HOTEL LA TREMOILLE

CHAMPS ELYSÉES

PARIS

Téleg. TREMOILLERT-PARIS

MÊME MAISON
HOTEL VICTORIA
MONTE-CARLO

Podkhar Mas mamorka !

Already three days in
the turmoil of Paris. There is
so much to tell you, that
I really don't know with
what to begin. We had several
meetings with our French friends
and a branch-committee of
Friends of the Museum was
established to serve as a central
committee for the whole of Europe.
Father will write to you in

as an Orientalist was finished. Many people believed him, but many preferred to await my coming. Bacot was very much interested in the results of our Expedition. He told me that there was very little interest for Tibet in France, and that for several years he had no pupils. The same with Rolliot. He complained that life in Paris made scientific work impossible, and I feel strongly the futility of all this hustle. I planned with Gauthier to have a French edition of my book on the Expedition. I learned several interesting

20.05

facts about the new Oriental
Institute in Harvard. They have
some \$ 12.000.000 of capital,
but have no men to work
and look after the Institute.
Relliot refused to be director
and Baron Stael of Holstein
is only visiting it every year
from Berlin. Perhaps a connection
is possible with our station.
We visited Princess Chervinsky
and Lidine. They are very kind
and friendly people, wholly concen-
trated on the departed Princess.
We sent you the twelve copy
books, and I forwarded them
thru Gentner. The Biography of Rudra
by Agastya exists only in German
and I sent you the copy of it.
The book which you had heard
Mātāyāna - gradella - utpāda which

230
details. Also about the
Botozei family, whom he went
to see. Georges is trying really
hard to be helpful, and is
very sincere in his striving. He
has some nice ideas about the
work in Paris. He just published
an important book on Inter-
national Law, which was very
well received.

I visited Decot who was extre-
mely friendly. He is a real gentleman
and was very much interested
in Shembela and connected
doctrines. He told me that Hackin,
Belliot and Elzevier were very
much surprised by the Manuscript
story, and that Hackin used
to tell round that my career

is ordered for you. I sent ³¹ you several new books by Krivonozhka, and one book by Vs. Solovyov ~~by~~ on Kaghoshu, also several books for our girls. I shall ~~try~~ ^{try} to get some more text-books for them. Please tell Shibaev that his letter has been sent registered thru the Bankers Trust, but that the ~~bank~~ registration receipt is always kept by the bank. We were sorry to hear about the locusts. Starovski visited us. He is very enthusiastic about Rulu and plans to come there. He is extremely friendly. We hear from New York about big receptions in store for us.

21
but have no idea what they
shall be like. The Stupa has
been taken down, and I feel
very sorry for it.

Please write me sometimes.
I am very eager to know all
details of your life.

On coming to New York I shall
write you about my impressions
there.

It is 2 a.m. and I shall
close the letter.

With all best wishes and
much love to you all,

I have ordered Your Son,
one Toledo and
suit (brown) from
Larson.

gR.

24
New York.
June 19th, 1929.

Podkani Mos Mamorka!

After a quiet a surprisingly cool crossing we reached New York, where we were met by all our friends and the Mayor's Committee. We were meted in special cars decorated with flags all round the city, preceded by a police patrol on motor-cycles to clear the way. Sirius blew and we drove thru Fifth Avenue at 30 miles per hour. We went first to the Master Building, which looks indeed very imposing. It is quite a landmark on Riverside Drive. We found everyone joyous and full of energy. Mr & Mrs Knott's are very sweet, and we have two fine rooms in their flat on West End Ave. We did not yet see Oriole and Flavius but hope to do so in a day or two. Radne and Aris. are full of energy

2205

and Miss Grant returned on the 18th
from S. America.
we have a terribly busy time, and
it is now about 2 a.m. and you will
forgive me my bad hand writing and
style.

I had a luncheon with Mr. Charles
Crane to-day. The old man is very
friendly and looks well. He accepts
advisorschip to our station.

There was a big reception to-day in
honour of Professor Roerich. Some
400 people attended. We sent you
the list of the Committee on which
you will find several fine names.
The function took place in the new
building. It was a very successful
affair, and everyone was extremely
friendly. There will be another function
to-morrow, a luncheon somewhere and
a reception at the Town Hall by the
Lord Mayor.

On Sunday we are going to Washington.

to interview important people
and the President. We shall
stay there a couple of days. I plan
to visit Harvard and Boston in
a week or so.

I sent you to-day four books by
Sir Jagadish Bose and several by
Krijanovskaya. Hope you will get them
alright. The books by Bose were found
among the books of the Master Institute.
I shall write to you in details in
a few days. New York is dynamic
but the atmosphere is a thousand times
better than in Paris.

The city has changed a great deal and
there are many true beauty spots.
I am glad to tell you that the Station
has fine prospects and people are
very enthusiastic about it—We hope
to do some real constructive work.

2505
Please send ~~you~~^{us} some photos of Ruler
and The Hall Estate. I am very anxious
to learn more about your work and
life in the Valley. How is O.? Did she
recover from the fly-bite? I transmitted
the watch to Mrs Horch. Please tell
Stebaniv and the girls that I handed
over their letters to Horch and Mrs
Lichtmann, and all of them thank
for the kind thoughts expressed in
the letters.

With much love and best wishes
to you all,

Your Son,

George R.

26
New York,

June 26th, 1929.

Dearest Mother,

We were happy to receive your cable and learn that all is well in Kulu. Please write us about your life. How is your health? Are you suffering from heat? How is Oyana? I hope that the fly bite had no serious effects.

We are living here thru great days. On the 24th of June Father and myself were received by the President. A remarkable personality. He was very much interested in the results of our Expedition and consented to accept one of Father's paintings.

We sent you a photo of the Mayor's Reception in the Town Hall of New York. Hope you received it. The Building will be ready for occupancy in the first week of August. We took an apartment on the 22nd floor. Father has two rooms, brother three and I one. I shall get for myself a day bed, so as to be able to use the room as a sitting room in the day.

2405

The rooms are a little too small but plenty of light. You will be interested to learn that Talbot Mundi, the famous British writer has taken an apartment in our Building. Already 50 % are rented.

I am going to Boston on Friday, June 28th, and shall stay there for three or four days. Lanman is still alive, and is passing thru a second youth. On Thursday next there will be a reception in honor of Professor Roerich at Ch. Crane, who was President of the big Reception at the Master Building.

New York is terribly hot. Something like Calcutta. We had a nice letter from Consul Frazer. A letter will be sent from here to the Consulate. Please write me if you need anything. I was at Brentanos, and found the same situation as five years before. Brother Svetik is in France, where he is staying with his friends in the south of France. We hope to see him soon in New York.

With all best wishes and much love to you all,

Your son,

George R.

*I am gradually
gathering back my
books but it takes
an awful long time.*

Please send us some clippings from the Anglo-Indian
Press. I am joining now the Tibetan Library in the
Master Building.

New York City,

July 10th, 1929.

Dearest Mother,

We received to-day your telegram about the severe
heart attack, and felt very sad about it. We rejoice that you
feel better by now, and that you have cooler days in Kulu.

Please write us about your life and all your needs. Brother
writes from Paris that he has almost completed with all your
orders. Do you need books on Buddhism? Did you receive all
the books which I have sent you from New York? I sent you
recently a copy of Remisov's Zvenigorod. I remember you were
telling me, that I should send a copy of it.

We are terribly busy. Father is reorganizing
the Institutions and we hope for a very successful year.
Zina is very active and a most precious coworker. So far she
was the organizing force in the Institutions. The new French
Committee has great possibilities. A London Committee will be
soon established with some very important people on it. You
know that the Roerich Museum becomes the central institution,
and all the others its branches.

I just finished writing a programme for the scien-
tific Institute, and on Wednesday next we shall go with Father to

see a very important and wealthy man. He called on Father recently, and seems deeply interested in research work.

I am trying to arrange something with Feakins. Many things were badly managed, and as a result of which almost all has to be done anew. I don't mind work, provided the lectures meet with substantial financial success. Besides the lecture tour I am negotiating a possibility of a course on Oriental subjects to be delivered at some of the bigger universities of the Eastern States. If everything comes out well, I shall be pretty busy this coming winter. My book is progressing nicely, and I am already planning future volumes.

Please write us about the results of the survey for the electric power station. How is the orchard? Are you selling much fruit? I hope, the paper-fishes are not doing too much damage among my books, and that Ludmila sprays them with Fleet.

Please give my best wishes to Captain Banon. I am sending all my best thoughts to you all in the Hall Estate. I hope soon to receive a letter from Voldemar in Hindustani.

I am going to New Haven on July 12th to establish connections. With love and devotion,

Your son,

George R.

A

New York City,

August 5th, 1929.

