

11-JAN-38

Dear Mrs Raigorodsky,

Thanks for your cordial token - the beautiful scarf with your friendly note of the 18th Nov., posted from Tulsa on Dec. 6th, which just reached our remote Himalayas. These blue and purple colours especially appeal to me. I always appreciate handicraft and wished to introduce it in our Art School in New York, remembering what beautiful gobelins, carpets and other nice things were made in our School in Russia. But ^{un}fortunately Mrs Horch was much against it assuring me that it would have no success because American ladies dislike such things. Perhaps in due time we shall see such a department of handicraft established in Arsuna.

We often think of ARSUNA and its development. We are glad to hear from Clyde and Maurice of the success of ARSUNA in Santa-Fé .

Thanking you once more for your kind remembrance, I am sending you my best wishes,

Yours sincerely,
