My dearest beloved Mother,

As you brought your magnificent letter of May 31st -
to me I am so deeply grateful for your loving care and for
your desire to alleviate our burdens which you have so
beautifully accomplished. Our meagre words are
needed only to express our true feelings of gratitude to
you, beloved Mother, as well as our profound admi-
ration and reverence. It is impossible for me to describe
what your glorious message and love have meant to
us who are humbly aspiring on the path to Heaven.

The future of Cuba, is very dear to us therefore we
watch with great anxiety the fulfillment of the great
prediction and every step forward or backward af-
fects us deeply. Your heroic care and generosity,
your expert guidance of the mission of God, in one
of deepest interest to us. The precision, the vision,
the inspiring and yet forceful manner you have
employed in directing this task has called forth
our greatest admiration and respect. We have been
of one of the divine opportunities given to us, and
if we had indeed if they are not accepted. We are
very concerned about Cuba, accepting the Planes &
and given what the consequences will be if it is re-
jected. In addition to your generous sending, the L.
has given another message here for God. It trans-
mits to God ~~which is a~~ ~~message~~. The removal of the
wonderful care and guidance for the successful
accomplishment of this great and brilliant plan.

Thank you, beloved Mother, for your detailed
analysis of the Plan. Tell me your efforts to

Now regarding the photographs - I once asked you to
write to me that I gave George a folder of photographs
which included the first sketch he sent over to
you. In this folder were some others of relatives
brothers etc. but I do not recall seeing any more
of the children than the ones George sent you. ^{you} ^{perhaps}
I am sure George would have sent you all
the children. - I have also looked again in my apt.
for the photos. I once asked you how I happened to have
these photographs and whether you, dear Mother, had
not sent them to me originally, which I denied.
Only recently, before Father's arrival I spent time by
photo & said I have some photos of "real N" family.

straighten out the entire relations between ourselves. You write a note of apology. I want to see the application of Ethics to life about which you have so consistently and unquenchably written to us in order to improve our relationships here. I deeply appreciate your reestablishing day & night and honor for the world. The engineering on other people's departments and grounds was becoming a habit and I of my own, beloved father, for showing the eyes and left me to perceive the light-mindedness of thought and action. I should also like to see your paragraph on prerogative understood and also greater respect shown to the words and advice of your own father, so that they should not be used in part or distorted to meet one's own ends or justify one's own opinion.

Barbara Fuller said, that our meetings the table should be an altar. This idea I gave a suggestion to G. about the printing of Proceedings. We read I refused to answer me copying P. & R. and also should be an altar. I simply gave the suggestion that two estimates should be obtained for the printing instead of one. He also refused to answer my note about the law. incident on the receipt or chief note considered a sacrifice before the altar. So now the name of altar is used as a shield to cover one's pride or wrong-doings. Even Sidney was shocked at the attitude involved.

They express my profound appreciation for the Chapter on Henry Ethelred which I read and took to my heart. I was rejoiced at the beautiful words to God which touched my heart. It is very grateful for your good thoughts upon the beginning of his new millennium which we hope will bring benefit to our beloved world.

We repeat at all the good news from Father and the great understanding and reverence rendered him. We received many newspaper clippings whose highest tribute to you we have.

I thank you, beloved Mother, for the beautiful indication about myself which you sent in your last letter. I shall strive with all my heart to manifest great-heartedness in life - the increase of relationships with all sorts of characters - great virtuous ones and I value them doubly by all the offerings we are gathering.

You asked about Mrs. Fletcher Deringham - of an of Mexican Comm. I was very much in favor of it but as there was not full accord about it, the matter was dropped. I have asked Mrs. Fletcher's active cooperation for W. Mans' unity in the movement greatly interested her. At the past meeting I asked her to be Chairman until she did and handled splendidly, and was truly elated about the spirit of the meeting. I believe she would be better suited for W. Mans' unity, and besides Prof. Renshaw has written that Mr. should strongly lead the New Comm.
