Dear Madame Roerich:

Please accept the sincere greeting of one who is in great debt to the Mother of Agni Yoga.

Being of the so-called " Cold Nordic Strain ", I am not given to flowery and effusive expressions of love and devotion. I can best express my self in direct action. Therefore, I shall manifest my devotion by defending to the best of my strength, the honor and prestige of yourself and Professor Reerich against the crudities of traitors in the Western World.

The Teaching, as expounded thru you, has been a most inspiring source of strength to me. I have little hope that I shall ever have the privilege of seeing you physically but it is my constant effort to attune the rythm of my heart to your own and the Heart of the World. In that manner I believe I shall be closer than by mere physical presence and shall be more useful to Universal Growth.

Yours most sincerely,