Dearest Mother,

From our telegrams you already know that we are doing our best to overcome the difficulty. The State Department promised assistance, and we hope to hear from them soon. I am confident in ultimate success. I spent four days in Washington, staying with Robert Pell, who is a devoted friend. Made some important connections. The National Geographic Magazine offered me to write an article for a fee of \$ 500/-. Not bad. They also are interested in a lecture to be given next fall. The lecture tour is picking up nicely, and it seems that I shall have quite a busy time. The Oxford Press will probably undertake the printing of my book. I am trying my best to finish the manuscript by the end of this month. Unfortunately I have to be a great deal away

visiting people, and making connections for the Institutions and myself. I shall probably be writing regular articles for magazines and newspapers. This may bring a nice income. I have indications that the coming winter will be a very successful one. I am very fortunate with my friends, who all are eager to assist, and do their best in making useful connections. August 15th, the Institutions will begin to move into the M.B. On August 1st we lit the top of the Building; at night it looks very imposing - a huge dark mass with a lighted crown. We were so happy to receive your dear snapshots. Please send us some more of you all. Did you receive Asvaghosha's Life of Buddha, and all the other books? I have sent some easy books for the girls. Please ask Voldemar the reason for his silence. I wrote him a letter from Paris and New York, but so far had no answer. Did O. receive my letter? I wrote to Captain Banon, hope he is the same friendly man. We had letters from Brother. He will be coming at the beginning of September. He is now staying with Georges and his friends in Switzerland. I don't hurry

him to return, for I know that the mountain climate will do him a lot of good.

Father is very busy, but keeps well, and we all see, that he should not stay late at night. Business closes by eleven p.m.

Oriole feels much better. She is a little too nervous and needs a quiet atmosphere. I did not see the children for quite a long period, for the days are crowded with work.

Eastman is doing the shelves for the Tibetan Library, and I hope that we shall manage to have them well made. You have probably a very anxious time, and we feel very bad, that such a thing should have happened. How is Mr. Phailbus? I remember him saying, that there were no legal objections. If necessary, we shall take strong actions. I hope all that happened, did not affect your heart. I am sorry that you should have all these difficulties.

2805

Please write me about your needs. Do you
need fresh seeds for the vegetable garden ?
Books on Buddhism ? Text -books for the girls ?
Medecines? ~~Winters outfit and accessories/~~.
I shall be only too glad to attend to all your
needs.

How is the monsoon? Is it getting cooler in Kulu ?
The heat in New York , just the same. Washington
had 102-4 F/

We saw Colonel FM. Bailey and his wife. Father gave
them a picture. They are sailing on the Perengaria
on the 7th of August.

Please give my best regards to all on the Estate.
With much love and devotion to you all,

Your son,

George Roerich

310, Riverside,
New York City.

July 24th, 1929.

Dearest Mother,

We have received your letters with enclosed copies of letters from Mandi. We were very much surprised. In case our action from here will be necessary, please let us know.

We are working hard, and try to pave the way for all the activities in the coming fall. Father is very active, but feels well. I have asked Miss Fr. Grant to send you copies of all the clippings. Some are quite amusing. We have just returned from a brief stay in Woodshole with the Cranes. The whole family is very friendly. Mrs. Crane looks well, but has to keep in bed, as a result of a recent fall - she bruised her leg. She sends you all her best wishes. John is getting married to an Italian girl. We saw Colonel & Mrs Bailey, and had a very friendly talk. I am going to dine with them this evening. Next week they are coming to see Father's paintings of Tibet.

I saw my old friend Malcolm Vaughan. He is extremely friendly, and I quite understand what was the difficulty with him. He has a great admiration for Father.

Just finished three articles for the Christian Science Monitor. They pay \$ 40/- for each article. Not bad.

2605

713

My book is doing well. I am conducting negotiations with publishers. The Oxford University Press was very interested and I shall have soon a meeting with one of their editors.

Much time is lost in meeting different kind of people, but everyone says this is the road to success. I quite see, that there is a certain amount of truth in this, but at the same time I lost the habit of social life. In a few days we shall again visit Washington, and I shall spend several days with Pell.

Our dear Brother is in Switzerland with his friends and Dr. Georges G. Chklaver.

Peakins is rather slow with lectures, and I do not know how everything will turn out in this direction. Mistakes were done in the beginning.

So far I remember, Nathu has been paid for coolies in Kulu and Pathankote. In Bombay he received his pay, ticket, and food expences. Please ask him to present a detailed bill of all his expences.

I was glad to hear that my books are well looked for. Please ask the girls to put some oil on my carpentry implements. Please write me about your life and the estate affairs. How is the fruit season? Is Voldemar supervising works on the Estate? Do you need seeds? How is the heat, and the rains? I was very much interested in the story of Capt. Banon about the sadhu. With much love and greetings to all of you,

Your son, *George Roerich*

712
710
New York City,

August 14th, 1929.

Dearest Mother,

This week we had no letters from you and Esther.

I have received the book on Kundalini Yoga, for which I send my best thanks. I always keep in mind the possibility of a fruitful research in this field. I am busily organizing our scientific plans for the future, and already made some important connections. It looks, as if we shall have a fair amount of success. I hate to speak about things before they had taken shape, but the future possibilities look promising.

The Master Building is nearing completion, and is 65% rented. The Tibetan Library for the Kanjur and Tanjur will be ready in a few days; to-morrow we begin painting it. Eastman is doing the job under my supervision.

The State Department has notified us that they have instructed the United States Consul-General to make an official inquiry for the reason of the refusal to give sanction. We also applied to the British Embassy, and they promised to inquire and let us know. We had a very friendly letter from Mr. Frazer, and Father wrote him about the difficulty with the registration.

Father looks well and has enlisted quite a number of new coworkers.

Handwritten notes at bottom:
The registration of the Tibetan Library is now in progress. The British Embassy has been notified. The State Department has been notified. The Master Building is now 65% rented. The Tibetan Library for the Kanjur and Tanjur will be ready in a few days. To-morrow we begin painting it. Eastman is doing the job under my supervision. Father looks well and has enlisted quite a number of new coworkers.

29.8

Vaughan told me that many people realize the significance of Father's work. The Museum is now a National Institution and a distinct monument in the Metropolis of America.

I hope to finish the manuscript of my book on the Expedition by the end of next week. I could do it much quicker but there is always some other kind of work to do.

Please write us about your health and life. How is the heat? Is the fruit season successful? Voldemar has written me about horses and dogs. I am glad to hear that Barakmar proved a success. I hope the bears and leopards don't trouble you anymore. Please write me about your needs, and I shall be only too glad to do my best. Did you receive Asvaghosha's Bodhicaryavatara, which I sent you quite recently. I was very glad to hear that Ludmila and Raya take good care of my books. So far I was unable to find my books here. All say, they are in the Storage. I hope to get them back in a couple of weeks and shall send you then Ignatiev's Astronomy and some of my old text-books for the girls.

I enclose an unique portrait of a friend by Brother Svetik. You will certainly appreciate it. The man did not change a bit. We hope to have Svetik soon with us. He is trying very hard to get accomodations.

With all best love and devotion to you all,

Your son,

George R.

PS. Did Esther receive my letter?

The negatives of your photos were finally found yesterday after a most vexing weeks of search. No one is to blame, except "files".

719

I look forward to the day of my return
to Nagas!

New York City,

72

August 26th, 1929.

Dearest Mother,

We were very happy to receive Sister Esther's letter and learn that you feel a little better now. We hope that the severe heat wave has definitely come to an end, and that you will have several weeks of cool monsoon weather. Please write us about your life, and the affairs on the Estate.

Brother is arriving on Thursday, and we shall be so glad to have him with us. We badly need him for the Museum. The Master Institute has moved into the new Building to-day, and the rest of the Institutions will move in the next two weeks. Tenants are beginning to occupy the apartment floors, and Hall is doing some fine work with the renting. We are now over 73% rented! People say, it is an unprecedented case.

"Urusvatî" has fine possibilities, and I shall try to do my best in getting funds. Dr. B. E. Read, of the Rockefeller Foundation in Peking, has joined our Board of Honorary Advisors. He promised to assist our venture, and to send for our Library all books and pamphlets published by the Medical College in Peking. He, himself is doing fine work in the field of Chinese Medicinal Plants, and his expert advice will be invaluable to us. By the end of next week I shall have my office ready in the Building and shall begin real work.

