calmness is the guaranty of success".

My beloved Modrotchka. Not in vain did I write about the great test. And perhaps it is better that my warning was left unheeded. It is important that the test should not be interrupted. For success I ask you to cling with all the strength of your Spirit to the Three Shields. For truly there is no other refuge. Manifest full solidarity with all who understand the Spiritual Hierarchical Principle - with others keep calm and do not challenge, nor show antagonism.

If you will receive any Indications as coming from the L., you may say calmly that you will verify them through me. Notwithstanding the Affirmations of the L., that my straightknowledge, clairaudience and clairvision are infallible, I was sometimes inclined to doubt them (whenever they related to some close person). This doubt, however slight, was impardonable, because not only had I repeated Affirmations from the L.Himself, but even physically I experienced and saw the seal of the Ray of Hiero-Inspiration, which had been placed on the crown of my head, where it remained seen by me for a certain length of time. But now I am forever healed from the slightest doubt in my great gift. It was since long the L.told me: "Thy misfortune is Thy character: Thou doest not value thyself". Of course this doubt in my powers only helped the success of the test, which is taking place. Besides, you may remember the statement of M-r K.H. in the Mahatma Letters how sometimes the straightknowledge even of Adepts is obscured by their Superiors for a certain purpose, as for instance in order to bring out some necessary effects in the surroundings.

Therefore let us calmly observe the development of events. Transmit to Maurice and Sina how I value their loyalty to the Three Shields. By this loyalty we shall succeed. Despite all difficulties a great courage and joy live in my heart. If not in difficulties, wherein would lie the great achievement?!!

Mother

For Mrs H.de Roerich, Naggar, July 15, 1935, 25w - Rs:14/1/-

Rosfedertial

I have received your letter of July 4th. Many many thanks for it. It is so important for me to know all facts and exact details. Write in full confidence, for not one of your communications will be mentioned in my general letters, except if I receive an Indication to this, but even then your name will never be mentioned in this connection. Yes, I ask you not to conceal anything from me, I must know the truth - the most horrible truth. A clear and truthful picture of all what takes place is essential to know. A great watchfulness is required, as we are crossing the most dangerous edge of the precipice. I hope that you have kept the copy of your letter to me and that in due time you will show it to F.

How could it happen that apparently no one of the coworkers noticed the article in the "New York Post" of June 29th? - An article with such powerful headings should have been spread as widely as possible. Of course as I have already written in my general letter, the dementi was of course necessary first of all for the friend himself. Of course I never anticipated lengthy denials, for all such attacks have to be counteracted with the same arms: by short powerful headings, what after all has been done in the mentioned article. It is only regrettable that this article did not apparently appear in other newspapers also.

Now my beloved Modrotchka, again and again I will ask you to manifest complete calmness, but keenly to observe what is going on around, and to point out and to stop wherever possible the pulling down of the Shields. The L. points out to you to hold high the two Shields and present especially the Shield of Ur. The L.has his special reasons for this. Many difficulties arose because in upholding one Shield, the other one was forgotten, the one which is cosmically and karmically the closest to the L. Hence your strength at present will have to be applied to uphol two Shield. Find dignified but quiet words, whereever you see attempts to diminish and to reject the Shields. This is at present you and Si's and Av's joint and most important task. I will refrain from commenting for the present on what has taken place in the first week of July, until I receive all additional details and explanations. Only one thing I will ask you, my Modrotchka, to refrain from inaccurate expressions, which may mislead anyone. The accuracy of expression is imperative! Your opponents, catching you at every inaccuracy, will deprive you of your weapons. From my letters addressed to the Circle and to you, you will see that I insisted upon Fr. Maving relations also with other co-workers. This I wrote according to Indications. I wished so much to prepare your over-anxious heart to the necessity of this, since the scope of work requires an application of various energies, but as you know I did not succeed in this, because the created harmful disunity among the coworkers has so complicated all work and relationship to people. Do not think that I blame only you for what was taking place; no, others are also guilty, and at present even more. Life is so complicated and in order to cross it with the least of entanglements, one must train oneself to the most precise fulfillment of Indications. In the present case the Indications were not carried out and hence so many sad misunderstandings. I know that what I write here, may not fully comprehensible to oyu, but at present I have yet no permission to write you how things really stand. I only ask you, my Belobed Modrotchka, to trust that neither the L., nor F. nor I had any intention to belittle you. I repeat that I do not put the whole blame on you, but I ask you to understand that it was necessary to build a new step and under the prevailing conditions, the L. choose the best most effective means to achieve it. For one mission the L.has to use one channel, for another - other channels. And of course all such channels usually overdo things in their attempts. But let us be courageous, and ad in every occurrence there is its good and useful side, so let us find it and utilize it. But this requires precisely fulfilment of Indications.

