

Dear Madame Roerich,

Long, long has a note of gratitude been due you. It can no longer be delayed. Agni Yoga, Heart, Hierarchy are precious, precious to us and their significance grows more apparent with each new day. For your service in transmitting them to us we are very grateful, and for your guiding ray which is that of the Master.

It has been inspiring, too, to learn of the untiring energy of Nicholas Roerich in breaking the soil, plowing and planting in

the fields of earth the seeds of culture,
that peace may be reaped as
consciousness quickens and grows.

The Philadelphia Roerich
Center is honored to bear your
name, and is happy in striving
to promote your ideals which are
those of the blessed Hierarchy.

May we co-measure!

Sincerely,

Ruth Unangot.
