

12-AUG-37

My dear, dear Mrs Welsh,

We were so sorry to learn from dear Katherine that you are still unwell. Many times I wished to write to you but you know how impeded I am by my imperfect English, besides many other circumstances. All my sympathy is going to you - I am sure that by the autumn your general health will greatly improve. Have you consulted a really good physician?

In your last letter you asked me whether I would be interested in your horoscope. But I never studied thoroughly astrology. To be a good astrologist one must make of it a real science, but I had no time to spare. Much better I would love to have your photo - it will be a real pleasure to have your photo standing on my desk together with that of Katherine. Moreover it will help me greatly to concentrate while sending to you thoughts of strength and love and to observe changes in your condition. I was most happy to receive the last photo of Katherine - she looks so lovely.

Probably you know all about the new developments of our case in America. We are so grateful to Katherine for all

the great help she extends to the works. I have sent to Katherine the book "Aum" in Mr. Gartner's translation and I hope that means will be found among readers to publish it - I am sure you will like it. The next book "Brotherhood" is already in translation. Now the second part of "Brotherhood" is being given, which will not be printed, but five copies of it will be kept among friends.

I wonder whether you have seen the film "The Lost Horizon" ? - much is spoken of it, but we doubt if it is really good.

Please do not forget to send me your photo - I shall await it impatiently. It can be small, but I would like your entire figure. Often I feel your presence. Please take good care of yourself.- My love is with you.

In heart and spirit

7-DEC-37

My dearest Mrs Welsh,

Your beautiful letter, written on your birthday, brought me great joy. But I could not answer you earlier, because for two weeks I had been in bed and thereafter felt very weak for a considerable time, and could not re-enter into the rhythm of our intensive work. Besides the times are at present so difficult and the atmosphere is filled with poisonous arrows of malice and hatred. The madness of humanity knows no boundaries and reacts upon the hearts of those who feel and understand whither the ship of mankind is drifting. I am sure that your indisposition is often due to these difficult currents.

On the background of sad news, your letter was most refreshing. If at least a thousand people would think and feel like you do, there would be paradise on earth! You are fully right that devotion based on true love will never fail. But such devotion is the rarest pearl and therefore blessed are those who can realize this. Guard this realization in your heart, let it never leave you, let it be your mantram. Verily the growth of works, at the foundation of which would be laid such a devotion to the Teacher, would be phenomenal. But since such a work re-

quires co-workers, this devotion is needed from all of them, and not only from merely two or three. You know from our dear Katherine, with what difficulties we are confronted. You know that amidst our co-workers there is a very difficult character, who himself is unhappy because of it, and whose actions greatly impede and complicate the whole situation. And yet how much wise joy is there in readiness to serve the Great Brothers of Humanity and in the giving of one's heart to the Gr.T. in devotion to the very end. People who do not know this most noble feeling do not understand of what they deprive themselves. I am happy that you have the Portrait of the Gr.T. I would like very much to send you the translations of all the Books of the Teachings, made by Mr. Gartner, but first I have to find time to check his translations and this is rather difficult. I already began sending to Mrs Sina Lichtman pages from the second part of "Brotherhood". The Gr.T. gave his consent that the closest co-workers (amidst whom I of course include you, Katherine and Inge) may hear the translation of this book. Therefore whenever you meet Mrs Sina Lichtmann, she may by and by translate them to you.

I rejoice to hear that your health has improved. Take care of yourself, you are needed in the work of the Lord and to Katherine. My heart aches for our dear Katherine - I feel through what difficult times she is passing now and there is near her no courageous and firm person, who could advise her in a moment of difficulty. All our legal advisors are rather weak. But with the love to the Gr.T. in her heart, the Shield will protect her, therefore she should not fear. Her faithful friend Inge is temporarily out of action. We felt deep sorrow, when hearing about Inge's accident, but we are confident that everything will be well with her in the end. She only was saved through a miracle. A great gratitude lives in our hearts to the Gr. T., who has saved her most useful life. She is a wonderful person and so devoted to the Gr.T. and loves Katherine so much. I was deeply touched to hear from her letter to Svetoslav that she fully realizes that she was saved thanks to the T. Just through such realizations we progress on the path of Light. Many others, in her place, would have rebelled against and even accused the Gr.T. for lack of help. But a pure heart feels the great solicitude and knows what energy has to be spent by the Great Brotherhood in

order to save humanity from a catastrophe. I am happy that you sometimes feel my presence. This is probably when I think of you and send you love and caresses.