Display firmness with the coworkers in upholding the Shield, but without any

excitement. Thus I await the news how you will succeed in transmitting to Franche the letter of Sv. and inform him that you have a message from me, what both Sina and Av.can confirm, but I ask him not to speak about it to other coworkers otherwise this message will never reach him. Try to find ways to transmit this, but on the condition of strictest calmness on your part. If he even refuses to accept this letter, it is not too grave, since F. and Udr. will anyhow soon arrive, and you will be justified and reabilitated. But take greatest care (!!!) not to let anyone know about this arrival, besides Sina and Av. - If by the time this letter reaches you, you were still unable to reach Fr. and deliver the letter of June 26th, please cable me here to this effect, as conditions change constantly and there may be new Indications.

Thus ambition and love for power are terrible scourges, which have ruined so many beautiful beginnings and which have precipitated into the abyss not a few great spirits. I know how someone also could not control herself and succumbed to the power of the awful dweller of the threshold. I saw growing danger, but had to keep silent, because of the most sensitive phase of the construction. Thus the L.with the entire power of His Spirit protests against the communications which are issued by Oy. But I ask you to keep this secret only between you Av and Si, and I ask you to fulfill this Indication, otherwise everything will crumble and such treason would be unredeemable. Thus the Command of the is that you should not show to those close to Oy. that the Ray of the L.is sent to you or that you receive confidential letters from me. I ask you to fulfill this condition, not to destroy my work, my mission. If this condition will be fulfilled, the L.pledges success.

Also when opportunity arises you may say in the Words of the L.: "It is better to put one's hand in the fire, than to send an arrow of treason"... Also: "Tell Modra better to upgold the Ray and Shield of Ur. - The vilification of the name should be stopped. The manifestation of calmness and courage is necessary for stocess. I hear words uttered by someone, and sometimes they are monstrous in their heartlessness. I also hear how someone is horrified at what takes place. The other day I saw in vision horrible attacks upon my Modrotchka. But keep courage - the victory is with the Three Shields and F.& U.will soon be with you.

I am much perturbed by the theft in the office of Si. It is of paramount importance to safeguard the mail as well as all letters on file. Where do you keep my confidential letters, especially the one of June 26th? If anything transpires before the time it would be ruination.

Now once more about Fr. If he refuses to listen to you, you may say that you know that neither F.nor Ur.have ever wirtten him that they ceased trusting you nor that Fr.should not cooperate with you. Thus you will be free of responsibility. Your complete unity with Av.and Si.is of paramount importance at present. Maintain it! "A powerful manifestation will help Modra." But calmness is necessary".

You may read this letter to Av. and Si. I send you three my Love and Trust.

P.S. In view of thefts etc., I am compelled to ask you to burn this letter at once after the main points have been noted by you three.

2

My beloved Modrotchka.

I thank you for your cordial letter of Aug. 9th. Of course you already know about all cables and you understand how every precaution is needed and how important it is to manifest calmness. One must vigilantly gather all threads, all facts useful to us. Even the testemonies previously given by acquaintances may be useful in time. And the main thing is - make friends!

I am so happy at your every approach to the Pan-American representatives. Thus also pay the greatest attention for the inauguration in South America of nuclei for the study of the Teaching or Roerich Societies. Don't forget that Agni-Yoga is translated into French and some copies could be obtained through Chklaver to be sent there and he could also give the address where to obtain this Book. Do not neglect your relations with South American people. It is your strongest point. And try to get possibilities to speak in public. Read lectures also on spiritual subjects. Nothing attracts so much people, as precisely these questions. Speak about the New Era, the new consciousness. Why should you not prepare yourself for the expounding of the Teaching and attracting new people by the way of the Teaching?! Books speaking about the world beyond are sold in thousands of copies. There are more people seeking for Light and spiritual values, than we think. Yar.has just obtained a book by Barbara Cartland "Touch the Stars", which is a beautiful book and has already had many editions, and I think that Modrotchka could easily write and speak still better having all the Books of Teachings. This book is written in the spirit of the Teaching. Read it - and thus also you could carry the message of the New Era and gather people around the Teaching and the Name. Seriously ponder over this. One must build up for oneself an independent position. Remember with all the power of your spirit the friendship with South America!

I will conclude with the words from the Book of Barbara Cartland, which are so close to us: "Let your aim be great and great in that it be too great

for you ever to entirely succeed in it" - in this is contained the secret of the ever-growing spirit !

When I shall have finished with the book, Yar.wishes to present it to you.

I am sending you my love and faith that you will succeed in carrying the

Beautiful Message.

P.S. Another book by the same publishers (RIDER's, Paternoster Row, London) is called "ON THE EDGE OF THE ETHERIC" (or Survival after Death Scientifically Explained), by J.Arthur Findlay has had 30 editions (30,000 copies sold) in England and besides has been translated already into 16 languages. Though treating spiritualism, there are yet many useful points in it. Let us also not forget that the MAHATMA LETTERS (by the same publishers) has just appeared there in its SEVENTH impression.

earth

22

My beloved Modrotchka.

Your letter dated Oct. 11 with the enclosed letter from the Philadelphia Center to me and the copies of letters exchanged between Mrs Schoonmaker and Mrs Horch has been received.

