New Zealand.

Dear Friend of the East.

Have just been for a wonderful holiday in our mountains but my thoughts were often with you and how you would have caught their beauty and wonder.

It is a few years now since we had last made contact - but you are often in my mind.

How is your great work going and your dear wife and son up at Nagga - what a sad world it is - playing with the great Cosmic Powers - putting them to the wrong use.

May the Holy Ones protect you and keep you always in service.