My dear, dear Amy, take good care of yourself and let us help our dear Katherine in every way. When courageous and when in action, the Great Forces can much more easily send us the necessary assistance.

Dear Amy, if you do not like to be photographed, then do not do it. Svetoslav has told me much about you. He loves you and therefore my heart knows how you look in your real self. I also appreciate greatly your caution with the disciple of Keskar. There are many who are but inquisitive.

I am sending my love and tenderness to you and our Katherine.

In heart with you

4
5-MAR-38

My dearest Amy,

Hearty thanks for your beautiful letter. How wonderful that you could see the Image of the Gr.T. Try every day at definite hours to call forth this Image. Let it penetrate into the circle of your third eye. Your dream also is beautiful. The white steed - the steed carrying the treasure of the world or the steed of the Great Kalki Avatar - is the symbol of the Path of Light, therefore you have correctly interpreted your dream.

Dearest Amy, thank you so much for your token of remembrance; please convey also my hearty thanks to your friend Mrs Edith Pfeffer. I wonder how to reciprocate - in our remote place it is difficult to find anything nice - perhaps you would like to have some views of our mountains. The other day we received a cable from Katherine which greatly distressed us, but the Gr.T. consoled us. It was indicated to arrange a consultation of nerve specialists with physicians because her nervous condition may reflect upon and accentuate the inflammatory process. If the physicians decide to operate it will be successful. It is possible that the nerve specialist will want her to have a preliminary rest and I thought

that the presence of your loving aura near Katherine would be of great help - this thought was Confirmed by the Gr.T.

I cannot find words to express how my heart aches for our dear Katherine. The last year was so trying for her. I would like so much to sooth her and to give her thoughts a new direction. We all love her so much and of course as soon as it shall be possible we shall try to help her in every way. My whole family appreciates and loves her so much. Sv. is very worried for his friend. But we all firmly believe in a better future.

Dear Amy, I shall be happy to receive your photo. I know photographs distort some features but I shall look with the eyes of the heart and through the eyes of Sv. to loves you very much and sends you his heartiest greetings. At present he works very hard on his paintings. Who knows, perhaps he will go to Europe.

My dear Amy, I am sending you my love. We anxiously await the decision of the physicians. All our thoughts surround Katherine.

You act rightly in not giving out our address. Let the young man make no mistake in going to India with the view to earn money. There are thousands and thousands of young people here with a university education who cannot earn their bread. The Urusvati Inst. at present conducts no chemical research.

815097

17-MAY-1938

Dearest Amy,

Of course you feel how often I think of you and Katherine and how in my heart I write you long, long letters. You possess that sincerity, tenderness and caring attitude, which one so seldom meets and yet just these qualities give beauty and joy to life. I confess that I am extremely sensitive to coarseness and so-called ill-breeding and feel unhappy when surrounded by disunity and irritation. Therefore I grieve so much that our dear Katherine has to contact the oppressive atmosphere which exists around the institutions in New York. There, where from the very beginning there was no unity amidst the coworkers it is difficult to expect a healthy progress of the works. But of course this obvious disunity is no justification for the treason and usurpation of the trio. And the judges who pronounced the unfavourable verdict under the pressure of the official whom you know, of course are guilty of no lesser crime. But the name of the judge who showed self-respect and dignity in contradicting on all points the enforced decision of his colleagues, will for ever remain in our hearts. Probably Katherine also told you of another judge who stated in front of the lawyers of both sides that he was being kept bothered by Mr. Wall about this case.

