

30-APR-37

Dear Mr. Rainear,

I am in receipt of your letter and was very happy to hear of your spiritual strivings, about which Mrs Schoonmaker has also written to me.

Amidst your manifold aspirations which you mention, in the course of time some line will crystallize itself which will express your life career. I feel that you are passing through a period of searching and therefore you should imbue yourself primarily with the Teachings of Living Ethics, which treat both the Higher Planes and give a firm stand in our physical world. Do not decide at present upon any far travels, as you should first ascertain yourself on your own home soil.

Advice is always Given that those who want to approach closer, have first to affirm themselves firmly and to accumulate life experience and master some specialities, in order not to waste precious years. In due time possibilities will arise and then everything will be solved in a natural way. We know of cases, when some people tried

forcefully to precipitate events, but this never was to their benefit. The country to which you desired to go is at present under great tension and this does not facilitate matters.

We shall always be glad to hear of your studies and activities and should you have anything written on themes of Living Ethics shall be glad to read same.

Wishing you every success,

*Yours sincerely*