You already the contents of my cable sent to the Phil. Center. Now I enclose for your information a copy of my letter to them. Of course you understand that it would be beyond the dignity of the name to vindicate my-self before strangers in monstrous accusations brought against NK and myself. This vindication can be and should be done by our closest ones. And beloved Modrotchka, I know that you will find worthy words to defend the Great Work of the Lord M. and His entrusted ones. Many memorandums and letters with facts confirmed by documents are already en route. From these you will see still clearer the true situation. You will point out to the loyal ones, how unjust, how proposterously false are all accusations of NK in extravagant expenses. Thus not only the entire financial administration from the very beginning was exclusively in the hands of Mr. Horeh, but he had also full power of attorney from N.K. to conduct our own financial affairs. You already know how small is the sum (stated by him) which was paid for the paintings belonging to the Museum, and also that a considerable part of this sum was spent on the expedition. If there was a certain increase upon the sum remaining in the bank, then this was due to the great rise of securities in America during the years 1927-28.

Of course you will emphasize how N.K.wished to make all institutions self-supporting. How he advised already in the year 1931, before the receivership to organize a committee of friendly bondholders, who understood our cultural aims, as well as the inauguration of numerous committee for collecting funds and expansion of the institutions. Break up the insinuation that financial backers were lost due to the affiliation with Prof.R. The truth should be re-established that mostly your and our friends helped the Institutions. Also do not forget to point out how advises and Indications had been given, but they usually were distorted or carried out half-way or not in time. Every sensible person understands that success depends on dates and that from a half-way decision one can expect but half-way results. The policy of Mr.Horch during all these years was to give with one hand and with the other hand to squeeze and thus destroy.

One should also make clear the real causes of financial difficulties. Firstly, the building was intended to be of 24 storeys. I am quoting in the following the statement of Mr. Horch in the Minutes of June 18, 1931: "para 13 Referring to para 50, the Trustees realize fully the serious financial damages caused by the failure of the American Bond and Mortgage Co., their returning to us over \$300,000 of unsold bonds, on which we took a loss of over \$150,000. Besides this their huge finance charges of 102% for floating our Bond issue and their usurious charges of approx.\$142,000 for building charges have been grossly effecting our works, which otherwise are on such sound bases". Thus we have 85 huge volume of documents, everything in great order. Amongst them a colossal amount of documents are signed in full by Mr. Horch so that he should be careful in his contradicting statements Of course now you have already much data on hand for dementing their false accusations. I know that my Modrotchka will know how to speak forcefully with a flaming heart. For this is the defense of the Great Work of the Lord M. and of the entire Hierarchy of Light. Thus let the loyal ones in Philadelphia and everywhere be imbued with the cosmic significance of the Given Plan. The

loyal ones may know about the Legend of the Stone.

Now I transmit to you the Indication of the L.: "Let Modra write down the history of the new Coulombs. I entrust this task to her. One should especially emphasize how everything had been given to the traitors. Such a record is the history in the world movement. "Yes, truly everything had been given to them. They not only had access to the Sacred Teachings, but even were keepers of It. All possibilities, all the down were open to them. They penetrated, using the name R., to the very tops and were received with full attention. The time will come when people will know more about the unheard-off treason committed by them. The fear of the committed by them treason forces them to slander so madly and to destroy all and everything, in order to close for us access to everywhere. The fools do not understand that they dig and themselves!

I am sure that Modrotchka will be imbued with the importance of the entrusted to her task to write the history of the unheard-off treason, which was committed during the absence of N.K. when he was far away bound by Governmental service. Together with Sina and Maurice Modrotchka can recall many facts and details, how long ago this treason was already concealed in their hearts. As we see now the seeds was already planted in the year 1923, when Porooma longed for the departure of N.K., in order that Louis may assume power. And truly he has revealed himself in full size and "beauty" with the help of the two enraged accomplices. Realize, that this is being done for some evil purpose in the second half of 1935, on the very eve of the significant date. This terrible hatred on their part has the cause in obsession. Everything must be recorded for it will be a tragit page in the great world movement. Let us remeber once more the words of Vivekananda: "The names of Buddha and Christ remained so impressed in the memories of generations, because they were happy to have powerful enemies! " - Yes, Judahs and Devadattas are indispensible for carrying the Name into perpetuity. Is it not significant that precisely Judah had been entrusted with the treasury.

It would be interesting to listen to the explanations given by Mrs Horch to the group who visit the Museum and it is most important that someone should enlist in her group of Agni-Yoga, in order to make records of her statements. I imagine what distortion of the Teaching and what slander of the name can be evidenced.

I am sending to you and Sina paras from the third volume of the Fiery World. Modrotchka could read them to the loyal ones. But unfortunately they are not translated. I shall also send copies of my letters to various correspondents, regarding questions of the Teachings. But who will translate these - perhaps Maurice? We are all overboaded with work.

Thus my beloved Modrotchka let us stand up for the great work and joy will be ours. We all rejoice that the ulcer hasopened and great fiery purification is ahead. A new step begins. But much has to be still revealed and new and necessary circumstances are approaching. A great victory is ahead. Thus let us stand on vigil, gather facts and act cautiously.

I am sending you my love and tenderness

P.S.As a humorous touch: if Hovomna can assert that she posed for Pro.R's painting Agni-Yoga completed at Darjeeling in 1928 - then what more to say!