Thus because of such an unequal position, the final victory can only be achieved when applying *tactica adversa*. This tactic has for centuries been used by the Hierarchy of Light. It compels the enemies themselves to reestablish justice. Remember the formula in the Books of the Teachings: *jiins build temples*. But of course such tactics are not easy to bear and it has to be used only because of the usual lack of unity among co-workers and the wavering efforts of luke-warm helpers. Therefore you may easily understand how we cherish every true friend. We were touched by the unanimity manifested by our friends in their decision to continue the fight for justice. Of course you know from Katherine that since the required unity (the sole condition of success) could not be realized, the Gr.T. advised to prolong the proceedings. The Gr.T. sees that what no one else can foresee.

We understand that K's case apparently will be settled in some way. We are happy for her, for we did not wish to overburden her. Svetig is very worried about his friend and this anxiety reacts upon his health. My heart aches witnessing the change in him. But of course the majority of ailings is at present intensified by the widespread poisoning of the atmosphere, which will increase and one may even expect all kinds of perturbances. Thus many suffer now from weakening of eyesight, strange fevers, and especially the weak spots of one's organism suffer.

I hope, dearest Amy, that your health is much better than last year. We have to keep the equilibrium of the whole strength of our spirit as well as unity in our surroundings. A harmonious atmosphere is the best prophylactic.

I was so glad that Katherine had the intention to spend some days with you, but it seems that circumstances had prevented her. But perhaps she will be able to find some rest on her farm. I would like so much to comfort her and repeat again and again that she should not fear anything. Under the shield of the Gr.T. nothing should frighten us, all threatening monsters are only passing phantoms. Let us also not worry overmuch at committed mistakes: because, as it was said, even mistakes, when the heart was aflame in service, can be turned to the benefit.

Dear Amy, knowing your heart and love for Katherine, I ask you again to assist her throughout this difficult time. The present time is a most trying one for the whole world. Let us often compare our position with millions of suffering ones, who have lost everything and let us express our gratitude for having around us and in distance loving hearts. The realization of the Guiding Hand which will always keep its Shield over us in time of real danger should never leave us. Often many dangers exist only in our imagination. We ourselves create these threatening phantoms which paralyze our best aspirations and weaken our aura, thus opening an access to all visible and invisible fiendish creatures. Faith, in the Gr. T's Shéhádj, in spite of whatsoever earthly evidence, is the best defense. It is also wise to remember that if there was fai-

lure to-day, there shall be joy tomorrow. I quote from the new Book:

"The Great Thinker said: as soon as man exclaims - I am unhappy - he immediately increases his misfortune. But he, who says - I am happy - already opens the gates to happiness. Do not think that man commands himself to be happy or unhappy. The manifestation is far deeper. Man contacts mighty forces. Even before he has time to express his state of mind, it is already fixed in space. Thus we call towards us the higher forces. Let us not be ungrateful and unreasonable. The Great Thinker constantly instructed his disciples that not a single word should be pronounced without thought. -

Guard your health and repeat as a mantram: "joy will come". I often hear this affirmation from the Gr.T. and these words resound in my heart. The ardent repetition of such a mantram brings calmness and reestablishes our strength. You who write so beautifully of love, you will understand how I value those who know how to love. Thus, my dearest Amy, I send you all the fire of my heart. Joy will come.

P.S. Last July I sent to Frances the translation of "AUM", made by Mr. J. L. Gartner and it is already the second half of May and I have no single line from her, when she intends to return the translation in final literary form. The heart aches so much that the pearls of the Teachings are lying idle. We are happy for Inge that her health has been restored so quickly. Verily, she was saved by a miracle.

Just received a letter describing the new vandalism and the destruction of the R. Museum. We hope that now public opinion will raise its voice in defense of the unrepeatably cultural treasures. The panorama of Asia is unique.

20-AUG-1938

My dearest Amy,

We were deeply grieved to learn from K. about the illness of your husband and all the worries, which you at present are going through. It is fortunate that you could recuperate at White Sulphur. In this I see the care of the Gr.T. for you.

