Dear Mr. Reed,

Your readiness to under-

take the printing of all the Agni-Yoga series in English brought us a real joy. With gratitude we accept your help. I know that this help will be returned hundredfold.

We leave to you and Mr. and Mrs. Juddick to work out all the details of this undertaking. The sale of the last book will show the amount of copies which can be easily put in circulation. Of course we must proceed with the translation of the "Free World". There remain two volumes of it.

I greatly appreciate your endeavours to bring about a better understanding among nations. This noble idea should be the aim of every conscious human being, but so far only a small minority

visualize its purpose and imperatives.

If people wish to see a New Era of Prosperity instead of Chaos, they must realize that the Reconstruction of the World can only be achieved on the base of a new understanding of confidence and cooperation among nations -

Blessed be all your noble endeavours -

Sincerely yours

Helen Russell -

Dear Mr. Weed,

Your thought to present me a sta-  
tue of Reptili has been a fine intuition as  
I am very fond of this Egyptian Period.

But as we have so far no permanent address  
will you keep it with you or send it to Mr. J. G. Purcell  
who will later bring it to me?

I am happy that Rinetinjunga one of my favo-  
rite paintings is in your possession.

To learn your fine appreciation of your wife's  
character has made me really happy. It endears  
you so much more.

Gladly I shall keep you both close to my heart  
and will send my best thoughts and wishes -

most sincerely

Dear Mr. Weed,

Your kind letter of Oct. 7<sup>th</sup> had found us still in Khandala. As October is the worst month in the plains and for travelling by train, we shall probably move from here by the middle of Nov. — But as our further destination has not yet been fully decided, the little statuette of Reperi-ti has still to remain in your friendly custody, notwithstanding standing my wish to have her with me.

You ask me if you can write now and then and tell me what you think and ask my advice? — Yes, I would be glad to know your thoughts about the great Work and to convey you some advice if the matter does not exceed my erudition or does not trespass the precincts of that which is not to be revealed or trusted to paper... .

Perhaps, it will interest you to know that a new celestial body will soon be visible on our horizon. This body is of triple intensity and is the one you saw in your dream-vision. The impact of its ultra-violet rays is exceedingly powerful and will affect\* the nefarious influence of Saturn's rays — You can make your deductions.

\* and banalize

This planet (the astronomers will not agree to this statement) will not stay but in a few years it will reappear and settle as a member of our Solar System.

This planet will become a blessing to our humanity, and a New Era will be started on our Earth. Thus the planet of the Mother of the World appeared as the precursor of the Epoch of the Great Spiritual Revival.

Meanwhile our work must continue and the difficult time that we have to face will be of short duration.

As some precautions have to be taken, I have advised Sina to move her quarters up-town, where rents are lower, besides I always prefer the upper part of New York - beginning from 77<sup>th</sup> Street and up.

As I am in favour of cool climate, I wrote to Sina that I would avoid Florida and even California — so we might well also move to some place where we can see some snow.

I hope this letter will find you and your family in the best of health — My heart sends best thoughts and feelings to your dear wife and yourself  
Keep courage and trust the great Wisdom

~~27~~Dear M<sup>r</sup> & Mrs. Mead

I hasten to answer your letter, as I can easily understand how distressed you must feel about your mother's condition.

I feel sad, very sad not to be able to give you any hope for her recovery. Your mother's life will be shortening and the only thing that can be done is to employ every effort to alleviate her pains. There are some very new and very efficacious calmantile drugs which could be given to her.

In our Books of Feeding you could find some hints by Lithium's salts which have to be taken as proflacatives against many diseases, tumors, gall and calcining stones and even cancer - Why not to try? Suggest to your physician - It could be given as a beverage -

Here is a prescription: two or three of one

In form of Lithium powder and a small coffee spoon  
of Soda bicarbonate with 2 oz of the above form  
of general in a tumbler of water, one may add  
some lemon juice for flavour - It is a very  
pleasant drink - One may take from two  
to three tumbler a day -  
Lithium salts are quite harmless compared to  
other salts.

Yes my Sir as a hard time in finding  
suitable head-quarters. I would not like to burden  
you with new specifications.

The coming year will be a difficult one and  
it is better to remain within the limits of our  
possibilities. I know that in two, three years  
the scope of the Works will increase greatly  
and then the premises may be enlarged.

It is a very difficult task to find low-cost  
premises without engaging the States of the  
Work but I do let it off will find some  
solution -

Meanwhile let us do our best  
My best thoughts and hearty wishes to  
you and your family

Dear Mr. Weed,

Some days ago I received a smashed paper box and found inside the poor little Reportit: not only decapitated but reduced to a heap of <sup>was</sup> plaster!