My book is almost finished, and the manuscript is now ^{being} copied. I hope to give it soon to the Publisher. The National Geographic Society in Washington offered me to

*Pradna is doing splendid work
in the district.
Greetings to Captain H. Benson.
Your son,
Georg R.*

deliver a lecture at the Society. They pay good fee.
On completion of my book, I shall try to write some arti-
cles for different magazines to earn some money. The
expences are heavy, although I am trying very hard to keep
them down. It is difficult to get an extraordinary engagement
in my line of work. All the engagements so far offered,
were permanent, and I had to refuse so far.
I have spent several days at Cranes. All the family is very
friendly, and Mrs Crane has a very friendly feeling towards
you. Under separate cover, I am sending you her letter, and
a small book on the Life of Christ, which she asked me to
forward to you. She became Roman Catholic.
To-day we went with Father to Grebenstchikov's Churaevka.
A very fine man he is! We spent quite a wonderful day with him.
His wife is a trally fine soul, and very spiritual.
He is sending some of his own books for the Library of "Urusvati"
He told, he was very happy to do so, and added; let Ludmila
and Raya read them! " Please ask Voldemar to write me, if
you have received all the books sent by me.
I was glad to receive the photo of my horse, she is apparently
well looked for. Will Voldemar send me a photo of my room?
Also one good photo of the big house.
Many new people are coming nearer, but very few of the younger
generation. A lady tenant offered us to provide an aeroplane
on October 17th to drop flowers on the Master Building.
On the day of the reopening we shall have quite an interesting
musical programm, and expect to have tremendous crowds.
With much love and best thoughts to you all,

73
310, Riverside Drive.

New York City.

September 4th, 1929.

Dearest Mother,

Svetik arrived on Thursday last, and we all rejoiced at having him with us again. He looks much better, and his lengthy stay in Switzerland did him a lot of good. He is now temporarily living at the Ritz Tower. We hope to be able to move into our apartments about September 15th. Father and Brother will live on the 23rd floor, and I on the top floor. The tenants are already moving in, and we have daily fifteen to twenty families bringing in their furniture and household things. The rush is terrible. The Hotel seems to be a very great success. The ground floor has beautiful stained glass windows. Pupils are beginning to enrol in the Master Institute. Corona Mundi is also beginning its activities. "Urusvati" has a separate office of its own on the School Floor. We have just returned from Washington. The State Department has sent another telegram to Consul Frazer, and we hope that the matter will be cleared up. I had a very interesting interview with the Carnegie Institution and I think we may hope for a fruitful cooperation. They offered to upbuild our Library, and cooperate in other scientific activities. I was offered to contribute an article for the National Geographic for \$ 500/- and a lecture at the same Society for \$ 300/-. Not bad! The Lecture tour is beginning to assume shape, and I have several possibilities to place articles.

3408

Now I am terribly busy copying my book for the Publisher.

I have a stenographer working on it, but even then the
takes
copying an awful long time.

For the past four days we had a terrible heat in New York .
the Mercury went up to 94 and 95, and the papers say that
hot days will continue for a while.

We were very glad to receive Voldemar's letter with the en-
closed plan and particulars on the Electric Power Installation.
We also appreciated the two snapshots of the Kulu apples.

Please send us some more snapshots of your life and of you all,
if possible. Asvaghosha's Boddhicaryavatara (Sacred Books of
the East) has been sent to you long ago, and I hope that you
have received it by now. Please write me about all your needs,
am always glad to attend to them.

I was happy to hear that the girls take good care of my books
and fight the paper-fishes. Did Esther receive my letter ?
How is Captain Banon ? I hope that the laundry proved a
success. How is the heat ? Did you get plenty of rain ? Do
you need seeds for the vegetable garden?

With best wishes and much love to you all,

Your devoted son,

George R.

719

New York,

September 12th, 1929.

Dearest Mother,

Your letter gave us great joy. Everyone made a copy of it, and your beautiful thoughts about the cosmic significance of Buddha's teaching opened new vistas of understanding.

I always felt, there was something greater in the notion of Tanha, than usually admitted by Western students of the doctrine.

I pray, that I may return sooner to Kulu, and continue true scientific work in the solitude of the mountains. This coming year in New York will be a great test of endurance, and ability.

The lecture tour is beginning to develop nicely and for the past few days "eakins began to be active. I shall probably also give a course of ten lectures on Oriental Art at the Master Institute, and have already several pupils enrolled for the course.

The Research Institute is organizing its office, and we plan to start our activities in about two weeks. For the present we have no doors in the office and the walls are not quite finished.

We are moving into the Building on Monday, Sept. 16th. Father will probably spend several days with brother at the Ritz Tower, and I shall move to my apartment on Monday.

325

Svetik invited me for luncheon with Katherine. She seems very much devoted to him. Father will probably meet her in a couple of days.

We had a terrible heat in New York, and now have a spell of cool rainy days. We were overjoyed to hear, that you had 60° F in Kulu.

I have sent you the Old and New Testament in English, and Paul Carus' Gospel of Buddha. Esther writes about Parables of Buddha, but according to the recent catalogue such book does not exist. Please write me, where the book was published?

I hope, you have received Asvaghosha's Bodhicaryavatara.

I was glad to hear that the girls liked the books, shall send them some more. Please tell Voldemar, that the World's Almanac has been sent long ago by registered package. Did you receive the photo of the Mayor's Reception, and the clippings, according to my knowledge everything was sent to you. I shall mail you another copy of the photo, and ask Miss Grant to send you clippings.

I am studying the Report of Voldemar about the orchard. A letter has been sent to the Chief Minister, stating that we shall let him know on completing our inquiry.

Please give my best regards to everyone on the Estate. Did Esther receive my several letters, to which I had no answer so far. Please give my best thanks to the girls for keeping my books and other things in good order.

With all best wishes and much love to you all,

Your devoted son,

George R.

*I am writing Esther a separate
letter.*

15

New York,

September 21st, 1929.

Dearest Mother,

We were happy to receive letters from Esther, and Voldemar. I hope the pain has left you, and that you enjoy a pleasant autumn in Kulu. We often speak of you all, and plan things for the future. Esther has asked me to write something about our personal life in New York. Professor Roerich and brother are temporarily living at the Ritz Tower, while their apartment is being fixed. Professor Roerich and Svetik will occupy the entire 25th floor. I had to go down, and am now living on the 20th floor. We are all busily engaged in organizing the Institutions. For the past days I had to give much time and thought to the Tibetan Library and the Tibetan Exhibition, which has to open on October, 17th. The Library will be completed next week. We were obliged to change the wall-paper in the Museum, which was very unsatisfactory. We will now have Japanese paper. The same thing had to be done in the Hotel Lobby.

83005

The Hotel is over 80 % filled. Yesterday the first baby was born in the house. 80 % give an income of about \$ 330,000.

My first lecture will be on October 24th at a University Club. We had a nice letter from the Prime Minister Mr. Macdonald. I shall send you a photostatic copy of it. So far we had no news from Mr. Frazer.

The Research Institute is progressing nicely. The Carnegie Foundation has agreed to send us books for our Research Library. We shall establish close scientific cooperation.

I have received from the Storage a case of books belonging to you, and shall send you a list of them. Please write to me which books you would like me to send to Kulu.

Among them I found the Complete works of Swami Vivekananda

My own books are still somewhere, but I hope to get them back. Among my books in Kulu you will find Burlingame's Buddhist legends, 3 vols. I believe you will find in them the legends, in which you are interested.

Please tell Voldemar, that I am attending to his needs.

I was glad to hear, the girls are enjoying the books. I hope they are doing good progress in their studies.

With much love to you all,

Your son, J.R.

New York.

16

September 28th 1929

Родной мой пацук!

Получили Ваши письма от
31^{го} Августа, и радовались узнать о
Вашей доброй работе и настроении.
За последние дни у нас много
произошло. Вы уже знаете из
нашей Телеграммы, что умерла Ойоле.
Девочка ушла тихо после приступа
астмы в 5.30 утра. Louis и
Nettie приняли этот удар с замораю-
щим мужеством духа. Во время
похорон, мама осталась с Nettie на
квартире, и после разговора с па-
пой, Nettie вышла как-бы перерожденная

3405

Mrs. Grant, которая пришла к ней, восклицала в удивлении: "I came to see sadness, but found happiness!"
Триумф победы духа!

Сейчас переживаем кипучее и
стремительное время. Hotel функцио-
нирует уже почти неделю. В
Музее принятое решение "Буриан",
на Japanese paper. Сегодня картина
вешается картина. Все New York
говорит о Rocker Museum, и
какая-то приходит люди. Вера
приходит репортёр Mrs. Rockefeller.
Они интересуются устройством
и предначинать счастливое свидание.
Подходит крупная возможность
Италийского культурного центра.
Говорят, что сам Муссолини "is

in favor of it."

Работы много. Конечно, много работы для
Тибетской выставки, которая также открыва-
ется 17^{го} окт. Тибетская библиотека
также заканчивается. "Урсувати" на-
писаны поучения в дар книги для библио-
теки. Скоро их переселение Вам.
У Радки среди ее книг имеется
английский перевод книги Талавей-
ской "Ум и добрей Индостана".
Она утверждает, что у нас имеется
также русский текст этой книги,
которую она обещала переслать
тебе. Мне помнится, ты интере-
совался этой книгой.