I have always heard that diabetes is not so dangerous for the middle aged and cases of complete recovery are not rare. My mother suffered from acute diabetes and went to Germany to take a cure - the physician prescribed a diet, which consisted of sour cabbage in all its forms: salted, pickled, raw and boiled, - also a large quantity of oranges (but not tangerines) and she very quickly recovered. Perhaps your husband has a similar form of diabetes, which can also be cured by a proper diet.

Dearest Amy, your warm letter with your photo gave me greatest joy - it came when I was ill. All my centres were inflamed - I am just recuperating and therefore together with my tenderness, I am sending you some of my psychic energy. I am very fond of your photo and although Svetoslav pictured you very touchingly, I yet did not think that you look so lovable. I am looking at it now and it smiles so beautifully. I value greatly your devotion to the Gr.T. and your warm feelings to me and my family.

You ask what is the difference between a mantram and an affirmation. In essence - none. Because both must live in the heart and must resound in it exactly affirmingly, or better still with the knowledge of immutability. Without the fire and the rhythm of the heart both of them have no effect. Remember was Told in "Agni Yoga" about the rhythm of dead reiteration # 900. .401.

You write about a painful sensation in the solar plexus when what you love is insulted. This is most significant for the increased sensitivity of the nerve centres. During such a condition great caution is needed, one should not overtire oneself, should avoid colds and keep to a light die

Pains and tension of the solar plexus sometimes causes nausea and flow of saliva. Physicians are apt to see in these symptoms the presence of stomach ulcers but they are wrong. When cosmic currents change, all symptoms suddenly disappear and the stomach again digests the heaviest food. Sensitive organisms respond to all cosmic currents and to all fiendish arrows directly or indirectly aimed against everything connected with the work of the Gr.T. The sensitivity of the nerve centers, although painful, proves about our evolution. Humanity should proceed not along the line of coarseness, but along the line of refinement. Therefore take good care of yourself. Cosmic current will change but for the present one cannot expect too quick an improvement of them. The complexity of the condition of our planet is increasing. Fools and criminals are active in their destruction all over the planet. Therefore let us be patient and let us strengthen the silver thread which binds us to the Gr.T. At a time of the confusion of the world this thread must become a cable of anchorage.

Of course you know how difficult the defense of the case proceeds. The main cause is unfortunately the lack of unity amongst the co-workers. The second cause is the incapability of our lawyer Pl. and the third is the lack of funds. Your characteristic of one of the co-workers is very just, and you understand how exceedingly difficult it was to work with her from the very beginning. Again and again it has been indicated to prolong the case by all possible means and not permit it to be closed. New circumstances are approaching and therefore the dates should not be lost and it should be possible to resume the case immediately when needed. Much will change within the next two years. How to keep the case alive and open is the matter of the lawyers. It is quite impossible for us imagine that a court can base itself on paper evidence alone, when the plan of a premeditated conspiracy is obvious: the plan to lure all coworkers and their friends into traps and then to rob them all to the last. I cannot agree that the law of a country be based only upon dead rules. It is said in the teaching: "If we limit ourselves with dead stagnant laws, it is better to go to the cemetery". We are told that in the States every case is a special case - it would seem that this already precludes dead laws, yet we see the opposite: no one wants to consider the moral side of the case but they pass their judgment often even on the basis of forged papers, thus permitting the triumph of an ever growing gangsterism. The Gr.T. defined the treason of the trio

as equal to that of Judas, for did not the apostates betray the Plan of the Gr.Ts.

