Your friend, I was happy indeed to get your two nice letters but I am sad that my English does not improve. I am still greatly handicapped in finding the right expressions but Katherine helps me.

You will be happy to know that our Katherine has improved in health. Our Khamalays are sending her new invigorating vibrations - she looks so beautiful, so young!

Just now the days are glorious, continuous sunshine. Our Kinchenjunga and the Tibetan Peak look enchantingly beautiful!

I am very happy to have Katherine with me. She gladdens my heart with her understanding and gives joy to my eyes.

I do not think it wise for Inge and Katherine to return home before the end of April. Inge needs a prolonged stay in her native climate and it seems to me that all of them would profit a great deal in staying longer in the mountains. We expect you to join them at the end of March. The best day for flying is the March 23. - I must thank you once more for the nice alarm-watch. I am happy to have it. I have a kind of weakness for watches, especially for the alarm watches -

We had news from Inge - she ~~seems to be~~ ^{is slowly improving,} but recently
had a fall which happily did not aggravate her trouble -
~~What a great relief to you~~ Now I am sending you the
Indications that I have gathered. I hope you will under-
stand my translation and check ~~them~~ the Indications
with the previous ones sent to you -

CONDITIONS ON WHICH DEFERRED FOREIGN TELEGRAMS ARE ACCEPTED.

1. This telegram shall be forwarded in accordance with the rules published in *Post and Telegraph Guide* and with the International Telegraph Regulations, which Regulations shall be deemed to be binding not only between the sender and the Director-General, but between the sender and any Telegraph Company or Government by whom this telegram is or would in the ordinary course of the telegraphic service be forwarded.

2. Neither the Director-General nor any Telegraph Company or Foreign Government by whom the telegram is or would in the ordinary course of the Telegraphic service, be forwarded, shall be liable to make compensation for any loss, injury or damage arising or resulting from non-transmission, or non-delivery of the telegram, or delay, or error, or omission in the transmission or delivery thereof, through whatever cause such non-transmission, non-delivery, delay, error or omission shall have occurred.

3. The rate is half that charged for ordinary Foreign telegrams subject to a minimum charge for five words per telegram.

4. Deferred Foreign telegrams are only transmitted after Foreign and Inland Private and ordinary Press telegram.

5. Any telegram containing numbers, names, or words without connected meaning and in general any telegram which does not in the opinion of the Telegraph Service bear upon the face of it an intelligible meaning is not admitted to the benefit of the reduced rate. Registered addresses are accepted in the text if it is clear from the contents that they are telegraphic addresses.

If number written in figures, commercial marks or abbreviated expressions are employed, the chargeable number of words to such group and expressions must not exceed one third of the number of chargeable words in the text including the signature. As an exception in deferred telegrams originating in or addressed to China the text may be expressed wholly by means of groups of four figures taken from the official telegraph dictionary of the Chinese Administration.

6. Deferred Foreign telegrams must be written wholly in plain language chosen from amongst the languages admitted in plain language. The supplementary instruction L.C., should be inserted before the address. This instruction is counted and charged for as one word.

7. The use of two or more languages in the same telegram is not allowed.

8. The wording of the address and signature of telegrams is governed by the rules in force for ordinary Foreign telegrams.

9. The sender must sign at the time of handing in a declaration to the effect that the text of the telegram is entirely in plain language and that it does not bear any meaning other than that which appears on the face of it, and must state the language used.

10. The Telegraph Administrations reserve the right to refuse, at the reduced rate, any telegram which, in their opinion, is not in accordance with the foregoing conditions.

NOTICE.

Complaints respecting this telegram and claims for *refund* involving complaints against the service should be made to the *Postmaster-General, Bengal and Assam Circle, Calcutta*, within six months of the date of the telegram. Claims for refund respecting this telegram which do not involve complaints against the service should be made to the Officer-in-charge of the Telegraph Check Office, Calcutta.

Dear Friend,

I got your two letters of May 16-27th

I am sad, very sad about the "unsatisfactory" operation. The only condition was not to touch the thyroid gland, but probably it could not be avoided, as you say - "namely, mistaken judgement caused a small piece of the gland to be removed".

Your first impulse not to speak about this unfortunate happening to Miss Spatz or Sina has been correct. I deplore that it has been divulged to her, as you write - "it was a devastating blow to her".

Do you think she is aware of all the possible consequences of this unfortunate removal? - I hope - not!

This removal is a great loss to her as now she will not be able to assimilate the different Rays sent to her. Thus her gift for clairaudience will be impaired even may be ^{lost} stopped altogether. Such a loss cannot be compensated by the gain of mere physical strength. Besides, with a little more patience the tumor could gradually dissolve under the Rays.

The refinement of the physical organism and the subtle bodies is achieved only through the assimilation of special and different Rays, and it is precisely the glands which are the mediators or intermediaries for such assimilations.

2 2

The operation of the gland changes its whole structure and opens the way to the Death-Ray. Of course sometimes it is necessary to remove a part of the gland, but to remove an entire gland is crass ignorance!

With the removal of ^{single} one gland the activity of the Death-Ray sets in. "The greatest attention caution and care should be given to the glands." This Advice, dear friend is given to you, and you will easily understand this. In Our Teaching so much is spoken of glands, nerve-system and psychic energy! — They are so closely interwoven!