Dear Mr. Weed,

Herewith I am sending you the copy of my  
letter of July.

Many thanks for your New Year Greetings.  
May the New Year bring the much longed-for  
solution of the insoluble problems of the  
World. Changes are needed ~~nowhere~~ to make  
the mind of people work along new and  
talentary ~~ways~~ of brotherly cooperation.  
Hate and fear of war bring the war and  
pestilence to our doors.

Thus let thoughts of friendliness prevail and  
be disseminated from our Institutions  
to help the great cosmic construction in  
its ever ~~increasingly~~ <sup>is</sup> ~~stratified~~ ~~growing~~ ~~steaming~~ process and  
decidedly along a new pattern.

My dream of a closer bond and coopera-  
tion with the people of America will  
be fulfilled but may <sup>be</sup> quite an ~~HIGH~~

Dear Mr. Ward,

The other day the second Paper  
Lili made her appearance and now is stately  
standing on my desk. Many thanks for your  
kindness.

Your letter of March 16<sup>th</sup> has been duly received. Yes, I am very happy with the excellent  
new headquarters for the Institutions. Every  
one praises them, many feel the unusual happy  
atmosphere of the premises. But so it must be,  
since the house has been indicated.

I am more than certain, I know, that the develop-  
ment of the Institutions will take place in due  
time. Much depends on the coming events,  
the clouds are still <sup>far</sup> from breaking up, but the  
great calamity has been postponed, perhaps till  
the next year, but it is bound to come.  
Much could be helped and even avoided

except the Deceit of Human Will that  
does not wish to follow the path of evolution fix-  
ted out by the great ones -

Yes, the Sunshine will come but after the  
Storm is over. The Spirit of Humanity must be  
awakened even at the cost of many sufferings

I have confidence in the Wisdom of God of Res-  
ume and I know that even I despite my old age  
will see the fulfillment of many prophecies  
and the Great Justice taking place.

A new Era of understanding and coope-  
ration among nations, followed by the re-  
evaluation of values and a new reconstruction  
of the World - will soon dawn - time passes!

May these words bring undimitable courage  
and confidence in the future -

The Shield of the great L. will always  
protect you on the right path of Service

Dear Mr. Weed,

Thank you for your letter of Sept. 11<sup>th</sup>. I was glad to learn that you have experienced some relief in your business this year. Of course when the cycle of Karmic reconstruction is over, we may expect a new life to be established all over the World. Just now, we have entered a period of great changes every where, in your country also. But you will face them with courage and redoubled resolution to overcome all difficulties which will <sup>loom</sup> present themselves from many sides.

Your resourcefulness which is one of your outstanding qualities will help you to build your new life on a larger scale. Thus do not worry too much about the reverses of fortune. There is a proverb which I like very much. It proved to be one of the most true and helpful advices in my life. I shall try to translate it - «Happiness would not be our lot, had not misfortune been conducive to it.» - Thus the great calamity that befell my country, helped my family and myself to find the Path <sup>of greater</sup> bigger, higher Realisation of God's Plan and

8

helped  
to find the Path to the great ones to contact them  
and become their Servitors, disciples and even be entrusted  
with special missions . . . This happiness surpasses  
anything on this earthly plan. —

We know, that the great help will be always extended to us  
"Lunderhoff" for the little we have done for the great Work.

But this "Lunderhoff" will be fully compensated with  
our service rendered to the great cause. The more we give,  
the more we receive — Thus do not worry — great assistance  
will come at the right time moment.

~~Dear Mr. Weed~~ <sup>the coming</sup> Epoch is the ~~epoch~~ of cooperation  
and friendship with all nations, thus dear Mr. Weed  
lent your ear to the whispers of your heart not of the  
mind, a business mind. Remain a friend to the people  
and Country which are protected by the great ones.

The first signs of the debacle have already appeared —  
the next coming months are very dangerous, the events  
are piling up and the great avalanche is not far off.  
hope you have not suffered from the ravaging hurricane —  
All previous advices remain in full force. Connecticut and  
Michigan will stand as two cases through the great tribulation  
In case of danger take your family to Michigan — It is an  
advice to you. My whole being wishes to help our friends in  
need. <sup>now</sup> dear Mr. Weed, help <sup>will</sup> come be extended, thus keep <sup>long</sup>  
wise <sup>now</sup> wise courage the power to will, last fail in the night of our Lord —  
the Solar hierarchy! — May the shield of the <sup>Lord</sup> ~~of~~ ones  
be always over you —

My dear Mr. Need, just ~~after~~ received Sina's letter  
of June wherein she writes about the soreness of your