Now about the Stone Bible. Until the receipt of your letter by Svet., in which you asked him about the Stone Bible, I had never heard about its existence. But a few weeks ago we received a letter from Finland from some unknown to us person. He writes that in 1917 a book by Knut Holm got into his hands. In this book the author describes how under most mystic circumstances by supernatural ways there was sent to him a message - the Stone Bible. At the moment of its receipt he heard a voice, which ordered him to keep the book securely untold the time is ripe. Now this stone bible somehow got into possession of our correspondent. He sent us photographs of this Stone Bible from all sides. Its length is ten centimeters. Upon us the photo made the impression of an ordinary marble paper-weight. On it are clearly engraved two letters of the Russian alphabet: М. . According to our correspondent there are on this stone bible various symbolic designs which have to be deciphered. Of course one can visualize in the veins and designs of the stone many images. The imagination of the owner sees in them an elephant, a pilgrim, an old sage, a peacock, the head of a Mongol, Jewish letters and on the back of the book - the Golgotha crucifixion, an owl, etc. To our surprise the new owner of the Stone Bible claims that it has a connection with the Stone mentioned in the book "Agni Yoga" on the last page. By the way he says that Knut Holm in his books calls the Stone Bible - the Stone of Wisdom or the Philosophers' Stone. The books of the Swede Knut Holm about the Stone Bible at their time caused considerable interest. It is said that it will soon appear in English translation. We shall try to obtain this translation. But I must say that our correspondent, the present owner of the Stone Bible, to judge by his letters, seems to be not quite normal. Therefore I would like to know what a version about the Stone Bible you have heard in America. Our correspondent mentions that he has been in America and has there for the first time heard about the Stone Bible, but he gives no particulars. He tried hard to find it, and under "mystic circumstances" he received what he was looking for.

My letter becomes too long, I have to close. I shall send to K. those paragraphs of the first part of the Fiery World which I succeeded in getting from Frances. Of course as always a considerable part of the pages are missing - she has

apparently lost them. The second part of the "Fiery World" had also been translated by us here, and was then handed over to her by Prof. Roerich, but she cannot find the Aum she has not yet completed despite the fact that the entire translation was sent to her in July 1937. When you will have time you can by and by copy the "Fiery World" for yourself and you close friends. Let K. keep the original. Of course you can also to your friends "Infinity" and "Aum". At present I much worried about K's health - ~~My~~ heart longs to give peace and joy to all those who are close to us. All should guard their health, but for this one needs to have full harmony amongst the surrounding coworkers - but just this is so difficult to obtain.

Dearest Amy, from the time of the receipt of K's letters about your worries, I constantly keep you in my heart's consciousness. You, K. and our Sina form a triangle which is closely linked with our hearts. Of course there are other fine souls and friends, but I have in mind the close karmic bond. I send to you and K. all my love - always remember, if there is sorrow to-day - tomorrow joy will come.

18-NOV-1938

My beloved Amy,

We were so sorry to hear about the accident to your mother and her passing. It must have been a hard blow to you. I hope that you did not overstrain yourself. Please take good care of yourself, many are and will be in need of your soothing and cheering spirit.

I was glad to learn from our dear Katherine's letter that she plans an automobile trip with you and Inge - there is nothing as refreshing as travelling. Besides your two lovable companions will help you to regain your cheerfulness. The times are so serious and the recent events in Europe have cast their gloomy shadow over many countries. Every disciple should endeavour to keep his courage in both his hands and should remember that the difficult period will pass. Under the Shield of the Gr.T. we are safe.

My heart aches at present that amidst our closest co-workers unity had not been attained, even on the contrary. Of course this impedes not only the general success, but also the personal success of each one separately. But even this last consideration is least understood. I would so much like that between Katherine and Sina the best feelings should prevail. Dearest Amy, please help me in this. Sinochka is a truly devoted guardian. She stands unwaveringly for the defense of N.K. And this is so valuable - devotion is the rarest quality. My favorite motto - devotion to the end. This formula N.K. and I will follow to the end of our days and we shall bear all the burden in the name of the Great Service. It has now become clear that the failure of the case is due chiefly to the disunity between the co-workers. We could not convince Frances and Major Stokes that Plaut is an incapable and therefore harmful attorney. Consequently one should have availed oneself of his repeated threats in moments of irritation, to give up the case, in order to change the lawyer. Also Milliken, the attorney indicated by the Gr.T. had advised to part with Plaut.

Let us hope that the new attorney in the tax case, will prove to be more able and resourceful. How sad it is to read in Sina's letter that the new attorney on reading the material on the tax case, stated that it would have been very easy from the very beginning to turn everything to our just favour, but Plaut missed the opportunity to utilise all the assets which he had.

Watching the present world events and considering all the prognostications and inferences of the leaders, we shall say again and again "man supposes, but God disposes". The world problems will be solved in a different way than our wiseacres surmise.