В отдележном пакете, посылаю

Asvaghosha's Awakening of Faith,
 список твоих книг, оставленных Радной
 и в настоящее время находящейся у
 меня, а также нашу старую Куликар-
 ную книгу. Пусть Аллахия Вам
 это либо приотвечит.

Радована вышаме, в Вашем
 "зоологическом" саду. Маленький Юрик
 ушел, и оставил лошадок, собак,
 цыплят и прочие дельные игрушки.
 Попрошу Серг. Ваню начать собиране
 орбаний мексиканских растений,
 обозначив каждое растение его туземным
 названием, тибетским и индустальным.
 Это будет началом коллекции.

Крепко Вас всех обнимаю,

Надеюсь скоро
 снова вернуться.

Любимый,

Юр.

18

New York,

October 20th, 1929.

Dearest Mother,

We all rejoiced to receive your two beautiful cables for the 17th of October. It was indeed a memorable occasion! A tremendous crowd of people filled the Building. According to the Police there were 10,000 visitors, and many more could not gain entrance into the Building. The response is wonderful, and when Father delivered his message, the audience remained standing. Professor de la Pradelle delivered a beautiful speech, and the President of the French Republic sent a friendly message for the occasion. Hundreds of cables were received, even one from the Government of Persia. England was represented by Talbot Munqi, who made a fine speech. As you know he has an apartment in the Building. Major Rapiavoli came specially from Rome, and delivered a very fine address. For the past three days, the Museum is crowded

Please give my best wishes to "sther and Vladimir. Had a nice letter from Banen. In a few days I shall send some more books for the girls. Do you need Swami Vivekananda's "Life and Works"? With all best wishes and much love,

Your devoted son,

R.

3608

with visitors, and to-day we had 5000 visitors. The Tibetan Exhibition also attracts considerable attention. Father feels well and we are confident in success. My lecture tour starts on October 25th. I hope to make many useful connections and this is the only advantage presented by a lecture tour. Articles have greater financial possibilities. Enclosed you will find five articles by myself in the Christian Science Monitor. I have been asked to contribute articles on Oriental Art for the Art section of the New York American. Slowly and gradually I shall work out my way into the press, and thus establish a decent income, enough to serve my bodily needs. My book is now with the Oxford Press, and I hope to have it soon published. We are printing now a pamphlet on the Research Institute. Please write me about your life in the mountains. I am still looking for my books, which were sent by Vladimir. They were left in the Customs and I have now to hire men to get them back. Kindly let me know of all your needs and whether you have received the books and photos which I sent you with last week's mail.

19
New York City,

October 28th, 1929.

Dearest Mother,

Since the reopening of the Institutions things have been assuming a more definite shape. We have up to two thousand visitors daily at the Museum, and there is an unusual amount of interest. Mrs Dale has accepted a room in the Museum, and there are possibilities of other people doing the same. I hope Father will soon have a little time for himself.

The Research Institute is assuming shape, and I had several interesting and fruitful interviews with members of the Rockefeller Foundation. I hope we shall be able to begin our scientific work in the coming spring. I cannot express myself, how I would like to be back in Kulu, and to see you all. We often speak of this with Father and Brother. I hope, I shall be able to do it early. My first lecture at University Club Middletown, Conn. was very successful and people were

1808

geniunely interested. My next lecture is on Nov. 5th in Michigan. There are many interesting people approaching, and Father keeps you informed about all the newcomers, so I need not writing about them. I feel a little sorry, that there is no time left for scientific work. The articles, I am writing, have to be so popularly written, that I derive no pleasure from writing them.

Please ask Vladimir to start an investigation about the three cases of books and one case containing a lama hat, which were sent by him to New York. The local Customs authorities have no record of them, and I would be very sorry ^{to} lose them.

Did you receive the books, I sent you with the last week mail? We all were very sorry to hear of Raya's illness. I hope, she is alright by now. Please ask Vladimir to send me an estimate for wall-paper in my room. I plan to bring back with me some Japanese wall-paper for the walls. I am happy to hear, that my library is well looked for. Did Esther receive my letter?

With much love and best wishes to you all,

Your devoted son, JR.

20
New York,

November 17th, 1929.

Dearest Mother,

Your letter of the 19-X-29 brought us great spiritual joy. It was very much needed here, and no doubt Father will write to you about the petty misunderstandings of life. After all everyone is human, and endeavours to visualize things from a personal angle. The impersonal is a privilege of the gods.

The past two weeks were a little difficult because of the general depression on the Exchange. Now, that the Government stepped in, there is hope that the situation will rapidly improve. Many people lost their entire fortune. The happenings of the last two weeks, powerfully exhibit the relativity of the world's condition.

We are fighting hard to start the Institute, and I believe, we have a fair chance of success, even with the adverse condition of the Market. I am now writing letters to different Scientific Institutions and Foundations in order to gain their cooperation.

The Museum attracts an unusual amount of attention, and crowds visit it every Sunday. The week-days are also crowded. The Society of the Reerich Museum conducts weekly

lectures, which are very well attended.

Mrs Hearst visited the Museum, and is said to be tremendously enthusiastic.

Enclosed you will find my first article in the N.Y. American on Early Chinese Sculpture. I shall send you more of my articles when they will be published. My lecture tour is continuing. The travelling expences are terrible, and I shall make very little money profit.

Father has a slight cold for the past two days, and is staying at Home. He is feeling better to-day. There is a terrible demand on his time, and I am glad he is able to spend a couple of days quietly.

Please write us about your life. Many thanks to Vladimir for his letter and the enclosed photos. The river valley is very beautiful indeed, and judging by Ludmila you all look splendid. The size of Chiné and Indian corn is remarkable. Did you receive the list of your books, which I am keeping here? This week I shall send you some more books which might be of interest to you.

Nettie is beginning to prepare for the journey. I envy her possibility to visit Kulu. Hope we shall be able to do the same. I am very anxious to tell you of all my experiences in this world of hustle and conflict.

Please give my love to all in Hall "state.

Your devoted son,

GR.

21
New York,

November 24th, 1929.

Dearest Mother,

Your letter about Agni Yoga made a tremendous impression on all of us. I would like so much to tell you of all my impressions and discuss problems, that present themselves to my mind. After spending so many years in the open, it seems to me that I come from another world, and that the usual atmosphere of a modern city with its almost killing industrialization is something entirely foreign. Notwithstanding the fact, that I meet a good many friendly people, there is always present an impassable gulf, created by the background on which a human personality had developed.

We hope that the cooler weather in Kulu will do you good, and that you will feel yourself better. Kulu is a common topic of conversation here, and we envy Nettie her great possibility.

3905

We were very glad to hear about the good tidings in Kulu, and hope that much of the misunderstanding will be soon removed.

Father has completely recovered from his cold and is now living in the Building on the 25th floor. Svetik is living with him.

Please write me about your needs. Are you receiving the books and photos, I sent you? I am sending with Nettie seeds for your flower and vegetable gardens, also some books on gardening. Please remind Vladimir to send me the measurement of the wall space in my study, and in any other room in which a change of wall-paper is necessary.

How is Esther? Did she receive my letter, which I sent with last week mail? How are the girls?

We were glad to hear that Vladimir and Banen found a nice place higher on the range. It will make a wonderful summer place. ^{did} How Vladimir enjoy his life in a tent?

With all best wishes and much love,

Your son,
George R.

22

New York City,

December 2nd, 1929.

Dearest Mother,

For the past week we had no letters from you, and wonder what became of them. I hope you feel yourself better, and that the Kulu climate will do you a lot of good.

I had a cold for the last three days, but feel myself better to-day. There was a sudden change in the weather, and then I had to lecture on two successive evenings, as a result of which I strained my throat.

We are hard at work in the Institutions. The present difficult financial situation in the country has affected everybody. We all hope that in January the situation will become easier.

Mr. Crane has returned to the States, and is coming with an important man from Chicago to the Museum.

Sviatoslav is arranging his apartment, which is areal museum of antiques. He has a truly wonderful collection of Tibetan bronzes and some very good thangkas.

Father is feeling well and his presence is very needed among the coworkers. Nettie is planning her trip. Please write or cable us about your needs and we shall be only too glad to assist you.

Did you receive my previous letters and the enclosed clippings of my articles? Do you need some more books? How was the weather in Kulu for the past three months? Was it hotter than Darjeeling? How is the sale of fruit progressing? Are you satisfied with the manager? I am planning to send some seeds for the garden.

How is Esther? How are the girls? I wrote to Vladimir a few days ago, and hope he has received the letter. With all best wishes and much love to all of you,

Your son,

JR.

