Dear Mr. Weed,

Your readiness to undertake the printing of all the Agni Yoga series in English brought us a real joy. With gratitude we accept your help. I know that this help will be returned hundred fold.

We leave to you and Mr. and Mrs. Jusdiek to work out all the details of this undertaking. The sale of the last book will show the amount of copies which can be easily put in circulation. Of course we must proceed with the translation of the "Free World". There remain two volumes of it.

I greatly appreciate your endeavours to bring about a better understanding among nations. This noble idea should be the aim of every conscious human being, but so far only a small minority

visualizes its purpose and imperativeness.

If people wish to see a New Era of Prosperity instead of Chaos, they must realize that the Reconstruction of the World can only be achieved on the base of a new understanding of confidence and cooperation among nations -

Blessed be all your noble endeavours -

Sincerely yours

Helene Perrell -

Dear Mr. Weed,

Your thought to present me a statuette of Nefertiti has been a fine intuition as I am very fond of this Egyptian period.

But as we have so far no permanent address will you keep it with you or send it to Mr. J. Rosdick who will later bring it to me?

I am happy that Kinkinjunga one of my favorite paintings is in your possession.

To learn your fine appreciation of your wife's character has made me really happy. It endears you so much more.

Gladly I shall keep you both close to my heart and will send my best thoughts and wishes —

most sincerely

Dear Mr. Weed,

Your kind letter of Oct. 7<sup>th</sup> has found us still in Khandala. As October is the worst month in the plains and for travelling by trains, we shall probably move from here by the middle of Nov. - But as our further destination has not yet been fully decided, the little statuette of Refertiti has still to remain in your friendly custody, notwithstanding my wish to have her with me.

You ask me if you can write now and then and tell me what you think and ask my advice? - Yes, I would be glad to know your thoughts about the great Work and to convey you some advice if the matter does not exceed my erudition or does not trespass the precincts of that which is not to be revealed or trusted to paper...

Perhaps, it will interest you to know that a new celestial body will soon be visible on our horizon. This body is of triple intensity and is the one you saw in your dream-vision. The impact of its ultra-violet rays is exceedingly powerful and will affect\* the reparative influence of Saturn's rays - You can make your deductions.

\* and paralyze

This planet (the astronomers will not agree to this statement) will not stay but in a few years it will reappear and settle as a member of our Solar System.

This planet will become a blessing to our humanity, and a New Era will be started on our Earth. Thus the planet of the Mother of the World appeared as the precursor of the Epoch of the Great Spiritual Revival.

Meanwhile our work must continue and the difficult time that we have to face will be of short duration.

As some precautions have to be taken, I have advised Gina to move her quarters up-town, where rents are lower, besides I always preferred the upper part of New York - beginning from 77<sup>th</sup> Street and up.

As I am in favour of cool climate, I wrote to Gina that I would avoid Florida and even California - So we ~~will~~ will also move to some place where we can see some snow.

I hope this letter will find you and your family in the best of health - My heart sends best thoughts and feelings to your dear wife and yourself  
Keep courage and trust the Great Wisdom

Dear Mr Reed

I hasten to answer your letter, as I can easily understand how distressed you must feel about your Mother's condition.

I feel sad, very sad not to be able to give you any help for her recovery. Your mother's life cycle is closing and the only thing that can be done it is to supply every effort to alleviate her pains. There are some very new and very efficacious calmative drugs which could be given to her.

In our Books of Feeding you could find some hints to Lithium's salts which have to be taken as prophylactic against many diseases, tumours gall and colicous stones and even cancer - Why not to try? Suggest to your physician - It could be given as a beverage - Here is a prescription: two or three grams

Two spoons of Lithium powder and a small coffee spoon  
of Soda Bicarbonate with two of these dissolved in  
of general in a tumbler of water, one may add  
some lemon juice for flavor - It is a very  
pleasant drink - One may take from two  
to four tumbler a day -  
Lithium salts are quite harmless compared to  
other salts.

Yes my Sina has a hard time in finding  
suitable headquarters. I would not like to bur-  
den her with new expenditures.