Dearest Amy, your photo stands on my table but to-day it smiles sadly. Do not worry too much. In due time joy will come. We all shall pass safely through these serious times. To know that the Teaching means so much to you gives me joy. Hardly a day passes that I do not thank our Gr.T. for this precious gift - there is not greater happiness than to realize the broadening of one's consciousness. It helps us to understand the inner meaning of all calamities that befell the world and not to become desperate and loose faith in humanity's salvation.

So far I have not heard any new details about the stone Bible from our correspondent in Finland. But of course your experience with the stone Bible is of quite a different nature. I shall try to get some explanation from T. ^{of the} vision you had.

Dearest Amy, I was under the impression that your birthday was on Dec.1st but now I see it was Oct.1st Please forgive this slip of memory and accept best thoughts and hearty kisses! If Katherine is with you, please embrace her on my behalf and tell her how appreciative we are of her vigilance and continuous help in the work. I am sending you all my love,

yours always

Hope your husband's health
is improving.

10
10-MAY-1939

Beloved Amy,

Much time has passed since I wrote you last. You have probably heard from Katherine that we all were ill with influenza, and even I was a month in bed. At present I still bring my backward correspondance into order, as well as other works. Wholeheartedly I thank you for trying to uphold an atmosphere of peace amidst our coworkers. In life one has to co-operate with different people and therefore it is necessary to develop tolerance. I know how difficult this is and therefore I am always glad to hear every kind word said in order to establish best relations between the near ones. Buddha used to say that the most difficult art is the art to create good relations between men. And precisely this art has been always neglected and is the more so in our present days. If people keep up outer cooperation it is only there, where a break would threaten them with material losses.

I love to hear your touching words and care about our dear Katherine. We all love her and constantly think of her and her nice boy. We would like so much to see her. Events in the world hasten and much may be radically changed. There may be departures and arrivals but it is better not to speak about this. Much should not be sent into space. Everything announced before the date, (too early) can be greatly hindered. Probably you have already the first part of the Fiery World. I started to check over the translation of the second part of this book, done by combined effort of our small community, but illness interfered. I still hope that it will be possible to publish the book "Aum". This is so important and the more so because the trio undoubtedly spreads the rumour that the Gr.T. ceased to give the Teaching through us and thus they try to justify their treason before those people who are ignorant of the truth or who cannot discern the "facts" presented to them. The Gr.T. wanted that this book should appear by 1937 and it is horrible to think that one person could stop its publication for three years. Sometimes when I think about it, it seems terrible what a karma these

apostates have prepared for themselves, Truly it would be better for them, not to have approached the Teaching. They cannot pretend not to know the law of cause and effect. Moreover enough has been said in every book about the hard fate of the apostates and traitors as well as about the benevolent significance of gratitude and faithfulness. And if the consequences of their treason are not clear to them now, then the worse for them, because the reverting blow of the bumerang - karma - is the harder, the stronger it had been thrown. The greater a treason is the later the consequences of it for the traitor become apparent. Karma will accumulate and will strike its crushing blow when the traitors and the people connected with them least of all expect it. And who can say for how many lives or reincarnations this retribution will be stretched for the traitors. The crucification of Christ, the repudiation of His Teaching which brought a great purification into the midst of the surrounding depravation had a terrible effect upon the traitors and upon those who shouted: "His blood be on us, and on our children". The repudiation of Buddha's Teaching and the persecution of the Buddhist reacted heavily upon the fate of India. The repudiation and blasphemy against the Given Teaching and the destruction of the Works founded by order of the Hierarchy of Light will also react upon the traitors in full commensurability with their deeds. But besides an earthly karma, there is a supernal karma, but no one even thinks about it. But there karma is still more implacable than on earth, due to still greater application of the law of affinity of elements.

You wrote me that your brother entered into the Art School. We would like to hear of his impressions, every information, every knowledge of facts is extremely useful. Beloved Amy, you are right, that your fine psychic energy helps your husband. Therefore you should take double care of your health. I asked dear Inge to transmit to you that you should try out the juice of sauerkraut, but sauerkraut can be used in all forms. Svetik says that in the U.S. there are great specialists dieticians - why not consult one of them regarding your own diet? The care for health should be outstanding, therefore we ask Katherine to take all measures of precaution regarding her health. The special currents are so difficult, being poisoned by human hatred.