December 8th, 1929.

Dearest Mother,

I hasten to send off this letter before my departure for Cleveland, Ohio, and Washington. I am going to lecture at Cleveland University and will also have to go to Washington on semi-official visit. The things are progressing nicely, and although the financial situation remains rather acute we hope for better times in January and February. I hear, that the situation with the Registration & Sanction is clearing up, and that before long we shall be able to reach complete understanding. Father has written you about the financial position and I shall not repeat.

I had several conferences with leading men in the Columbia University, and expect interesting developments. We shall be very successful, provided we continue in the right direction.

4105

Dearest Mother, please write me about your life in Kulu. It is my sincere hope to be able to join you soon. I would like to tell you so much about my experiences but it is difficult in a letter/ Your letters always come in time ^{we} and appreciate their wisdom. I find people to be too personal, with little desire to sacrifice their petty differences.

I hope you have received all the books and photos which I have sent you. There is always a certain delay with your letters. Instead of coming on thursday every week, they often come on Monday. René Grousset has published in Paris a very interesting book on the history of Buddhism : Sur les traces du Bouddha. I shall forward it to you. The book market is very quiet here, and the last crash on the Exchange affected the buying capacity of the readers.

How is Esther? How are the girls and Vladimir? With all best wishes and much love to you all,

Your devoted son,

George Roerich

24
New York,

December 19th, 1929.

Dearest Mother,

I have been away for almost two weeks lecturing in the Middle West and visiting Washington and Boston. The lectures were very successful and the results of conversations at Washington and Boston extremely gratifying. I hope that before long we shall be able to start constructive work without being handicapped. Friends in the British Embassy are doing their best to remedy the situation and I have reasons to hope for a successful year.

I hope that by now you feel yourself better and that the cooler weather in the Valley will improve your condition. Esther wrote us about the change in temperature that affected you. I hope to be able soon to see you and talk over many questions which it is quite impossible to formulate in a letter.

4208

The Institutions are steadily fighting their way through the fog of the present financial situation in the country. We hope that the general depression, which is in many cases of an imaginary nature, will soon be over. We are expecting your letter with your needs, and you can rest assured that everything will be attended to. Did you hear about the Registration? I am told that there are no difficulties. I am looking for books on Buddhism, but it seems that nothing important came out this year and that the book market is rather dull. I am sorry not to have seen Vladimir's letter about the bear. I trust you will soon start chaining the dogs. Please give my best regards to all friends. How is Esther and Vladimir? How are the girls? Judging from photos you all look fine. With all best wishes and much love,

Your devoted son,

George R.

25

New York,

December 27th, 1929.

Dearest Mother,

This week we had no letters from India. I felt very much worried about the fatigue which you have felt for the past several weeks. No doubt the cooler winter months will help you. I am taking care of the list of books which you sent us. As you probably know Nettie has postponed her departure until March 1st. The Museum has a tremendous success and we hope that the coming year will witness new developments in the Institutions. It was a hard fight but victory is near at hand.

My personal life and activity continue along very much the same lines. I had a very successful stay in Boston and probably shall have to go there again. A number of important connections were made with scientific institutions. It is a little tiresome to meet so many people but I am told this being the

only way to success. One thing always amazes me that people are so easily fired by enthusiasm. In a few moments they are almost ready to reach the limit but next day the interest is already gone. The field has to be ploughed again.

I rediscovered many friends but hardly made new ones, although tried my best to find new people. Possibly they shall be forthcoming.

Please write me about your needs for I shall be always glad to attend to them. Did Esther and Vladimir receive my letters? From mentions in their general letters it seems that they did not receive them.

I had a letter from Captain Banon and shall write him very soon. I hope everything is well in Hall Estate. How are the girls? Are they doing good progress in their studies? I shall send them some more text-books.

With much love and best wishes for a happy New Year,

Your devoted son,

George Roerich

26

310 RIVERSIDE DRIVE
NEW YORK

January 21st, 1930.

Dearest Mother,

We have just received your letters telling us all about the Xmas days in Kulu Valley. It must have been delightful, but we were sorry to hear that you did not feel yourself so well, and that Esther and Vlad. had colds, the last one catching something that sounds like rheumatism in the letter. Unfortunately we cannot boast of a Xmas winter in New York. Only the last two days were frosty, the rest of the time we had fogs and rains and a comparatively depressing and mild weather. The outcome of the Kalidas Case is indeed more than strange. We were glad to hear that our St Germain pears scored such a success on the Agricultural Show in Lahore.

445

Nettie is beginning to prepare for the journey and I envy greatly her possibility. Unfortunately for me, I have to wait until Father is able to go. I am preparing our London visit and Georges writes from Paris that the authorities there are planning a series of functions in honor of Father. Next week I am going to Philadelphia to stay with some friends, and see what can be done for the Institute. I have hope that the visit will be successful. There is so much that I would like to tell you, but have to wait until my return.

Professor Rostovtzeff offered me to write jointly with him an article on some ancient epic scenes on Siberian gold plaques. I agreed and sent him my interpretation of some of the scenes. He found them valuable and is now publishing them under my name as an addenda to his article. This is good

310 RIVERSIDE DRIVE
NEW YORK

publicity for myself, for Rostovtzeff has a considerable name in the scholarly world. I have very little time left for my personal studies, for life in New York is so harassing. I hope to do some good work on my return. Meanwhile I am sending out books by post. I have recently sent to you The Key to Theosophy and two issues of Studies in Occultism. The bigger books will be sent through Nettie. I have also sent a number of my personal books to be placed in my Library. Please ask Ludmila to place them in my book-cases, and ^{do} write me about their receipt. Did you hear anything about the sanction? I am told that things are progressing nicely. Well, we shall see. Please send me the list of books which you require in your studies. I shall be only too

4505

glad to attend to them. Also your other requirements. I know, that Zina and Nettie are bringing some things for you. (That is Zina is sending them through Nettie, to be more correct).

I was very sorry to hear that poor Barakmar died. What was it? Hope that the rest of the dog family is in good health.

We enjoyed very much your pictures of the bear and Vladimir taming the mountain goat. Is the leopard still around? He must have by now a fine fur.

Please write us as we are always happy to receive your good news.

With all best wishes and much love from all of us,

Your devoted son,

George R.

New York.

февраля 15^{го} 1930.

Родная моя мамочка,

Получуюсь отвоздом Поручи-
 чеством написать обстоятельное письмо.
 Но многие причины приходилось
 писать мне краткие вступки.
 Письма часто огулялись необходимостью
 битье полного изложения событий,
 как внешней, так и духовной
 жизни. За последние годы произошли
 знаменитая кристаллизация в моем
 мировоззрении, и твое последнее письмо
 о суровости к самому себе, и о
 воздержании от осуждения других,
 прозвучало совершенно особенно.
 Именно об этом, и постоянно

говорию. Частю меня чуждаются
 в изумлении мимолетно,
 и редко понимая, что эта
 воинственность духа, которая частью
 меня захватывает, есть нечто иное,
 как ватное выражение боевой
 готовности души сконцентрированной в
 мажор событий. Частю вижу себя
 во снах идущим в далекий поход,
 при этом всегда вижу тебя спящим
 на холме в отдалении. И одною
 из последних слов видю как-бы
 приседающую стрелу комиссию
 доминирующую, и идущую по ней конвою
 войск. И конюга ска пошлю человека
 с твоей вдовой, которой умиш меня
 ныне пишу. Интересно отметить,
 что пропуская я как-то слова
 совершенно незнакомою психею.

Кознаю отнѣсится ии дѣло
кѣ дѣствительному походу,
нии доаво символическое выраженіе
состояніа духа. Такъ хотѣлось бы
испытать себя на дѣлѣ.

Постараюсь изложить содѣній свое
предвѣаніа здѣсь по порядку: -

1) О лекціяхъ я уже писалъ. Fearings
былъ необычайно медлительнѣе, какъ нѣко
вѣхъ нѣко 30 обдѣланныхъ лекцій, и
нии доаво 16, хотѣя уесть быи
Головной. На своей послѣдней лекціи в
Philadelphia ниии audience в 1000
человѣкъ. Принаево ямѣнны в итѣнкой
касетѣ. Кѣ соуданнѣио при подписаніи
contract'a не условились о ниии и
разрѣды. Вожеи существующи
правилаи нѣурнѣ, ииѣ приходяиисъ
всѣ ниииіи самонѣ. Вѣ результѣиѣ
нѣрнѣио уовѣиѣиѣ. О подробностяхъ

4705
раскажут много.

2) Книга моя сейчас в Yale University Press. Абдул расматривает книгу (около 600 стр.) Yale Press старается понизить сумму на издание книги от Университета. Если все произойдет благополучно, каждая выпустит ее в свет.