The coming year will be a difficult one and  
it is better to remain within the limits of our  
possibilities. I know that in two, three years  
the surge of the war will increase greatly  
and then the premises may be changed.

It is a very difficult task to find low-cost  
premises without engaging the status of the  
war but I hope that she will find some  
solution -

Meanwhile let us do our best  
by best thoughts and hearty wishes to  
you and your family.

"Crookety"

Dear Mr. Weed,

Some days ago I received a smashed paper box and found inside the poor little Report: not only decapitated but reduced to a heap of plaster!

Sad as it is, still your kind thought was there and of course the motive <sup>is</sup> the thought is the main thing.

The ~~actual~~ <sup>now</sup> Report: ~~leaves~~ <sup>leaves</sup> my ~~place~~ <sup>place</sup> ~~studio~~ <sup>studio</sup>.

I shall be happy to hear about ~~the~~ <sup>transfer of</sup> the ~~future~~ <sup>the</sup> ~~future~~ <sup>beginning</sup> ~~of~~ <sup>of</sup> our ~~Institutions~~ <sup>Institutions</sup> and ~~their~~ <sup>their</sup> ~~future~~ <sup>future</sup> ~~may~~ <sup>may</sup> already in the new quarters.

Love and truly and some more cooperation and of course new surroundings will attract new possibilities in due time - the source of the

The place is good, better than <sup>that of</sup> the former one

I am happy to learn about your high spirits <sup>to have success</sup>  
as nothing is so constructive as a courageous and  
hopeful state of mind especially in our trying  
times. By all means preserve such a rare  
~~gift~~ <sup>an</sup> achievement a "gift!"

Although strong in spirit I am ~~very~~ weak phys-  
ically just now because of some accelerated  
steps in my discipline. But in two months  
time from now I shall regain my strength  
for a new activity - Thus please excuse  
my silence - It is not a lack of cooperat-

tion but <sup>or</sup> further impossibility to write  
<sup>much</sup> in my present state of ~~physical~~ <sup>physical</sup> ~~weakness~~  
~~and~~ <sup>strain</sup> of psychic and physical ~~strain~~

I should like to see you all best thoughts  
and notes -

Yours truly

delivered as exact records to measure full  
the work to be done etc. from out  
with us.

I dear Mr. Weed,

Herewith I am sending you the copy of my  
letter of July.

Many thanks for your New Year greetings  
may the New Year bring <sup>us</sup> the much longed (for?)  
solution of the unsolvable problems of the  
World. Changes are needed ~~to make~~ to make  
the mind of people work along new and  
salutary grooves of brotherly cooperation.  
Hate and fear of war bring the war and  
restriction to our door.

Thus let thoughts of friendliness prevail and  
be disseminated from our Institutions  
to help the great cosmic construction in  
its ever ~~growing~~ <sup>increasing</sup> ~~continuous~~ process and  
decidedly along a new pattern

My dream of a closer bond and coopera-  
tion with the people of America will  
be fulfilled but may <sup>be</sup> in quite an ~~old~~  
~~and~~ unforeseen and unexpected way -  
Inscrutable are the ways of Cosmic  
Justice!

Meanwhile I wish you and ~~your~~ <sup>all</sup> ~~see~~  
along you in thoughts all the bounty  
of the Goddess Lakshmi -

Dear Mr. Weed,

The other day the second Paper-  
Liti made her appearance and now is stately  
standing on my desk. Many thanks for your  
kindness.

Your letter of March 16<sup>th</sup> has been duly received. Yes, I am very happy with the excellent  
new headquarters for the Institutions. Every  
one praises them, many feel the unusual happy  
atmosphere of the premises. But so it must be,  
since the house has been indicated.

I am more than certain, I know, that the develop-  
ment of the Institutions will take place in due  
time. Much depends on the coming events,  
the clouds are still <sup>far</sup> from breaking up, but the  
great calamity has been postponed, perhaps till  
the next year, but it is bound to come.  
Much could be helped and even avoided

except the Decrees of human Will that  
does not wish to follow the path of evolution fin-  
ted out by the great ones -

Yes, the Sunshine will come but after the  
storm is over. The Spirit of humanity must be  
awakened even at the cost of many sufferings

I have confidence in the Wisdom of Gods of Par-  
me and I know that even I despite my old age  
will see the fulfillment of many prophecies  
and the great Justice taking place.