I embrace you, my beloved Amy. Although I cannot write too

41

often, but in thoughts I am always talking to you and Katherine and often, very often, I send you waves of love and advice to keep strongly united and to strive in heart and thought to the Towers of Light. Joy is only in the communion with the Great Guardians of Humanity.

Prof. Roerich and Svetoslav are sending you their hearty greetings. I am always glad to receive your news,

with Love

MADE IN U.S.A.
DUPLOID

Reg Letter

26-SEP-1939

12
My beloved Amy,

I hope that you and all your dear ones are well.

Not knowing when this note will reach you, I am sending you my love and best wishes for your coming birthday.

I am constantly keeping you and Katherine in my mind.

The times are severe. The rhythm of karmic waves has coalesced with cosmic currents and the inavoidable took place. Let us be together united in spirit as never before and we shall outlive these sorrowful days. The year 1942 has been pointed out in all sacred writings as the year of the end of the black age, after which the world will begin to be built on new and more just principles. Of course the consequences of the black age will yet be felt after the mentioned date, but at the same time new and beneficial causes will be already laid. Thus speak the most ancient writings. I advise you to reread the "Fiery World," a copy of which I have sent to Katherine. She has probably also received the second part of "Leaves of M's G."

Our dear ones, our thoughts are with you. We hope that new regulations for correspondence will be soon well established, and that one will be able again to write longer letters and send manuscripts. At present printed matter sent by us to different countries, including America have been returned from Bombay.

My beloved Amy, keep strong and nothing evil will touch you and our dear ones.

I send you my love

19-1-46.

Dearest Amy,

I am happy to learn from you that the small misunderstanding between Lina and yourself had been settled. You write, dear Amy, that Lina's loyalty to the "J" and the work is so great, that one overlooks personal habits..... Yes, her loyalty is great and so full of self-sacrificing love that I can only admire her. Knowing all the difficulties she had to go through.

She has such a hard time to make things move in Area. She is practically alone to do all the work for Area and Agni Toga. Our dear Dudley is most of the time touring with his orchestra and can hardly help her. Besides Lina has enormous difficulties in getting new materials, literature etc. from Russian representatives - they are very irregular in their sendings.

Knowing your loving nature I am sure, dearest Amy, you will find kind and encouraging words when addressing Lina.

My heart aches when I think of Katherine and Inge, but I hope fervently that future has still some happy days for them in store for them - I have been told so by the Great J. I am sad that their trip to India seems to be unrealizable this spring due to difficulties of travelling, also things are becoming hot here.

The reconstruction of the World is not an easy task, especially
when people do not wish to realize that they begin from the
wrong end. Without friendliness, real cooperation and trust
nothing can be achieved. The World crumbles because of the
lack of loyalty to higher principles.

Our joy is that the Teachings continue and more and
more people become interested in them and find a new dig-
piness in the realization of the great New Era drawing
on humanity.

Thou dearest Amy let us love and trust each other
and above all let us be loyal to the gr. T. and his Work.

I am sending you my fondest love and will always
be glad to hear ^{from} more of your work —

with love
Thine — Helen Ror —

Swet. and his wife Devika Rani have spent three months in our
mountains but ^{for the moment} they are in Bombay. She is used to
a warm climate and our winter was too cold for her, besides she
wished to help Swet. in his work, who is arranging the ~~expectations~~
of ^{her and father's} ~~parings~~ — ~~her~~ marriage was a real surprise to all of us —
We ~~did not~~ ^{had} ~~not~~ ^{no} ~~feel~~ ^{any} ~~anything~~ ^{about} it till the whole thing had been
already ^{been} ~~decided~~ ^{decided} between them. She has amazingly ^{attractive} ~~well~~ ^{well}
relied and one can but love her and it is so lovely to have
one to make me happy to
look at them