3) Сейчас работает над финансовой кампанией для Института. В результате \$ 100.000. Задача — привлечь деньги. Nettie изучает метод проведения кампании. Ветеринары с помощью старых друзей Института. Институт должен по деньгам быть обеспечен. Там же указаны Philadelphia, и действительно этот город необходимо посетить. Кроме этого, нужно быть в городе (необязательно много для этого города) и приобрести много друзей, которых можно

поступаю. Все они много
 люди и творительно работающие
 женщины. Хотелось бы сослаться на
 много о них вехи. Кроме музея
 и в котором были даны указания. Вот
 краткий список имен, из которых вы
 знаете: Mrs. Taylor, McCall, Alfred Collins,
 Helen Glenn, Mr. White, Appleton, Wheeler,
 из них Mrs. Taylor была членом, и
 действительным членом общества.
 Я уже писал тебе, что Archaeological
 Institute заключил с нами договор
 о издании законов. Рефер о нем
 будет ладнее достигнуть результатов,
 под рте "social context" единичных
 возможностей чуждой работы. Netlie
 рассказывает тебе о создании связи,
 а также о преобразовании работы и помощи
 моего старшего друга Robert Bell'a.
 Надо бы еще не вехи канонами.
 Хотелось бы вернуться в Нью-Йорк и к нам

419 4808

отдохнуть отъ капремонтной работы.
Наско чувствую себя хорошо
и мы счастливо соображаем,
вот так действуем и вообще живем
мирно.

Мно сердечной мой правды Олао,
Влад. Ант., Людмила и Кат. Труд
ради всего снова увидать.

Посылаем с Nettie ради вещей.
остальные привезем сами. Выгружаем
4^{го} апреля, и 2^{го} мая покидаем
Италию на Тондэй. Придем
остановившись в Лондон для переу-
стройства отъезда.

Ура до скорого свидания.

Кривою отнимаю,

Мои сны.

Ант.

Ради за возможность Nettie. Макс будет
осознать размеры работы, и что каждое
расширение есть не менее труд, а новое
стимулирование.

New York.

28^{го} февраля 1930.

Родная моя мамочка,

Ужасно мне было читать,
что письма мои являются незакон-
ными, но как же случилось
обстоятельство. О нем мне могу
говорить только мама и я надеюсь,
что письмо, которое Мэд передает
Nettie осветит Мэд положение.
Теперь, как-то особенно трудно
говорить о себе, так велики наши
крушения. Часто пытаюсь описать,
вернее даже самому себе, отчего,
о происхождении внутри себя. Но,
каждый раз пишу как-то такое, что
кажется снова глубже как-то

4908

чуждо, и расхождение мнений
откровенно выражения. Поэтому
сбавился изумление только факты.
Суммируя переживания за последние
годы, конституируя семью как
преступление, а также осуждение геро-го
боломеля, как-бы надвигающегося
механика. Пышно сказано, есть-ли
это сознание наступавших событий,
или это порождение воображаемого
духа. Само очевидно, что от этого
состояния не приходится говорить,
но как-то ясно, что это
обсуждение от людей близких.
Знаю, что все написанное чрезвычайно
нуждано, но, повторю, не уметь
акцентировать самое себя. А
именно в этом акцент нужна

особая деятельность.

Каждое, что временное
возрождения устремлено уже прошло,
быть, как будто нужно было
осмотреть

Важная работа производится весьма
интенсивно. Финансовый "drive" который
сигнал начинается, занимаемый много
времени и я редко вижу свободный
берег для своих занятий или
писаний писем. Хотелось бы в
Круге писать Холмс-Дей два ^{свободных} месяца,
чтобы поглотить свои занятия.

В. Архив восточных музеев
в Риве des Arts Asiatices.

Прежде мой Музейский Ученый
хотел в Библическом Музее.

Вопрос с какой моей еще
включается. Батис-модуль
приведен к началу в Лондон,
его империя знаменитые,
Полковник, как пробирался Иба Дни в
Вашингтон. State Department неслучайно
государственный генералов в Радио

Кратко откликаю,

107.

New York City,

March 12th, 1930.

Dearest Mother,

Three more letters from New York and we shall be sailing for Europe and India. It is hard to believe that in two months from to-day's date we shall be nearing Aden on our way to Bombay. I hope that you feel yourself better by now and take good care of yourself, taking plenty of rest. I am living through very hectic times, with the Campaign in full swing. Nettie will tell you about the details of the drive. I hope we shall be successful, although the results will, probably, come at the last hour. To-morrow I am off to New Bedford on my last lecture in the tour, and then on to Boston to visit people in connection with our Campaign. I am enclosing a clipping about one of my lectures on the Expedition. The rest of clippings I shall bring with myself,

5708

We often speak of Kulu and Sviatoslav received to-day a package with cedar oil and other materia medica. I am sending you by post some seeds for your vegetable and flower garden. I experienced the difficulties in finding good books on gardening.

Many of them are extremely technical and can be of very little use. I am, ^{bringing} however, several on fruit-growing. I hope, you have received all the books, which I have sent you by registered mail. This letter will reach you already after Nettie's arrival, and you will be by that time well informed about our activities for the past winter.

Do you know whether Captain Banon is still looking for a good strong horse, as I have asked him to do before my departure. We shall probably need one extra horse this coming summer to replace the white horse which must be by now a complete invalid.

Please give my best wishes to Nettie, Esther, Vlad. (who is silent for many weeks) and the girls.

With much love,

Your devoted son,

George R.

New York.

March 24th, 1930.

Dearest Mother.

Last week I did not have any chance to sit down and write you a letter. Things have been moving so rapidly, that I had hardly time to sit at my desk and attend to my correspondence. Very soon Nettie will be with you, and you will be able to learn about our activities. I trust I have succeeded in getting together a group of friends who will look after the financial needs of our Research work. There are possibilities in the air, and I hope to have secured efficient workers.

I am happy to tell you that my book
has been accepted by the Yale University
Press for publication, and is now in
print. It was a hard thing to place
that book, because of its expenses (600
pages, about two hundred photos and
maps). I am eagerly looking forward
to my return, and the work in
the Valley. It will be so good to see
you all again. I have shipped four
cases of books belonging to Ursavati
and hope that they shall reach in good
order. Inclosed please find a photo of St.
Sergius' tomb. One of his Monastery has
been recently blown up. What vandals!
I hope you have received all the books
sent by me. Among them were several
on gardening. I am sending an invoice
for seeds, which have been shipped to
you. Some of my friends are sending
some more seeds of rare flowers for
your garden. Please give my best regards
to Nettie, Esther, Vlack, and the girls.
Your devoted son, George R.

*Carlton Hotel,
London, S.W. 1.*

May 17th, 1930.

Dearest Mother,

To-day is just a year since we left Kulu. By the time this letter reaches you, our botanist will be already with you. We are still in the dark as regards our visas. We are trying hard and friends are helping energetically to remove the obstacles. We did not expect these difficulties and the whole question has assumed a very intricate shape. We have sent a cable to the Viceroy but so far had no answer from Simla. Please rest assured that we shall

do our very best to obtain a favorable decision. Already now the delay has caused considerable money loss and we hear from New York that the situation has given rise to a widespread feeling of bewilderment. The State Department is sending now a second request on our behalf.

Svetoslav is still in New York. The work in the U.S. is growing tremendously, and we have good news from Frances. Please let me know whether you have received the four cases with books belonging to the Research Institute, also the several cases with botanical equipment, sent through the Hudson Shipping Co. All the books belonging to the Institute should be put

5305

in " Arcadia ".

We were greatly worried on the receipt of your cables regarding your health. We hope that the worry caused by our unexpected delay will not affect your condition. It is so important to remain quiet during the summer heat. Are you well supplied with medicaments? We have seen recently Sir Jagadis and Lady Bose who are on a visit to London. Rabindranath Tagore is also here, lecturing on religious topics.

It is really too bad that our delay should have occurred at the very last moment. Had it occurred four months earlier, or last summer when we presented our first letter to Sir Esme Howard (July 26, 1929), the matter

5405
would have been different.

Please give my very best regards to Nettie and Esther. We have good news from Flavius.

How is Vlad. and the two girls? We are very anxious to see you all.

Georges is sending you his best wishes.

With all best wishes and hoping to rejoin you in the nearest future,

Your devoted son,

Georg R.

TELEGRAPHIC ADDRESS:
CARLTON HOTEL, LONDON.
TELEPHONE: GERRARD 7826.

37
*Carlton Hotel,
London, S.W. 1.*

May 24th, 1930.