Now about the anal ulcer — it can be treated by an injection of a small syringe with a solution of potassium manganate and a pinch of table salt in it. Two, three crystals in a tumbler of water, the colour must be pink but not too pale. Miss Spaly could have these syringes daily before going to sleep and trying to keep ~~inside~~ the injection inside for at least 15 min. I shall always be glad to have news about this brave and noble soul.

About our friend Boll. — The diagnosis of coronary thrombosis is said to be wrong, no traces of it whatsoever — There is no real heart disease but the heart is not only tired but overstrained therefore our friend requires a full complete and prolonged rest. All kinds of "tests" are extremely dangerous and have already weakened him greatly.

Coramine 15 gr. ~~twice~~ twice a day and more is good, but of course

Strophantus is better. The gr. J. says he needs Strophantus in the organism of Mr. B. Advice has been given to change the climate to go to Sweden, being the best climate for him; The best time for sailing after the middle of June. Mr. B. will have to take two pills of dr. Cottell's Strophantus. One can get them in America, one pill in the morning and one at night ~~and to be continued~~ ^{at least} this regiment ^{at least} during the whole trip.

Our gr. J.'s wish is that you, dear friend should meet and speak to our friend, in behalf of this I wrote to Sina asking her to arrange this interview without delay.

Also I asked Sina to translate to you my letter to her of 4-17-
Yes, dear friend, you may achieve much if you persevere in striving and devotion to our gr. J. It is devotion that crowns all our endeavours at the end! - A great Devotion is like a powerful magnet nothing can resist it. -

Now for your information - the "clot" that the doctors have finally detected "in one of the smaller subsidiary vessels near the heart" - is not a "clot" but an insignificant thickening of a small vessel - it presents no danger.

Tell him that he will not lose his activity, - or his strength and abilities -

Many many thanks for all your kind remembrances and sendings - I do not feel so well - The assimilation of different cosmic rays is the most difficult and strenuous work ^{being} on the physical plan. Heat, complicates many things. We have already 84° in my room - Our Inge is improving definitely, she is on the Jovic path - her solar pleasure has been ascertained -

Dear Dr. ~~James~~

Thank you for your little note and news about our friend Walt. I am happy he is going to Switzerland. The change of climate will restore him completely. He has been ^{affected} poisoned by the sur-
~~plus~~ ^{plus} of radioactivity in certain places of U.S. ^{President's}
Nowadays one should have measuring instruments to check this surplus in the atmosphere - It may en-
crease. ~~Attention~~ ^{Attention} should be paid to this real ^{danger} ~~danger~~
^{as many other states} Michigan is safe but the the entire Coast from
Los Angeles California and down has already
this poison in the atmosphere. ^{rather lengthy}
I hope our friend will ~~stay~~ ^{stay} here ^{of prolonged} ~~of prolonged~~
in Switz.

How about you. - I would advise you not to con-
tact ~~to discuss~~ with your ^{and} friend Mr. Cohen
You should avoid to ^{gain certain} get the reputation of a spiri-
tualistic ~~trick~~ ^{trick} - Your way is different.
You should become known ~~and~~ famous ~~due~~ ^{due} to your
new psychological approach to your patients. You
should show ~~show~~ interest in their mental state
~~of their life~~ - in their own's life
Also you are advised to pay attention to the S.P.P.

You can detect many ~~strange~~ unusual symptoms. ~~But~~ Strong pains, nose-bleeds, vomiting spells of saliva, dizziness are very characteristic ^{the} ~~during~~ ~~during~~ the opening of the Solar Plexus. Of course you already know that bicarbonate soda is the only remedy. It can be taken three - four times per day during pains. The dose is half a small tea spoon in water - light diet is essential - milk-porridge, chicken soup. - But ~~no~~ ~~medicines~~ whatsoever ~~that~~ all of them are very dangerous ^{during} the process of the opening of the Sol. Plexus. Paying attention to the Sol. Pl. you may gather many interesting observations but please do not prescribe any ~~medicines~~ ^{all of them} they have a very bad effect on our organisms at ~~the~~ present time - except our old friend Valerian, Ase and tincture of g - This tincture is ^{stronger} than ~~that~~ ~~of~~ g. - ~~It~~ ^{It} must be infused in alcohol (45%) ^{no less than} for seven days. It must be kept in a warm place ~~exposed~~ ~~to~~ ~~the~~ ~~sun~~ ~~rays~~ - the dose is 10 drops ~~or more than~~. This tincture is very good against many heart diseases especially from nervous shocks. Even the atrocious pains of herpes and cancer can be

eliminated, but of course the dose must be ~~strong~~
~~you~~ twice as strong. It does not cure can-
 cer, but it can stop ^{check} its growth and give relief
 from pains, but they will return after a certain
 time - It cannot be taken constantly as it
 will cease to help.

I hope you are in good health ~~and~~ ~~that~~ ~~you~~
 be ^{pleased} to hear your news -
 I wish you all the joy of heart ~~and~~
 How many happy days in the coming
 new year

Yours sincerely
 J. D.
