Mme. Helena Roerich  
Naggar, Kulu  
Punjab, British India

Dear Mme. Roerich,

Your message of help has reached me through a letter from Sina and I wish to express my deep gratitude to you. That your thoughts and assistance have helped me go far along the road to recovery these past months, I have no doubt. I want you to know that although I realize I was very ill and sometimes during my long stay in bed became nervous and depressed concerning my recovery, I am now well enough to go about my daily necessary duties. For this I am grateful, and I try not to overtax my strength which I now hopefully feel is increasing.

On Monday of this week, October 2nd, I was able to get the Strophanthus and started taking it on that day as you directed. For this advice and direction I am deeply grateful and it is my hope that I have and will continue to merit this Guidance.

Devotedly,

*Janet Hodick*