A new Era of understanding and coop-  
eration among nations, followed by the re-  
valuation of values and a new reconstruction  
of the World - will soon dawn - time passes!  
May these words bring indomitable courage  
and confidence in the future -

The Shield of the great L. will always  
protect you on the right path of Science

Dear Mr. Weed

Thank you for your letter of Sept. 11<sup>th</sup>. I was glad to learn that you have experienced some relief in your business this year. Of course when the cycle of Kosmic reconstruction is over, we may expect a new life to be established all over the world. Just now, we have entered a period of great changes everywhere, in your country also. But you will face them with courage and redoubled resolution ~~to~~ <sup>press</sup> to overcome all difficulties which will <sup>loom</sup> ~~present~~ themselves from many sides.

Your resourcefulness, which is one of your outstanding qualities will help you to build your new life on a larger scale. Thus do not worry too much about the reverses of fortune. There is a proverb <sup>in my country</sup> which I like very much. It proved to be one of the most true and helpful advices in my life. I shall try to translate it - "Happiness would not be our lot, had not misfortune been conducive to it." - Thus the great calamity that befell my country, helped my family and myself to find <sup>a</sup> the path <sup>greater</sup> bigger, higher realisation of God's Plan and

My dear Mr Weed, just ~~the~~ received Gina's letter of June wherein she writes about the soreness of your foot; - it is very annoying, but there is no danger what so ever. The soreness can be alleviated by applying cold compresses, keeping them until they lose their coolness - some camomile or Herica can be added to the water but the best is the application to the sore place of fresh plantain-leaves - (~~grasses~~) these leaves must be washed and disinfected in water with some formalin <sup>in water</sup> and after put in rows on a linen cloth. The leaves should be crushed before and then applied to the sore place. I shall write to Gina in Russian and she will explain it better. From my personal experience with plantain's leaves I know they are wonderful and take away all inflammation -

needs to be

Your heart must be strengthened, therefore it is advised to take Strophantus as it is the best <sup>or</sup> medicine for many heart-diseases. It does not accumulate in our organism, as other poisons do besides it co-operates

with Kidneys. It is a very good Remedy for many Kidney  
diseases -

It is suggested to take <sup>two or three</sup> pills or tablets per day  
one pill on your empty stomach before breakfast, the  
second - going to sleep - To continue a whole week -  
then to increase the dose to three pills per day for  
~~one~~ two weeks and then again two pills per day  
for one week - After you must have a rest from  
all medicines -

Strontian is a wonderful remedy, it prevents many  
diseases. In the middle ages, among the <sup>cures and</sup> elements  
it ~~was~~ <sup>was</sup> considered as one of the most sacred -  
It entered into the Secret of Life as one of the  
main ingredients. Strontian belongs our life -  
It can cure even a strong malarial, lot of course  
the doses <sup>are various</sup> ~~are~~ <sup>may</sup> vary with every case and person -  
I would like to know the effects of Strontian  
on you, dear Mr. Wood - let me know perhaps through  
Jim -

I have been very pleased to get your letter of March  
and learn about your fine <sup>advance</sup> ~~progress~~ along the spiritual  
lines of progress. Your dream proves that your subtle  
body can consciously participate in the great constant  
the work going <sup>or taking place</sup> on the Astral plane

and retain some interesting details - the "fire-  
enters", how we need them everywhere! There is so  
much of "black" fire which has to be "eaten" or  
transmitted upon our planet. <sup>of Burt</sup> I am ~~afraid that~~  
our earthly transmission may turn everything  
to ashes -

As always I am sure the best of our culture  
and civilization will be spared and the worst  
human representatives - saved! - The Powers of Light  
will come to the rescue of our clay humanity  
if it will.

I am sorry that you did not buy some cards or  
in Connecticut in 1942-49, when the prices were not yet  
so high - ~~but all is for the best~~ but ~~best~~  
is hope for the best. Keeping the safe  
places, much can be protected.
