Madam H. Roerich,
c/o Sri Sri Yoga Sety
New York.

Dear Madam,

I wish to express to you pure gratitude for having made possible all the wonderful Teachings in the Sri Sri Yoga series of Slokas. By putting what I can of them into practice I feel that they have brought me closer to the Master. I think (if I'm not mistaken), that at high moments my consciousness blends either with that of his Ashram or with some of his Disciples. -

With all my heart, I seek to become a Disciple (accepted) of He who so generously gave the Teachings and would gladly go through hell if on the other side I could find Him.

Could you advise me how to approach closer? What must I do to join his Ashram - even tho' I'm miles & miles away physically?

In "Hierarchy", Sloka 90 advice

P.S. needless perhaps to add if there is any thing
that I can do for the Society over here I'm
200% anxious to do it.

is given about visualizing an Image
of the Teacher? Where may I obtain
so precious an object? Have you a
photo or portrait of the Master that
you could lend or give me? Pardon
my request — but how else may I do.

Years ago — before I heard or
knew of your good husband — I saw
him in meditation in vivid clearness.
Later someone showed me a picture of
him & I instantly recognized him
as identical to he whom I saw in
the vision. I do not know whether
he is my Master or The Disciple of
the Master. — At the time he symbolically
pointed out to me what it was that
hampered my entering the Ashram.
Ever since I've been trying to rid
myself of the hindrances. By
certain "signs" I think I have
partially succeeded.

This sort of letter may sound
foolish. However it is sincere — and
written in the greatest solemnity & earnestness.

Yours truly
A. P. Nelson Page