Dearest Mother,

We are still in suspense regarding our visas. Some people say that the delay is due to the present situation in the country. Whatever the reasons may be, they came quite unexpectedly. It is evident that we are obliged to continue our representations. The matter receives considerable attention in the United States and many important personalities have cabled to London, requesting official circles to

I am writing a separate letter to
Vlad. with instructions regarding
the immediate work in the Institute.
The botanist should start his work
immediately in order not to lose
precious time.

Georges is sending his kindest regards.
Please convey my heartiest wishes to
Nettie, Esther, Vlad and the girls.

With much love and devotion.

Your son,

Georges R.

Paris,

10th June, 1930.

Dearest Mother,

Our unfortunate delay makes us very sad. The simple question of visas has assumed an unusual shape. Please be assured that we shall continue the negotiations and hope to have some results in two or three weeks. Our case has made new friends for us and we are confident that we shall soon be able to rejoin you all. We hope that the summer heat is not so severe in Kulu, as last year, and that you feel yourself comfortable. Please write about your health. We are so anxious to hear from you.

Last week we arrived to Paris. Our French friends are very attentive. The President of the Republic will receive Father and myself next Friday. After this we have a number of other important engagements. Father has been elected Honorary Member of the Yugoslavian Academy, and Frances writes about a great success in South America. The exhibition of Father's paintings in Rio at the American Embassy was a great event. You probably have already received letters and newspaper articles from her.

We were extremely glad to hear that Dr. Koelz has joined you in Kulu. I am writing him a letter telling about new connections of our Institute with French Botanical Gardens. Please ask him to collect every plant in several specimens, in order to enable us to send a complete collection of West Himalayan flora (Kulu) to the Paris Botanical Gardens. I am sending under separate cover a book of Instructions for collecting plants for the Paris Jardin des Plantes.

Father is feeling fine and we are taking good care of him. We met in Paris a very good friend and a spiritual man in the person of Monsieur Chabas, President of the Salon des Artistes Francais. Monsieur Chabas had wonderful experiences and knows a great deal. He is a great admirer of Father's art and an active member of our Paris Association.

We have good news from Svetoslav. although his affairs are still pending. We hope to have good news from him regarding his case. He does not write, but we hear about him from Maurice.

5706

THIS very moment comes a long letter from him. He is still uncertain about his plans and it is really a shame that situation remains unsettled for such a long time. He writes, he has sent thirty six cases of bio-chemical equipment to Bombay to await our arrival there. Did you hear anything about it?

As to myself, I have little to add, besides the fact that most of my time is taken by negotiations and interviews. My big book is in print. My article on Tibetan paintings is also about to appear in the Revue des Arts Asiatiques. My article on Tibetan phonology for the Asiatic Society of Bengal is also in print. For the rest I am feeling fine, and am anxiously expecting a chance to have a long talk with you. There is so much to tell you.

Please convey my best wishes to Esther, Nettie, Vlad and the girls. It is a matter of deep satisfaction to us that in this trying moment of separation you are surrounded by true friends. Georges is sending his respectful greetings.

With all best wishes and much love,

Your devoted son,

G. Georges R.

We shall send you the book of Npenod Stano
Ucaara Cepuka "Mamene bejeu".
The book of the Saint was published
in Serbia and on its cover is reproduced
Father's painting "Hobopodcku
Norveur".

Paris,

June 18th, 1930.

Dearest Mother,

We have just received your cable acknowledging the cable we sent you about our audience with the President. We found in him a person of great culture and a friend, well informed about our Institutions and Father's work in the name of art and science. This audience was a very happy occasion for us all. It was very gratifying to see that France has as her Chief Magistrate a person of rare knowledge in the sphere of arts and sciences/

It is our great hope to rejoin you very soon, and we feel that friends are willing to help us in this trying hour. It is very gratifying to find that everyone has a great respect for Father and that Father's standing in Imperial Russia is well-known in French circles. This is especially gratifying since in some countries we found a surprising lack of knowledge. Your letter of June 4th has safely reached us and we were happy to read it. We hope that the summer heat in Kulu will not affect the state of your health. I am glad to know that Dr. Koelz is well impressed by the possibilities for scientific work in the Kulu region. His work may be very important. Please give him my best regards

reconnais chumok or Kapunay Child's.
Dynamite, he was in the operation before.

5805

Yesterday we had a luncheon in honor of Father arranged by the Marquis d'Andigné and the Conseil Municipal de Paris. It was a very happy occasion. We have a very active time in Paris and I shall tell about all the interesting details personally.

Madame de Vaux Phalipau is a real friend. Georges is doing good work. Unfortunately his mother is again suffering from an accute attack of an internal character and very indefinite in nature.

We have very good news from Frances and her activities were very favorably commented upon by the U.S. Embassies in their letters to the State Department. Svetik is still waiting for a decision. We had a letter from him quite recently and he tells us many interesting details about the whole procedure. Myself, I am feeling well and am going strong as usually.

The eye trouble is getting better, but I need a lot of exercise.

My article on the Tibetan banners has finally appeared in the Revue des Arts Asiatiques.

Please let me know whether you have received all the seeds sent to Naggar from New York? I wonder why Vold is keeping silent for such a long time. How are Nettie and Esther? Please convey to them my very best wishes. How are the girls? We are bringing them some more books to read. A couple of days ago we saw the Childs. They are dear friends and Charles had a very good exhibition in Paris. He made very good progress and presented one of his paintings to Father.

With much love,

Your devoted son,

George R.

Paris,

June 24th, 1930.

Dearest Mother,

We have received your letters of June 11th, one from Esther and one from Vlad with all the details about life and activities in Naggar.

We all are greatly concerned by the state of your health and pray that we may rejoin you in the nearest future. Esther is quite right in saying that all that is now happening to you has a special meaning. I am sorry to hear that you had so far no response to your telegraphic and written applications. It seems incredible. The copy of the letter from the missionary gentleman is simply ridiculous. To refuse shelter to a sick person and a lady is a novel departure and certainly the first one in the annals of a mission. We are doing our very best to expediate the matter and are quite confident in the ultimate success. The howling of a storm has very often pleasant notes to it and we are well in the saddle.

I was very glad to hear that Dr.K. likes the place and his work. He made a very fine impression in New York and I am happy that a scientist and a gentleman is now with you. The last quality is extremely rare nowadays. Vlad writes that you have not received the list of books belonging to the Research Institute as well as invoices for the cases with equipment. The list of books and all invoices were sent to you by registered mail long ago. I had also written a letter about Dr.Keelz and was surprised to hear that you had not received it. Many letters must have gone astray. As you know all my letters are sent registered and all the receipts kept in my office.

5908

I am very anxious to have a long talk with you, as I know that you will thoroughly enjoy some of the stories. My article on Svetik's collection of Tibetan banners has finally appeared and I shall send you a copy of it as soon as I shall receive the separate prints.

We had a letter from Svetik. His affairs are still delayed and the whole procedure hastaken an unusual shape. He is in good spirit.

I am glad to report great success in South America where Frances is doing fine an useful work. The European continent has been also extremely favorable.

I am glad to hear that you have finally received the package of seeds, which I have sent you from New York. I have with me another package of rare flower seeds given to me by a friend in Philadelphia. I shall bring them myself.

~~We were sorry to hear that Panchi is getting old~~ and will have to be replaced on our return. His asthmatic condition was evident long ago. I hope that the rest of our zoo is doing well.

The landslides are very deplorable, and I hope that the monsoon will not cause further damage, for it seems that the Estate has a lot of loose earth.

Please give my very best thoughts to Esther, Nettie, Vlad and the girls.

Your devoted son,

Geny Rorich

P.S. I hope Mother remembers the missionary's letter from Leh.

Париж.

20th June 1930.

Родная моя мамочка!

Вот наши мысли о Тебе.
 Принимаем все утро, чтобы
 укоротить путешествие. Главное, сохранить
 здоровье. Это самое важное в
 настоящее время. State Department
 и наши друзья французские вновь
 обдумывают на христианство. Сердечно
 Воскресение, но завтра идущий
 убогий. Беседуем со Светлой по
 телефону через океан. Хорошо слышно,
 она бодр, и также энергично работает
 над укоротением путешествия. Видим
 М. Raymond Poincaré. Этот великий
 человек отыщет все свое рождение

и работи Музея. Удивительно 6000

ких республик интервенционизм
по нашему делу.
Надеемся, что этот укрепит

Paris.

22^{го} Авр. 1930.

Родная моя мамочка!

На этой неделе получили
ваше письмо Esther и Nettie с
уточнениями французских условий
к организации Уюта. И теперь
русские Нана уже подробно объе-
дают на все французские вопросы, по-
тому что некоторые из Уюти-
сты. Раз считаем, что Esther
сформирует яичные Уютисты.
Тогда, что для Nettie будет сущи-
ком много работы по одушевлению друзей
иногда еще занимаемых Уютистами.
Общество чрезвычайно расросло, и
в будущем году наши Европейские
отделения потребуют много работы.

6505

Содержательно вторым по Ученителю
работы ограничивается защитением
меня на заседании Trustees и Finance
Committee. Вся routine work ведется
Miss Linden, которая вполне справляется
с работой. Главной стеной деятельности
Ученителю в Америке является
В.А. Перлов, мой друг и духовно
близкий мне человек. О нем
хорошо говорит Вл. До сих пор
на заседании Trustees меня защищает
Зина. Кажется она совсем
продолжает работу в отсутствие
Esther и много, ибо до отъезда
обсудили во всех деталях деятельность
Ученителю. Отлично Ученителю
Вам посвящаются ежедневно.
Budget почему-то не посвящается нашим
Finance Office, хотя я неоднократно
просил об этом. Кажется; Вы

теперь фидуцарно полагаете его.
 Точно, что много писем по-
 падают, как это было было
 с письмом, извещающим
 о поезде Dr. Koelz. Но письмо о
 каком-то Chesterfield, так же я не
 знаю, но думаю, что Esther имеет
 в виду Mr. Shuttleworth, с которым
 я действительно был знаком. Вопрос
 остается открытым. В моем письме
 Влад. Ан. посылает ряд указаний по
 научной работе Института. Ряд сообщает,
 что библиотека Института полагает
 от издания учебной книги.

Всем силами стараемся погнать
 взы. Вопрос принял совершенно
 неопределенную форму. Америка сдвинула
 американское представление. Вот Ю. Аме-
 риканские страны также двинулись.
 Собираются погнать вопрос в Лигу
 Наций. Снова несомненным сураи.
 Вступил в борьбу, но все же пруссия,

P.S. Как у нас, так сейчас
оказались и у нас.
Множеством Бановъ.

Paris
28th Sept., 1930.

49

Родная моя мамочка!

Притхана Nettie и как радостно
было слышать дружное слово о Мейт и
всех наших немцах и в Hall
Estate. Nettie очень выросла душой. Сан-
Торр, и то бы она сумела укротить
непокоряющихся, и мейт, кто снисходит
к своим утихам, добиваясь о гоним
переходит. Председатель. Завтра Nettie
побывает в American Embassy и
во французском Мин. Иностранных Дел.
Дружное слово будет и наше громадное явление.
Разр. сообщит, что Меркунатодер Красной
Крест послал телеграммы в Сунгу и
Лондон. Югославия, Франция, Чехословакия

Pondicherry,
French India.

November 7th, 1930.

Dearest Mother,

After twenty four days of quiet sea voyage, we arrived to Pondicherry, and now are awaiting the outcome of our negotiations. We received your letters of the 27th and 29th ultimo and were glad to hear your news. We hope that the authorities will soon give a favorable reply. Your health is a continuous cause of great worry to us all, and we hope that our doctor will be able to remedy your condition. Of course, you need complete rest, for the last six months were all, but restful. Please let us know by wire about the situation.

It is our fourth day in Pondicherry. It is strange to be back in India and to behold familiar scenes of rural life. The first three days were very hot with considerable rainfall. To-day is better and we shall rest from the heat. We met the Governor and the Archbishop of Pondicherry. Both promised to assist us in every way. Yesterday we visited an interesting prehistoric site, and discovered several clay urns, some remains of bones and iron swords. The whole collection will be given to our Institute. Also some pottery and polished stone axes.

The hotel here is of a dak-bungalow type, without running water and good bathrooms. Our bathroom is situated on the roof, and last night wandering in the darkness I had the misfortune (or fortune) to step on a mouse and crush the poor animal. Pondicherry has many memories of the XVIII-th century. Some old houses and churches, as well as ruins of an old fort.

While in Colombo we paid a visit to Kandy and saw its Buddhist temples. The road from Colombo to Kandy (about 105 klms) was magnificent and we thoroughly enjoyed the trip. All the time the road led across beautiful jungle and hills that vividly reminded us of the foot-hills of the Himalayas.

719 7205

I sincerely hope that the Lord will help us to reach soon you all. We received assurances from the Government of France and the French Ambassador to London that they will continue their demarches. The whole matter assumed such proportions, that it is a matter of personal honour to fight for a speedy and favorable reply. You can rest assured that we shall do all in our power to vindicate our name, and to remove from it the ridiculous allegations.

I was happy to hear about the successful trips of Dr. Keelz, and hope that he has received my letters. Our doctor and myself are very anxious to join him in the scientific work.

Sorry to hear that some of the things arrived broken. They were packed very carefully in N.Y. You probably have received several packages with books for yourself. We shall bring a gramophone which seems to be good, according to our doctor who is an accomplished pianist (really good).

It is impossible to get warmalething in Pondicherry, and we shall have to buy them in Madras.

With all best wishes to Esther, Vlad and the girls,

Your devoted son,

George

719
Pondicherry, 55
November 17th 1929

Родная моя мамочка!

Многу канцурнай праблемы и
мысли кривогу и бодрости к
17^{му} числу. Мертая, обитая -
могущая и без достаточного основания,
что дитя еще принесет к нам
глубоко-удачное разрешение вопроса
для которого бьемся вот уже
18 месяцев / с июля 1929 / .
Главное сохранять здоровье и гарантию
не вернуться к сердцу безнравственное
отклонение. Конечно, что все
всегда ко всему нам приходится.

Все-же боримся, что скоро все 7306
разрешится. Бойни-могилы, как
всегда, но уже лучше день, а мы
бы так же хотим знать этот день,
что когда еще придет в дом
каждо-дневных изменений.
Pondicherry жарко и душно,
маленький городишка, территория
и как-то то же самое. Каждый
день совершаем прогулку от
границы к границе. Пошли снова
температура Lord Irwin, Acheson и
Benn'y. Ждем вестей из New
York'a и Лондона.

Моему сердечный привет всем,

и надеюсь скоро
встретимся,

Иван
10.11.

Pondichery. 56

Nov. 26th 1950

Dearest Mother,

Captain Banon arrived and we rejoiced to see him again. Kulu and you all seemed so near to us. Things are beginning to move, but I am still afraid to say, that we are on the right track. Friends are active in London and the U.S. Lots of harm has been done by irresponsible individuals, but our friends are quite prepared to follow them up for slandering the good name of Father. We were very worried to read Esther's letter of the 16th & 17th

7405

Hope you feel better by now. I quite agree that we are living through an historical period, but I fail to see the necessity of being cut off from every possibility to continue scientific work and of suffering such heavy financial loss. We are quite ~~quite~~ ready to ~~not~~ organize a special "Viro" department in the Museum and to continue our efforts until we arrive to an honorable solution. Sorry my photos were bad, have sent some better once. The sun is too strong to take photos without topics. With much love to all of you.

Your devoted son,
Geyer R.

Родной мой маме,

Надеюсь вы и Сигизмунд
Все хорошо. Дни
прошли и с вами прошло
Долгая уже не так
мало, а по-прежнему
и вы и Кудя и все
хорошо. Вы все
особенно с вами Паша
Томе. Мойте завтра
сидите.

Вот и Крым.

Еще раз.

Теперь еще! Это
уже не Бессарабия.

Зачем же едем.

Скажем, что Бессарабия
нам нужна.

Крымский вопрос. Нет
для Крыма Крым
и аннексия.

Вот

Вот.

Delhi.

1 Дек. 1955.

Рогной мой Максим,

Вот уже два дня как
 в Дам. Все таковы же
 нонусы. Ах да Д-ра Тхачи-
 карар. Там же вон там
 ступи. Вспомни, что инертно
 будет. Посмотри также Д-ра
 Хуанона Котера в Дам. Кардн.
 не свежее. Который также
 акад. и инертно соотв.
 с, и что фактически у-да по-
 ходили бы в Дам. Кане-
 лра. Кр-во таковы, что он
 провешен одобрением или как
 канонизи. Д-ра Тхачи-карар
 примает меня отдам, не
 б-де пригласит совсем мне
 Рукмани Арундат, которая вхо-
 р-ка, что Хорн пригласит в
 Kalimpong и в Дам.

говори о и бонд и емпайнх.

61-
3 Дек. 1953.

Всер.

Рогной мой Масик,

Очень обрадовался получению твоего письма от 1^{го} Дек. В основном мои дела закончены. Казеши еще побудителе пандиты, но он очень занят приездом Виза, а сегодня еще заседание президиума. Бхати карор отъезжает с Ингрид утом. Такие причины к выводу, что лучше иметь автономное учреждение, казенная табачная Неоду, которая как-была серьезно отнеслась общими в Инваре обитываю село. Ездил с Бхати карором на его ферму — прекраснейший домик. Посетил его физическую лабораторию и дорожный институт. Все это предвещает добрый фундамент ей.
